(3) Each license authorizes export or import only and does not authorize any person to receive title to, acquire, receive, possess, deliver, use or transfer nuclear equipment or material.

(4) Each nuclear material license authorizes the export or import of only the nuclear material and accompanying packaging and fuel element hardware.

(5) No nuclear equipment license confers authority to export or import nuclear material.

(6) Each nuclear equipment export license authorizes the export of only those items required for use in the foreign nuclear installation for which the items are intended.

(7) A licensee shall not proceed to export or import and shall notify the Commission promptly if he knows or has reason to believe that the packaging requirements of part 71 of this chapter have not been met.

(b) *Specific licenses.* (1) Each specific license will have an expiration date.

(2) A licensee may export or import only for the purpose stated in the license application.

(3) Unless a license specifically authorizes the export of foreign-origin nuclear material or equipment, a licensee may not ship such material or equipment until;

(i) The licensee has given at least 40 days advance notice of the intended shipment in writing to the Deputy Director, Office of International Programs (OIP), and

(ii) The Deputy Director, OIP, has

(A) Obtained confirmation, through either the Department of Energy or State, that the foreign government in question has given its consent to the intended shipment pursuant to its agreement for cooperation with the United States, and

(B) Communicated this in writing to the licensee.

(4) A licensee authorized to export or import nuclear material is responsible for compliance with applicable requirements of parts 40, 70, and 73 of this chapter, unless a domestic licensee of the Commission has assumed that responsibility and the Commission has been so notified.

(5) A license may be transferred, disposed of or assigned to another person only with the approval of the Commission by license amendment.
