After consideration of comments obtained at the hearing, a final determination on cane State allotments and processor allocations will be announced.

(d) During any crop year in which marketing allotments are in effect and allocated to processors, the quantity of sugar and sugar products that a processor markets shall not exceed the quantity of the processor's allocation.

(e) Paragraph (d) of this section shall not apply to:

(1) Any sugar marketings to facilitate the export of sugar or sugar-containing products;

(2) Any sugar marketings for nonhuman consumption; and

(3) Any processor marketings of sugar to another processor made to enable the purchasing processor to fulfill its allocation if such sales;

(i) Are made before May 1, and

(ii) Reported to CCC within 51 days of the date of sale.

(f) Paragraph (d) of this section also shall not apply to marketings of purchased sugar marketed in the crop year of the purchase, but does apply to marketings of sugar purchased as part of a transaction pursuant to paragraph (e)(3) of this section.

(g) CCC may charge liquidated damages, as specified in a surplus allocation survey and agreement, on surplus allocation after the end of a crop year if the processor had surplus allocation because the processor provided incomplete or erroneous information to CCC.

[67 FR 54926, Aug. 26, 2002, as amended at 69 FR 39813, July 1, 2004]

§ 1435.308 Transfer of allocation, new entrants.

(a) If a sugar beet or sugarcane processing facility is closed and the growers that delivered their crops to the closed facility elect to deliver their crops to another processor, the growers may petition the Executive Vice President, CCC, to transfer the share of allocation commensurate with the growers' production history from the processor that closed the facility to their new processor. CCC may grant the request to transfer the allocation upon:

(1) Written approval of the processing company that will accept the additional deliveries, and

(2) Evidence satisfactory to CCC that the new processor has the capacity to accommodate the production of petitioning growers.

(b) Subject to a transfer of allocation, if any, described in paragraph (a) of this section being completed, CCC will permanently eliminate the processor's remaining allocation and distribute it to all other processors on a pro-rata basis when the processor:

(1) Has been dissolved,

(2) Has been liquidated in a bankruptcy proceeding, or

(3) Has permanently terminated operations by:

(i) Not processing sugarcane or sugar beets for 2 consecutive years, or

(ii) Notifying CCC that the processor has permanently terminated operations.

(c) If a purchaser purchasing the assets of another processor is a new entrant or is a processor purchasing all the assets of the selling processor, then CCC shall immediately transfer allocation commensurate with the purchased factories' production history.

(d) If a processor does not purchase all of the assets of another processor, then the purchased factories must operate for the remainder of the initial season and the following crop year for the purchasing processor to permanently obtain the allocation. If the purchased factories do not operate for this required time period, CCC shall reassign the allocation to the other processors on a pro rata basis.

(e) Allocations, equal to the number of acres of proportionate shares being transferred times the State's per-acre yield goal, will be transferred between mills in proportionate share States, if the transfers are based on:

(1) Written consent of the crop-share owners, or their representatives,

(2) Written consent of the processing company holding the allocation for the subject proportionate shares,

(3) Written consent of the processing company that will accept the additional sugarcane deliveries, and

(4) Evidence, satisfactory to CCC, that the additional sugarcane deliveries will not exceed the processing capacity of the receiving company.

(f) New entrants, not acquiring existing facilities with production history in the base period, may apply to the Executive Vice President, CCC, for an allocation.

(1) Applicants must demonstrate their ability to process, produce, and market sugar for the applicable crop year.

(2) CCC will consider adverse effects of the allocation upon existing processors and producers.

(3) New entrant cane processors are limited to 50,000 short tons, raw value, the first crop year.

(4) New entrant cane processors will be provided, as determined by CCC:

(i) A share of their State's cane allotment if the processor is located in Hawaii, Puerto Rico, Florida, Louisiana, or Texas, or

(ii) A share of the overall cane allotment if the processor is located in any state not listed in paragraph (f)(4)(i) of this section.

(5) CCC will conduct a hearing on a new entrant application if an interested processor or grower requests a hearing.

(6) If a new entrant acquires and reopens a factory that previously produced beet sugar from sugar beets and sugar beet molasses, but the factory last operated during the 1997 crop year, CCC will:

(i) Assign an allocation to the new entrant not less than the greater of 1.67 percent of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years, as determined under § 1435.307, or 1,500,000 hundredweight.

(ii) Reduce all other beet processor allocations on a pro rata basis.

[69 FR 39813, July 1, 2004, as amended at 69 FR 48765, Aug. 11, 2004]

§ 1435.309 Reassignment of deficits.

(a) CCC will determine, from time to time, whether sugar beet or sugarcane processors will be unable to market their allocations.

(b) Sugar beet and sugar cane processors will report to CCC current inventories, estimated production, expected marketings, and any other pertinent factors CCC deems appropriate to determine a processor's ability to market their allocation.

(c) If CCC determines a sugarcane processor will be unable to market its full allocation for the crop year in which an allotment is in effect, the deficit will be reassigned by June 1:

(1) First, to allocations of other sugarcane processors within that State based on each processor's initial allocation share of the State's allotment, but no processor may receive reassigned allocation such that its allocation exceeds its estimated total sugar supply.

(2) If the deficit cannot be eliminated after reassignment within the same State, be reassigned to the other cane States based on each State's initial share of the cane sugar allotment, but no State may receive reassigned State allotment such that its allocation exceeds its estimated total sugar supply, with the reassigned quantity to each State being allocated according to paragraph (c)(1) of this section.

(d) If CCC determines that a sugar beet processor is unable to market its full allocation for the crop year in which an allotment is in effect, the deficit will:

(1) First, be reassigned proportionately to allocations of other sugar beet processors, depending on the capacity of other processors to fill the portion of the deficit to be reassigned to them, accounting for the interests of associated producers.

(2) If the deficit cannot be eliminated by paragraph (d)(1) of this section, be reassigned to CCC. CCC shall sell such quantity from inventory unless CCC determines such sales would have a significant effect on the sugar price.

(3) If any portion of the deficit remains after paragraphs (d)(1) and (d)(2) of this section have been implemented, be reassigned to imports.

(e) The crop year allocation of each sugar beet or sugarcane processor who receives a reassignment will be increased accordingly for that year.

[67 FR 54928, Aug. 26, 2002, as amended at 69 FR 55063, Sept. 13, 2004; 69 FR 58037, Sept. 29, 2004]

§ 1435.310 Sharing processors' allocations with producers.

(a) Every sugar beet and sugarcane processor must provide CCC a certification that:
