

Office of Personnel Management

§ 841.605

(b) Amounts deposited by an employee for periods of service (including military service) for which—

(1) No retirement deductions were made; or

(2) Deductions were refunded to the employee; and

(c) Interest compounded annually on the deductions and deposits at a rate which, for any calendar year, will be equal to the overall average yield to the Civil Service Retirement Fund during the preceding fiscal year from all obligations purchased by the Secretary of the Treasury during that fiscal year under section 8348(c), (d), and (e) of title 5, United States Code, as determined by the Secretary of the Treasury. Interest on deductions and deposits does not include interest—

(1) If the service covered by the deductions totals 1 year or less; or

(2) For a fractional part of a month in the total service.

Year of the computation means the calendar year when the unexpended balance is being computed.

§ 841.603 Rate of interest.

For calendar year 1985 and for each subsequent calendar year, OPM will publish a notice in the FEDERAL REGISTER to notify the public of the interest rate that will be in effect during that calendar year.

§ 841.604 Interest on service credit deposits.

(a) Interest on civilian service credit deposits is computed under § 842.305 of this chapter.

(b) Interest on military service credit deposits is computed under § 842.307 of this chapter.

(c) In the case of a retirement coverage error that was corrected under part 839 (pertaining to errors that lasted for at least 3 years of service after December 31, 1986) in which:

(1) A CSRS service credit deposit was made; and

(2) There is a subsequent retroactive change to FERS, the excess of the amount of the CSRS civilian or military service credit deposit over the FERS civilian or military deposit, together with interest computed under § 842.305 of this chapter, shall be paid to the employee or annuitant. In the case

of a deceased employee or annuitant, payment is made to the individual entitled to lump-sum benefits under subpart B of part 843 of this chapter.

[52 FR 12132, Apr. 15, 1987, as amended at 57 FR 32155, July 21, 1992; 66 FR 15618, Mar. 19, 2001]

§ 841.605 Interest included in the unexpended balance.

(a) Interest on each Individual Retirement Record is computed separately.

(b) For determining the amount of interest in the unexpended balance when none of the employee deductions have been returned (e.g., employee refunds or at the time of retirement), the amount of interest in the unexpended balance equals the sum of the amounts of interest applicable to each calendar year's deductions. The amount of interest on each calendar year's deductions equals the sum of—

(1) For the calendar year in which the deductions were taken—

(i) Except during the last year of service, the amount of the employee's deductions for that calendar year times the rate of interest set under § 841.603 for that calendar year times the fraction whose numerator is the number of full months when deductions were withheld and whose denominator is 24;

(ii) During the last year of service, the amount of the employee's deductions for that year times the rate of interest set under § 841.603 for that year times the fraction—

(A) Whose numerator equals the sum of—

(1) One half times the number of months (fractional months rounded up) of that year during which the employee was employed;

(2) One for each full month of that year after the employee's service terminated; and

(B) Whose denominator is 12.

(2) For each calendar year after the year when the deductions were withheld but before the calendar year of the computation, the amount of the employee's deductions plus interest for prior years, times the rate of interest set under § 841.603 for that year; and

(3) For the year of the computation—

(i) If it is not the same calendar year that the deductions were withheld, the

§ 841.606

5 CFR Ch. I (1-1-05 Edition)

amount of the employee's deductions plus interest for prior years, times the rate of interest set under § 841.603 for that year times the fraction whose numerator is the number of full months that have been completed in the year of the computation and whose denominator is 12; or

(ii) If it is the same calendar year that the deductions were withheld, the amount of the employee's deductions for that year times the rate of interest set under § 841.603 for that year times the fraction—

(A) Whose numerator equals the sum of—

(1) One half times the number of months (fractional months rounded up) of that year during which the employee was employed;

(2) One for each full month of that year after the employee's service terminated; and

(B) Whose denominator is 12.

(c)(1) For adding interest to the unexpended balance after retirement, the unexpended balance including interest computed under paragraph (b) of this section is computed as of the time of retirement.

(2) Each month after retirement, the unexpended balance is reduced by the amount of annuity paid and interest is added to the remaining portion at the rate computed as follows:

(i) Add one to the interest rate under § 841.603 for the current year.

(ii) Raise the sum produced under paragraph (c)(2)(i) of this section to the $\frac{1}{12}$ power.

(iii) Subtract one from the result of paragraph (c)(2)(ii) of this section to produce the interest rate for the month.

(d)(1) Interest on payments of the unexpended balance will be paid for the month unless the payment has been authorized before the 5th workday before the end of the month (excluding the 31st day of 31-day months).

(2) For the purposes of paragraph (d)(1) of this section, payment is authorized when the person with authority to approve the claim approves payment.

§ 841.606 Interest on survivor reduction deposits.

Interest on deposits under subpart F of part 842 of this chapter is compounded annually and accrued monthly.

(a) The initial interest on each monthly difference between the reduced annuity rate and the annuity rate actually paid equals the amount of the monthly difference times the difference between—

(1) One and six tenths raised to the power whose numerator is the number of months between the date when the monthly difference in annuity rates occurred and the date when the initial interest is computed and whose denominator is 12; and

(2) One.

(b) The total initial interest due is the sum of all of the initial interest on each monthly difference computed in accordance with paragraph (a) of this section.

(c) Additional interest on any uncollected balance will be compounded annually and accrued monthly. The additional interest due each month equals the remaining balance due times the difference between—

(1) One and six tenths raised to the $\frac{1}{12}$ power; and

(2) One.

§ 841.607 Interest on overpayment debts.

Interest on overpayment debts is computed under § 845.205(b).

Subpart G—Cost-of-Living Adjustments

SOURCE: 55 FR 14229, Apr. 17, 1990, unless otherwise noted.

§ 841.701 Purpose and scope.

(a) The purpose of this subpart is to regulate computation of cost-of-living adjustments (COLA's) for basic benefits under the Federal Employees Retirement System (FERS).

(b) This subpart provides the methodology for—

(1) Computing COLA's on each type of FERS basic benefit subject to COLA's; and
