§ 614.4155 Interest rates.

Loans made by each bank and direct lender association shall bear interest at a rate or rates as may be determined by the institution board. The board shall set interest rates or approve individual interest rate changes either on a case-by-case basis or pursuant to an interest rate plan within which management may establish rates. § 614.4160 Differential interest rate programs.

Pursuant to policies approved by the board of directors, differential interest rates may be established for loans based on a variety of factors that may include type, purpose, amount, quality, funding or operating costs, or similar factors or combinations of factors. Differential interest rate programs should achieve equitable rate treatment within categories of borrowers. In the adoption of differential interest rate programs, institutions may consider, among other things, the effect that such interest rate structures will have on the achievement of objectives relating to the special credit needs of young, beginning or small farmers.
