(ii) Nonqualified allocated equities (including stock) that are not distributed according to an established plan or practice, *provided that*, in the event that a nonqualified patronage allocation is distributed, other than as required by section 4.14B of the Act, or in connection with a loan default or the death of an equityholder whose loan has been repaid (to the extent provided for in the institution's capital adequacy plan), any remaining nonqualified allocations that were allocated in the same year will be excluded from core surplus.

(iii) Perpetual common or noncumulative perpetual preferred stock (other than allocated stock) that is not retired according to an established plan or practice, *provided that*, in the event that stock held by a borrower is retired, other than as required by section 4.14B of the Act or in connection with

a loan default to the extent provided for in the institution's capital plan, the remaining perpetual stock of the same class or series shall be excluded from core surplus;

(iv) A capital instrument or a particular balance sheet entry or account that the Farm Credit Administration has determined to be the functional equivalent of a component of core surplus. (2) For associations only, other allocated equities may also be included in the core surplus ratio to the extent permitted by § 615.5330(b) if the following conditions are met:

(i) The allocated equities are includable in total surplus; and

(ii) The allocated equities, if subject to a plan or practice of revolvment or retirement, are not scheduled or intended to be revolved or retired during the next 3 years, provided that, in the event that such allocated equities included in core surplus are retired, other than as required by section 4.14B of the Act, or in connection with a loan default or the death of an equityholder whose loan has been repaid (to the extent provided for in the institution's capital adequacy plan), any remaining such allocated equities that were allocated in the same year will be excluded from core surplus.

(3) The deductions required to be made by an institution in the computation of its permanent capital pursuant to § 615.5210(e) (6), (7), (9), and (11) shall also be made in the computation of its core surplus. (7) The Farm Credit Administration may, if it finds that a particular component, balance sheet entry, or account has characteristics or terms that diminish its contribution to an institution’s ability to absorb losses, require the deduction of all or a portion of such component, entry, or account from total surplus.
