

Rural Utilities Service, USDA

§ 1778.1

§ 1777.43 Bulletins.

RUS Bulletin 1780-12 referenced in part 1780 of this chapter and RUS Bulletin 1777-1, 1777-2 and 1777-3 are for use in administering loans and/or grants made under this part. Bulletins, instructions and forms are available from any USDA/Rural Development office or the Rural Utilities Service, United States Department of Agriculture, Washington, DC 20250-1500.

§§ 1777.44-1777.99 [Reserved]

§ 1777.100 OMB control number.

The reporting and recordkeeping requirements contained in this part have been approved by the Office of Management and Budget and assigned OMB control number 0570-0001. Public reporting burden for this collection of information is estimated to vary from 5 to 30 hours per response with an average of 17.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to U.S. Department of Agriculture, Clearance Officer, OIRM, Room 404-W, Washington, DC 20250; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

AUTHORITY: 5 U.S.C. 301; 7 U.S.C. 1989; 16 U.S.C. 1005.

SOURCE: 68 FR 46078, Aug. 5, 2003, unless otherwise noted.

§ 1778.1 General.

(a) This part outlines policies and procedures for making Emergency Community Water Assistance Grants (ECWAG) authorized under Section 306A of the Consolidated Farm and Rural Development Act, (7 U.S.C. 1926(a)), as amended. Any processing or servicing activity conducted pursuant to this part involving authorized assistance to Agency employees, members of their families, known close relatives, or business or close personal associates, is subject to the provisions of subpart D of part 1900 of this title. Applicants for this assistance are required to identify any known relationship or association with an Agency employee.

(b) Agency officials will maintain liaison with officials of other Federal, State, regional and local development agencies to coordinate related programs to achieve rural development objectives.

(c) Agency officials shall cooperate with appropriate State agencies in making grants that support State strategies for rural area development.

(d) Funds allocated for use in accordance with this part are also to be considered for use by Indian tribes within the State regardless of whether State development strategies include Indian reservations within the State's boundaries. Indians residing on such reservations must have an equal opportunity along with other rural residents to participate in the benefits of this program. This includes equal application of outreach activities of Field Offices.

§ 1778.2

(e) Federal statutes provide for extending the Agency financial programs without regard to race, color, religion, sex, national origin, marital status, age, or physical/mental handicap (provided the participant possesses the capacity to enter into legal contracts).

§ 1778.2 [Reserved]

§ 1778.3 Objective.

The objective of the ECWAG Program is to assist the residents of rural areas that have experienced a significant decline in quantity or quality of water, or in which such a decline is considered imminent, to obtain or maintain adequate quantities of water that meets the standards set by the Safe Drinking Water Act (42 U.S.C. 300f et seq.) (SDWA).

§ 1778.4 Definitions.

Acute shortage. An acute shortage is a situation in which the system either cannot deliver water at all through its distribution system or can only deliver water on a sporadic basis.

Emergency. Occurrence of an incident such as, but not limited to, a drought; earthquake; flood; tornado; hurricane; disease outbreak; or chemical spill, leakage, or seepage.

Rural areas. Includes any area not in a city or town with a population in excess of 10,000 inhabitants, according to the latest decennial census of the United States, located in any of the fifty States, the Commonwealth of Puerto Rico, the Western Pacific Territories, Marshall Islands, Federated States of Micronesia, Republic of Palau, and the U.S. Virgin Islands.

Significant decline in quality. A significant decline in quality of potable water occurs when the present community source or delivery system does not meet, as a result of an emergency, the current SDWA requirements. For a private source or delivery system a significant decline in quality occurs when the water is no longer potable as a result of an emergency. As used in this Subpart, the term significant decline in quality may also include a situation where a significant decline is likely to occur within one year from the date of the filing of an application.

7 CFR Ch. XVII (1–1–05 Edition)

Significant decline in quantity. A significant decline in the quantity is caused by a disruption of the potable water supply by an emergency. The disruption in quantity of water prevents the present source or delivery system from supplying potable water needs to rural residents. This would not include a decline in excess water capacity. As used in this Subpart, the term significant decline in quantity may also include a situation where a significant decline is likely to occur within one year from the date of the filing of an application.

Statewide Nonmetropolitan Median Household Income (SNMHI). Median household income of the State's nonmetropolitan counties and portions of metropolitan counties outside of cities, towns or places of 50,000 or more population.

[68 FR 46078, Aug. 5, 2003, as amended at 69 FR 65519, Nov. 15, 2004]

§ 1778.5 [Reserved]

§ 1778.6 Eligibility.

(a) Grants may be made to public bodies and private nonprofit corporations serving rural areas. Public bodies include counties, cities, townships, incorporated towns and villages, boroughs, authorities, districts, and other political subdivisions of a State. Public bodies also include Indian tribes on Federal and State reservations and other Federally recognized Indian Tribal groups in rural areas.

(b) In the case of grants made to alleviate a significant decline in quantity or quality of water available from the water supplies of rural residents, the applicant must demonstrate that the decline occurred within two years of the date the application was filed with the Agency. This would not apply to grants made for repairs, partial replacement, or significant maintenance on an established water system. In situations involving imminent decline, evidence must be presented to demonstrate that the decline is likely to occur within one year of the date the application is filed with the Agency.

§ 1778.7 Project priority.

Paragraph (d) of this section indicates items and conditions which must
