

Commodity Credit Corporation, USDA

§ 1437.15

intent of producing commercial seed as its primary intended use;

(2) There is no possibility of other commercial uses of production from the same crop without regard to market conditions; and

(3) The growing period of the specific crop acreage is uniquely conducive to the production of commercial seed and not conducive to the production of any other intended use of the crop, (e.g. vernalization in a biennial crop such as carrots and onions) and that accommodation renders the possibility of production for any other intended use of the crop improbable.

§ 1437.13 Multiple benefits.

(a) If a producer is eligible to receive payments under this part and benefits under any other program administered by the Secretary for the same crop loss, the producer must choose whether to receive the other program benefits or payments under this part, but shall not be eligible for both. The limitation on multiple benefits prohibits a producer from being compensated more than once for the same loss.

(b) The limitation on multiple benefits in paragraph (a) of this section shall not apply in any respect to Emergency Loans under subtitle C of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961 *et seq.*).

(c) The restriction on multiple benefits does not relieve the producer from the requirements of making a production and acreage report.

(d) If the other USDA program benefits are not available until after an application for benefits has been filed under this part, the producer may, to avoid this restriction on such other benefits, refund the total amount of the payment to the administrative FSA office from which the payment was received.

§ 1437.14 Payment and income limitations.

(a) NAP payments shall not be made in excess of \$100,000 per person per crop year under this part.

(b) NAP payments shall not be made to a person who has qualifying gross revenues in excess of \$2 million for the most recent tax year preceding the

year for which assistance is requested. Qualifying gross revenue means:

(1) With respect to a person who receives more than 50 percent of such person's gross income from farming, ranching, and forestry operations, the annual gross income for the taxable year from such operations; and

(2) With respect to a person who receives 50 percent or less of such person's gross income from farming, ranching, and forestry operations, the person's total gross income for the taxable year from all sources.

(c) CCC will pay, for up to one year, simple interest on payments to producers which are delayed. Interest will be paid on the net amount ultimately found to be due, and will begin accruing on the 31st day after the date the producer signs, dates, and submits a properly completed application for payment on the designated form, or the 31st day after a disputed application is adjudicated. Interest will be paid unless the reason for failure to timely pay is due to the producer's failure to provide information or other material necessary for the computation of payment, or there was a genuine dispute concerning eligibility for payment.

(d) Rules set out in 7 CFR part 1400 shall apply in implementing the restrictions of this section.

§ 1437.15 Miscellaneous provisions.

(a) To be eligible for benefits under this part, producers must be in compliance with the highly erodible land and wetlands provisions of part 12 of this title.

(b) The provisions of § 718.11 of this title, providing for ineligibility for benefits for offenses involving controlled substances, shall apply.

(c) A person shall be ineligible to receive assistance under this part for the crop year plus two subsequent crop years if it is determined by the State or county committee or an official of FSA that such person has:

(1) Adopted any scheme or other device that tends to defeat the purpose of a program operated under this part;

(2) Made any fraudulent representation with respect to such program; or

(3) Misrepresented any fact affecting a program determination.

§ 1437.101

(d) All amounts paid by CCC to any such producer, applicable to the crop year in which a violation of this part occurs, must be refunded to CCC together with interest and other amounts as determined appropriate to the circumstances by CCC.

(e) All persons with a financial interest in the operation receiving benefits under this part shall be jointly and severally liable for any refund, including related charges, which is determined to be due CCC for any reason under this part.

(f) In the event that any request for assistance or payments under this part was established as result of erroneous information or a miscalculation, the assistance or payment shall be recalculated and any excess refunded with applicable interest.

(g) The liability of any person for any penalty under this part or for any refund to CCC or related charge arising in connection therewith shall be in addition to any other liability of such person under any civil or criminal fraud statute or any other provision of law including, but not limited to: 18 U.S.C. 286, 287, 371, 641, 651, 1001 and 1014; 15 U.S.C. 714m; and 31 U. S. C. 3729.

(h) The appeal regulations at parts 11 and 780 of this title apply to decisions made according to this part.

(i) Any payment or portion thereof to any person shall be made without regard to questions of title under State law and without regard to any claim or lien against the crop, or proceeds thereof.

(j) For the purposes of 28 U.S.C. 3201(e), the Secretary hereby waives the restriction on receipt of funds or benefits under this program but only as to beneficiaries who as a condition of such waiver agree to apply the benefits to reduce the amount of the judgement lien.

(k) The provisions of parts 1400, 1403 and 1404 of this chapter apply to NAP.

(l) In the case of death, incompetence or disappearance of any person who is eligible to receive payments under this part, such payments will be disbursed in accordance with part 707 of this title.

7 CFR Ch. XIV (1-1-05 Edition)

Subpart B—Determining Yield Coverage Using Actual Production History

§ 1437.101 Actual production history.

Actual production history will be used, except as otherwise indicated in this part, as the basis for providing noninsured crop disaster assistance.

§ 1437.102 Yield determinations.

(a) Payments based on yields shall be made on “approved yields”, which shall be calculated based on the producer’s APH for that period up to ten years for which, of the first time such a yield is calculated, there are consecutive years, beginning with the most recent completed year, of actual production history for the producer. If there are not four such consecutive years of history (excluding years when the crop was out of rotation), then such first “approved yield” shall be constructed by creating a four year history as provided for in this part. After the first such approved yield is constructed, years will be added to that history in the manner provided for in this section, dropping, as needed, previous years from the history to the extent that the current history would be a history or base of ten years. For the first approved yield, as needed to construct a four-year history, history will be supplied using T-yields, as set out in paragraph (b) of this section.

(b) The county expected yield:

(1) Is the “T-yield” for the crop, and is the Olympic average (disregarding the high and low yields) of yields in the county the 5 consecutive crop years immediately preceding the previous crop year. (Example: For the 2001 crop year, the base period would be 1995 through 1999).

(2) Will be the same as the FCIC transitional yield if crop insurance is available for the crop, (but not necessarily for the cause of loss if excluded by policy provisions), in the administrative county.

(3) Will be calculated so as to be comparable to the FCIC transitional yield most reasonable to the area if crop insurance was available for the crop (but not necessarily for the cause of loss) in contiguous counties, but not in the immediate county.
