

Revenue Bulletin). The preceding sentence shall not apply, however, if the grantor or contributor was responsible for, or was aware of, the fact that the organization did not satisfy section 4945(f) at the end of the taxable year with respect to which the organization had obtained an advance ruling or a determination letter that it was a section 4945(f) organization, or acquired knowledge that the Internal Revenue Service had given notice to such organization that it would be deleted from classification as a section 4945(f) organization.

[T.D. 7215, 37 FR 23161, Oct. 31, 1972; 37 FR 23918, Nov. 11, 1972]

§ 53.4945-4 Grants to individuals.

(a) *Grants to individuals*—(1) *In general.* Under section 4945(d) (3) the term “taxable expenditure” includes any amount paid or incurred by a private foundation as a grant to an individual for travel, study, or other similar purposes by such individual unless the grant satisfies the requirements of section 4945(g). Grants to individuals which are not taxable expenditures because made in accordance with the requirements of section 4945(g) may result in the imposition of excise taxes under other provisions of chapter 42.

(2) *“Grants” defined.* For purposes of section 4945, the term “grants” shall include, but is not limited to, such expenditures as scholarships, fellowships, internships, prizes, and awards. Grants shall also include loans for purposes described in section 170(c) (2) (B) and “program related investments” (such as investments in small businesses in central cities or in businesses which assist in neighborhood renovation). Similarly, “grants” include such expenditures as payments to exempt organizations to be used in furtherance of such recipient organizations’ exempt purposes whether or not such payments are solicited by such recipient organizations. Conversely, “grants” do not ordinarily include salaries or other compensation to employees. For example, “grants” do not ordinarily include educational payments to employees which are includible in the employees’ incomes pursuant to section 61. In addition, “grants” do not ordinarily include payments (including salaries,

consultants’ fees and reimbursement for travel expenses such as transportation, board, and lodging) to persons (regardless of whether such persons are individuals) for personal services in assisting a foundation in planning, evaluating or developing projects or areas of program activity by consulting, advising, or participating in conferences organized by the foundation.

(3) *Requirements for individual grants*—(i) *Grants for other than section 4945(d) (3) purposes.* A grant to an individual for purposes other than those described in section 4945(d) (3) is not a taxable expenditure within the meaning of section 4945(d) (3). For example, if a foundation makes grants to indigent individuals to enable them to purchase furniture, such grants are not taxable expenditures within the meaning of section 4945(d) (3) even if the requirements of section 4945(g) are not met.

(ii) *Grants for section 4945(d) (3) purposes.* Under section 4945(g), a grant to an individual for travel, study, or other similar purposes is not a “taxable expenditure” only if:

(a) The grant is awarded on an objective and nondiscriminatory basis (within the meaning of paragraph (b) of this section);

(b) The grant is made pursuant to a procedure approved in advance by the Commissioner; and

(c) It is demonstrated to the satisfaction of the Commissioner that:

(1) The grant constitutes a scholarship or fellowship grant which is excluded from gross income under section 117(a) and is to be utilized for study at an educational institution described in section 151(e) (4);

(2) The grant constitutes a prize or award which is excluded from gross income under section 74(b), and the recipient of such prize or award is selected from the general public (within the meaning of section 4941(d) (2) (G) (i) and the regulations thereunder); or

(3) The purpose of the grant is to achieve a specific objective, produce a report or other similar product, or improve or enhance a literary, artistic, musical, scientific, teaching, or other similar capacity, skill, or talent of the grantee.

If a grant is made to an individual for a purpose described in section 4945(g)

(3) and such grant otherwise meets the requirements of section 4945(g), such grant shall not be treated as a taxable expenditure even if it is a scholarship or a fellowship grant which is not excludable from income under section 117 or if it is a prize or award which is includible in income under section 74.

(iii) *Renewals.* A renewal of a grant which satisfied the requirements of subdivision (ii) of this subparagraph shall not be treated as a grant to an individual which is subject to the requirements of this section, if:

(a) The grantor has no information indicating that the original grant is being used for any purpose other than that for which it was made,

(b) Any reports due at the time of the renewal decision pursuant to the terms of the original grant have been furnished, and

(c) Any additional criteria and procedures for renewal are objective and nondiscriminatory.

For purposes of this section, an extension of the period over which a grant is to be paid shall not itself be regarded as a grant or a renewal of a grant.

(4) *Certain designated grants*—(i) *In general.* A grant by a private foundation to another organization, which the grantee organization uses to make payments to an individual for purposes described in section 4945(d)(3), shall not be regarded as a grant by the private foundation to the individual grantee if the foundation does not earmark the use of the grant for any named individual and there does not exist an agreement, oral or written, whereby such grantor foundation may cause the selection of the individual grantee by the grantee organization. For purposes of this subparagraph, a grant described herein shall not be regarded as a grant by the foundation to an individual grantee even though such foundation has reason to believe that certain individuals would derive benefits from such grant so long as the grantee organization exercises control, in fact, over the selection process and actually makes the selection completely independently of the private foundation.

(ii) *Certain grants to "public charities".* A grant by a private foundation to an organization described in section 509(a)(1), (2), or (3), which the grantee organi-

zation uses to make payments to an individual for purposes described in section 4945(d)(3), shall not be regarded as a grant by the private foundation to the individual grantee (regardless of the application of subdivision (i) of this subparagraph) if the grant is made for a project which is to be undertaken under the supervision of the section 509(a)(1), (2), or (3) organization and such grantee organization controls the selection of the individual grantee. This subdivision shall apply regardless of whether the name of the individual grantee was first proposed by the private foundation, but only if there is an objective manifestation of the section 509(a)(1), (2), or (3) organization's control over the selection process, although the selection need not be made completely independently of the private foundation. For purposes of this subdivision, an organization shall be considered a section 509(a)(1) organization if it is treated as such under subparagraph (4) of § 53.4945-5(a).

(iii) *Grants to governmental agencies.* If a private foundation makes a grant to an organization described in section 170(c)(1) (regardless of whether it is described in section 501(c)(3)) and such grant is earmarked for use by an individual for purposes described in section 4945(d)(3), such grant is not subject to the requirements of section 4945(d)(3) and (g) and this section (regardless of the application of subdivision (i) of this subparagraph) if the section 170(c)(1) organization satisfies the Commissioner in advance that its grant-making program:

(a) Is in furtherance of a purpose described in section 170(c)(2)(B),

(b) Requires that the individual grantee submit reports to it which would satisfy paragraph (c)(3) of this section, and

(c) Requires that the organization investigate jeopardized grants in a manner substantially similar to that described in paragraph (c)(4) of this section.

(iv) *Examples.* The provisions of this subparagraph may be illustrated by the following examples:

Example (1). M, a university described in section 170(b)(1)(A)(ii), requests that P, a private foundation, grant it \$100,000 to enable M

to obtain the services of a particular scientist for a research project in a special field of biochemistry in which he has exceptional qualifications and competence. P, after determining that the project deserves support, makes the grant to M to enable it to obtain the services of this scientist. M is authorized to keep the funds even if it is unsuccessful in attempting to employ the scientist. Under these circumstances P will not be treated as having made a grant to the individual scientist for purposes of section 4945(d)(3) and (g), since the requirements of subdivision (i) of this subparagraph have been satisfied. Even if M were not authorized to keep the funds if it is unsuccessful in attempting to employ the scientist, P would not be treated as having made a grant to the individual scientist for purposes of section 4945(d)(3) and (g), since it is clear from the facts and circumstances that the selection of the particular scientist was made by M and thus the requirements of subdivision (ii) of this subparagraph would have been satisfied.

Example (2). Assume the same facts as Example (1), except that there are a number of scientists who are qualified to administer the research project, P suggests the name of the particular scientist to be employed by M, and M is not authorized to keep the funds if it is unsuccessful in attempting to employ the particular scientist. For purposes of section 4945(d)(3) and (g), P will be treated as having made a grant to the individual scientist whose name it suggested, since it is clear from the facts and circumstances that selection of the particular scientist was made by P.

Example (3). X, a private foundation, is aware of the exceptional research facilities at Y University, an organization described in section 170(b)(1)(A)(ii). Officials of X approach officials of Y with an offer to give Y a grant of \$100,000 if Y will engage an adequately qualified physicist to conduct a specific research project. Y's officials accept this proposal, and it is agreed that Y will administer the funds. After examining the qualifications of several research physicists, the officials of Y agree that A, whose name was first suggested by officials of X and who first suggested the specific research project to X, is uniquely qualified to conduct the project. X's grant letter provides that X has the right to renegotiate the terms of the grant if there is a substantial deviation from such terms, such as breakdown of Y's research facilities or termination of the conduct of the project by an adequately qualified physicist. Under these circumstances, X will not be treated as having made a grant to A for purposes of section 4945(d)(3) and (g), since the requirements of subdivision (ii) of this subparagraph have been satisfied.

Example (4). Professor A, a scholar employed by University Y, an organization described in section 170(b)(1)(A)(ii), approaches

Foundation X to determine the availability of grant funds for a particular research project supervised or conducted by Professor A relevant to the program interests of Foundation X. After learning that Foundation X would be willing to consider the project if University Y were to submit the project to X, Professor A submits his proposal to the appropriate administrator of University Y. After making a determination that it should assume responsibility for the project, that Professor A is qualified to conduct the project, and that his participation would be consistent with his other faculty duties, University Y formally adopts the grant proposal and submits it to Foundation X. The grant is made to University Y which, under the terms of the grant, is responsible for the expenditure of the grant funds and the grant project. In such a case, and even if Foundation X retains the right to renegotiate the terms of the grant if the project ceases to be conducted by Professor A, the grant shall not be regarded as a grant by Foundation X to Professor A since University Y has retained control over the selection process within the meaning of subdivision (ii) of this subparagraph.

(5) *Earmarked grants to individuals.* A grant by a private foundation to an individual, which meets the requirements of section 4945(d)(3) and (g), is a taxable expenditure by such foundation under section 4945(d) only if:

(i) The grant is earmarked to be used for any activity described in section 4945(d) (1), (2), or (5), or is earmarked to be used in a manner which would violate section 4945(d) (3) or (4),

(ii) There is an agreement, oral or written, whereby such grantor foundation may cause the grantee to engage in any such prohibited activity and such grant is in fact used in a manner which violates section 4945(d), or

(iii) The grant is made for a purpose other than a purpose described in section 170(c)(2)(B).

For purposes of this subparagraph, a grant by a private foundation is earmarked if such grant is given pursuant to an agreement, oral or written, that the grant will be used for specific purposes.

(b) *Selection of grantees on "an objective and nondiscriminatory basis"*—(1) *In general.* For purposes of this section, in order for a foundation to establish that its grants to individuals are made on an objective and nondiscriminatory basis, the grants must be awarded in accordance with a program which, if it

were a substantial part of the foundation's activities, would be consistent with:

(i) The existence of the foundation's exempt status under section 501(c)(3);

(ii) The allowance of deductions to individuals under section 170 for contributions to the granting foundation; and

(iii) The requirements of subparagraphs (2), (3), and (4) of this paragraph.

(2) *Candidates for grants.* Ordinarily, selection of grantees on an objective and nondiscriminatory basis requires that the group from which grantees are selected be chosen on the basis of criteria reasonably related to the purposes of the grant. Furthermore, the group must be sufficiently broad so that the giving of grants to members of such group would be considered to fulfill a purpose described in section 170(c)(2)(B). Thus, ordinarily the group must be sufficiently large to constitute a charitable class. However, selection from a group is not necessary where taking into account the purposes of the grant, one or several persons are selected because they are exceptionally qualified to carry out these purposes or it is otherwise evident that the selection is particularly calculated to effectuate the charitable purpose of the grant rather than to benefit particular persons or a particular class of persons. Therefore, consistent with the requirements of this subparagraph, the foundation may impose reasonable restrictions on the group of potential grantees. For example, selection of a qualified research scientist to work on a particular project does not violate the requirements of section 4945(d)(3) merely because the foundation selects him from a group of three scientists who are experts in that field.

(3) *Selection from within group of potential grantees.* The criteria used in selecting grant recipients from the potential grantees should be related to the purpose of the grant. Thus, for example, proper criteria for selecting scholarship recipients might include (but are not limited to) the following: Prior academic performance; performance on tests designed to measure ability and aptitude for college work; recommendations from instructors; finan-

cial need; and the conclusions which the selection committee might draw from a personal interview as to the individual's motivation, character, ability, and potential.

(4) *Persons making selections.* The person or group of persons who select recipients of grants should not be in a position to derive a private benefit, directly or indirectly, if certain potential grantees are selected over others.

(5) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). X company employs 100,000 people of whom 1,000 are classified by the company as executives. The company has organized the X company foundation which, as its sole activity, provides 100 4-year college scholarships per year for children of the company's employees. Children of all employees (other than disqualified persons with respect to the foundation) who have worked for the X company for at least 2 years are eligible to apply for these scholarships. In previous years, the number of children eligible to apply for such scholarships has averaged 2,000 per year. Selection of scholarship recipients from among the applicants is made by three prominent educators, who have no connection (other than as members of the selection committee) with the company, the foundation or any of the employees of the company. The selections are made on the basis of the applicants' prior academic performance, performance on certain tests designed to measure ability and aptitude for college work, and financial need. No disproportionate number of scholarships has been granted to relatives of executives of X company. Under these circumstances, the operation of the scholarship program by the X company foundation: (1) Is consistent with the existence of the foundation's exempt status under section 501(c)(3) and with the allowance of deductions under section 170 for contributions to the foundation; (2) utilizes objective and nondiscriminatory criteria in selecting scholarship recipients from among the applicants; and (3) utilizes a selection committee which appears likely to make objective and nondiscriminatory selections of grant recipients.

Example (2). Assume the same facts as Example (1), except that the foundation establishes a program to provide 20 college scholarships per year for members of a certain ethnic minority. All members of this minority group (other than disqualified persons with respect to the foundation) living in

State Z are eligible to apply for these scholarships. It is estimated that at least 400 persons will be eligible to apply for these scholarships each year. Under these circumstances, the operation of this scholarship program by the foundation: (1) Is consistent with the existence of the foundation's exempt status under section 501(c)(3) and with the allowance of deductions under section 170 for contributions to the foundation; (2) utilizes objective and nondiscriminatory criteria in selecting scholarship recipients from among the applicants; and (3) utilizes a selection committee which appears likely to make objective and nondiscriminatory selections of grant recipients.

(c) *Requirements of a proper procedure*—(1) *In general.* Section 4945(g) requires that grants to individuals must be made pursuant to a procedure approved in advance. To secure such approval, a private foundation must demonstrate to the satisfaction of the Commissioner that:

(i) Its grant procedure includes an objective and nondiscriminatory selection process (as described in paragraph (b) of this section);

(ii) Such procedure is reasonably calculated to result in performance by grantees of the activities that the grants are intended to finance; and

(iii) The foundation plans to obtain reports to determine whether the grantees have performed the activities that the grants are intended to finance.

No single procedure or set of procedures is required. Procedures may vary depending upon such factors as the size of the foundation, the amount and purpose of the grants and whether one or more recipients are involved.

(2) *Supervision of scholarship and fellowship grants.* Except as provided in subparagraph (5) of this paragraph, with respect to any scholarship or fellowship grants, a private foundation must make arrangements to receive a report of the grantee's courses taken (if any) and grades received (if any) in each academic period. Such a report must be verified by the educational institution attended by the grantee and must be obtained at least once a year. In cases of grantees whose study at an educational institution does not involve the taking of courses but only the preparation of research papers or projects, such as the writing of a doctoral thesis, the foundation must re-

ceive a brief report on the progress of the paper or project at least once a year. Such a report must be approved by the faculty member supervising the grantee or by another appropriate university official. Upon completion of a grantee's study at an educational institution, a final report must also be obtained.

(3) *Grants described in section 4945(g)(3).* With respect to a grant made under section 4945(g)(3), the private foundation shall require reports on the use of the funds and the progress made by the grantee toward achieving the purposes for which the grant was made. Such reports must be made at least once a year. Upon completion of the undertaking for which the grant was made, a final report must be made describing the grantee's accomplishments with respect to the grant and accounting for the funds received under such grant.

(4) *Investigation of jeopardized grants.*

(i) Where the reports submitted under this paragraph or other information (including the failure to submit such reports) indicates that all or any part of a grant is not being used in furtherance of the purposes of such grant, the foundation is under a duty to investigate. While conducting its investigation, the foundation must withhold further payments to the extent possible until any delinquent reports required by this paragraph have been submitted and where required by subdivision (ii) or (iii) of this subparagraph.

(ii) In cases in which the grantor foundation determines that any part of a grant has been used for improper purposes and the grantee has not previously diverted grant funds to any use not in furtherance of a purpose specified in the grant, the foundation will not be treated as having made a taxable expenditure solely because of the diversion so long as the foundation:

(a) Is taking all reasonable and appropriate steps either to recover the grant funds or to insure the restoration of the diverted funds and the dedication (consistent with the requirements of (b) (1) and (2) of this subdivision) of other grant funds held by the grantee to the purposes being financed by the grant, and

(b) Withholds any further payments to the grantee after the grantor becomes aware that a diversion may have taken place (hereinafter referred to as “further payments”) until it has:

(1) Received the grantee’s assurances that future diversions will not occur, and

(2) Required the grantee to take extraordinary precaution to prevent future diversions from occurring.

If a foundation is treated as having made a taxable expenditure under this subparagraph in a case to which this subdivision applies, then unless the foundation meets the requirements of (a) of this subdivision the amount of the taxable expenditure shall be the amount of the diversion plus the amount of any further payments to the same grantee. However, if the foundation complies with the requirements of (a) of this subdivision but not the requirements of (b) of this subdivision, the amount of the taxable expenditure shall be the amount of such further payments.

(iii) In cases where a grantee has previously diverted funds received from a grantor foundation, and the grantor foundation determines that any part of a grant has again been used for improper purposes, the foundation will not be treated as having made a taxable expenditure solely by reason of such diversion so long as the foundation:

(a) Is taking all reasonable and appropriate steps to recover the grant funds or to insure the restoration of the funds and the dedication (consistent with the requirements of (b) (2) and (3) of this subdivision) of other grant funds held by the grantee to the purposes being financed by the grant, and

(b) Withholds further payments until:

(1) Such funds are in fact so recovered or restored,

(2) It has received the grantee’s assurances that future diversions will not occur, and

(3) It requires the grantee to take extraordinary precautions to prevent future diversions from occurring.

If a foundation is treated as having made a taxable expenditure under this subparagraph in a case to which this subdivision applies, then unless the

foundation meets the requirements of (a) of this subdivision, the amount of the taxable expenditure shall be the amount of the diversion plus the amount of any further payments to the same grantee. However, if the foundation complies with the requirements of (a) of this subdivision, but fails to withhold further payments until the requirements of (b) of this subdivision are met, the amount of the taxable expenditure shall be the amount of such further payments.

(iv) The phrase “all reasonable and appropriate steps” in subdivisions (ii) and (iii) of this subparagraph includes legal action where appropriate but need not include legal action if such action would in all probability not result in the satisfaction of execution on a judgment.

(5) *Supervision of certain scholarship and fellowship grants.* Subparagraphs (2) and (4) of this paragraph shall be considered satisfied with respect to scholarship or fellowship grants under the following circumstances:

(i) The scholarship or fellowship grants are described in section 4945(g) (1);

(ii) The grantor foundation pays the scholarship or fellowship grants to an educational institution described in section 151(e) (4); and

(iii) Such educational institution agrees to use the grant funds to defray the recipient’s expenses or to pay the funds (or a portion thereof) to the recipient only if the recipient is enrolled at such educational institution and his standing at such educational institution is consistent with the purposes and conditions of the grant.

(6) *Retention of records.* A private foundation shall retain records pertaining to all grants to individuals for purposes described in section 4945(d) (3). Such records shall include:

(i) All information the foundation secures to evaluate the qualification of potential grantees;

(ii) Identification of grantees (including any relationship of any grantee to the foundation sufficient to make such grantee a disqualified person of the private foundation within the meaning of section 4946(a) (1));

(iii) Specification of the amount and purpose of each grant; and

(iv) The follow-up information which the foundation obtains in complying with subparagraphs (2), (3), and (4) of this paragraph.

(7) *Example.* The provisions of paragraphs (b) and (c) of this section may be illustrated by the following example:

Example. The X foundation grants 10 scholarships each year to graduates of high schools in its area to permit the recipients to attend college. It makes the availability of its scholarships known by oral or written communications each year to the principals of three major high schools in the area. The foundation obtains information from each high school on the academic qualifications, background, and financial need of applicants. It requires that each applicant be recommended by two of his teachers or by the principal of his high school. All application forms are reviewed by the foundation officer responsible for making the awards and scholarships are granted on the basis of the academic qualifications and financial need of the grantees. The foundation obtains annual reports on the academic performance of the scholarship recipient from the college or university which he attends. It maintains a file on each scholarship awarded, including the original application, recommendations, a record of the action taken on the application, and the reports on the recipient from the institution which he attends. The described procedures of the X foundation for the making of grants to individuals qualify for Internal Revenue Service approval under section 4945(g). Furthermore, if the X foundation's scholarship program meets the requirements of subparagraph (5) of this paragraph, X foundation will not have to obtain reports on the academic performance of the scholarship recipients.

(d) *Submission of grant procedure—(1) Contents of request for approval of grant procedures.* A request for advance approval of a foundation's grant procedures must fully describe the foundation's procedures for awarding grants and for ascertaining that such grants are used for the proper purposes. The approval procedure does not contemplate specific approval of particular grant programs but instead one-time approval of a system of standards, procedures, and follow-up designed to result in grants which meet the requirements of section 4945(g). Thus, such approval shall apply to a subsequent grant program as long as the procedures under which it is conducted do not differ materially from

those described in the request to the Commissioner. The request must contain the following items:

(i) A statement describing the selection process. Such statement shall be sufficiently detailed for the Commissioner to determine whether the grants are made on an objective and non-discriminatory basis under paragraph (b) of this section.

(ii) A description of the terms and conditions under which the foundation ordinarily makes such grants, which is sufficient to enable the Commissioner to determine whether the grants awarded under such procedures would meet the requirements of paragraph (1), (2), or (3) of section 4945(g).

(iii) A detailed description of the private foundation's procedure for exercising supervision over grants, as described in paragraph (c) (2) and (3) of this section.

(iv) A description of the foundation's procedures for review of grantee reports, for investigation where diversion of grant funds from their proper purposes is indicated, and for recovery of diverted grant funds, as described in paragraph (c) (4) of this section.

(2) *Place of submission.* Request for approval of grant procedures shall be submitted to the District Director.

(3) *Internal Revenue Service action on request for approval of grant procedures.* The 45th day after a request for approval of grant procedures has been properly submitted to the Internal Revenue Service, the organization has not been notified that such procedures are not acceptable, such procedures shall be considered as approved from the date of submission until receipt of actual notice from the Internal Revenue Service that such procedures do not meet the requirements of this section. If a grant to an individual for a purpose described in section 4945(d) (3) is made after notification to the organization by the Internal Revenue Service that the procedures under which the grant is made are not acceptable, such grant is a taxable expenditure under this section.

(e) *Effective dates—(1) In general.* This section shall apply to all grants to individuals for travel, study, or other similar purposes which are made by

private foundations more than 90 days after October 30, 1972.

(2) *Transitional rules*—(i) *Grants committed prior to January 1, 1970.* Section 4945(d) (3) and (g) and this section shall not apply to a grant for section 170(c) (2) (B) purposes made on or after January 1, 1970, if the grant was made pursuant to a commitment entered into prior to such date, but only if such commitment was made in accordance with the foundation's usual practices and is reasonable in amount in light of the purposes of the grant. For purposes of this subdivision, a commitment will be considered entered into prior to January 1, 1970, if prior to such date, the amount and nature of the payments to be made and the name of the payee were entered on the records of the payor, or were otherwise adequately evidenced, or the notice of the payment to be received was communicated to the payee in writing.

(ii) *Grants awarded on or after January 1, 1970.* In the case of a grant awarded on or after January 1, 1970, but prior to the expiration of 90 days after October 30, 1972, and paid within 48 months after the award of such grant, the requirements of section 4945(g) that an individual grant be awarded on an objective and nondiscriminatory basis pursuant to a procedure approved in advance by the Commissioner will be deemed satisfied if the grantor utilizes any procedure in good faith in awarding a grant to an individual which, in fact, is reasonably calculated to provide objectivity and nondiscrimination in the awarding of such grant and to result in a grant which complies with the conditions of section 4945(g) (1), (2), or (3).

§ 53.4945-5 Grants to organizations.

(a) *Grants to nonpublic organizations*—(1) *In general.* Under section 4945(d)(4) the term “taxable expenditure” includes any amount paid or incurred by a private foundation as a grant to an organization (other than an organization described in section 509(a) (1), (2) or (3)), unless the private foundation exercises expenditure responsibility with respect to such grant in accordance with section 4945(h). However, the granting foundation does not have to exercise expenditure responsibility

with respect to amounts granted to organizations described in section 4945(f).

(2) *“Grants” described.* For a description of the term “grants”, see § 53.4945-4(a)(2).

(3) *Section 509(a) (1), (2), and (3) organizations.* See section 508(b) and the regulations thereunder for rules relating to when a grantor may rely on a potential grantee's characterization of its status as set forth in the notice described in section 508(b).

(4) *Certain “public” organizations.* For purposes of this section, an organization will be treated as a section 509(a)(1) organization if:

(i) It qualifies as such under paragraph (a) of § 1.509(a)-2 of this chapter;

(ii) It is an organization described in section 170(c)(1) or 511(a)(2)(B), even if it is not described in section 501(c)(3); or

(iii) It is a foreign government, or any agency or instrumentality thereof, or an international organization designated as such by Executive order under 22 U.S.C. 288, even if it is not described in section 501(c)(3).

However, any grant to an organization referred to in this subparagraph must be made exclusively for charitable purposes as described in section 170(c)(2)(B).

(5) *Certain foreign organizations.* If a private foundation makes a grant to a foreign organization which does not have a ruling or determination letter that it is an organization described in section 509(a)(1), (2), or (3), such grant will not be treated as a grant made to an organization other than an organization described in section 509(a)(1), (2), or (3) if the grantor private foundation has made a good faith determination that the grantee organization is an organization described in section 509(a)(1), (2), or (3). Such a “good faith determination” ordinarily will be considered as made where the determination is based on an affidavit of the grantee organization or an opinion of counsel (of the grantor or the grantee) that the grantee is an organization described in section 509(a)(1), (2), or (3). Such an affidavit or opinion must set forth sufficient facts concerning the operations and support of the grantee
