

**§ 1469.22**

(iv) Supply records and information as required by CCC to determine compliance with the contract and requirements of CSP.

(4) Specify the participant's requirements for operation and maintenance of the applied conservation practices;

(5) Specify the schedule of payments under the life of the contract, including how those payments:

(i) Relate to the schedule for implementing additional conservation measures as described in the security plan;

(ii) Relate to the participant's actual implementation of additional conservation measures as described in the security plan; and,

(iii) May be adjusted by NRCS if the participant's management decisions change the appropriate set or schedule of conservation measures on the operation.

(6) Incorporate any other provisions determined necessary or appropriate by NRCS, or included as a requirement for the sign-up.

(f) The participant must apply and maintain the practice(s) within the timelines specified in the contract.

(g) Contracts expire on September 30 in the last year of the contract. A participant may apply for a new conservation stewardship contract in a subsequent sign-up.

(h) Participants must:

(1) Implement the conservation stewardship contract approved by NRCS;

(2) Make available to NRCS, appropriate records showing the timely implementation of the contract;

(3) Comply with the regulations of this part; and

(4) Not engage in any activity that interferes with the purposes of the program, as determined by NRCS.

(i) NRCS will determine the payments under the contract as described in § 1469.23.

(j) NRCS will not pay participants for: practices within their conservation stewardship plan that are required to meet conservation compliance requirements found in 7 CFR part 12; practices that are included in maintenance agreements (with financial reimbursements for maintenance) that existed prior to the participant's conservation stewardship contract approval; or the maintenance of equipment.

**7 CFR Ch. XIV (1-1-05 Edition)**

(k) For contracts encompassing the participant's entire agricultural operation, the geographic boundaries of the acreage enrolled in the contract must include all fields and facilities under the participant's direct control, as determined by NRCS.

(l) An applicant will be awarded only one contract per sign-up period.

**§ 1469.22 Conservation practice operation and maintenance.**

(a) The contract will incorporate the operation and maintenance of the conservation practice(s) applied under the contract.

(b) The participant must operate and maintain any new conservation practice(s) for which the participant has received a new practice or enhancement payment its intended purpose for the life span of the conservation practice(s), as identified in the contract or conservation stewardship plan, as determined by NRCS.

(c) Conservation practices that are installed before the execution of a contract, but are needed in the contract to obtain the intended environmental benefits, must be operated and maintained as specified in the contract whether or not an existing practice payment is made.

(d) NRCS may periodically inspect the conservation practices during the practice lifespan as specified in the contract to ensure that operation and maintenance are being carried out, and that the practice is fulfilling its intended objectives. When NRCS finds that a participant is not operating and maintaining practices installed through the CSP in an appropriate manner, NRCS will request a refund of any associated payments that NRCS made for that practice under the contract. If an existing practice is part of a system that meets the quality criteria, but does not technically meet NRCS minimum practice standards, the practice must be modified or updated to meet the standard according to the FOTG as specified in § 1469.25(a) of this part.

**§ 1469.23 Program payments.**

(a) Stewardship component of CSP payments.
