**Subpart D—Information Pertaining to Preparation of Notes or Bonds and Bond Transcript Documents for Public Body Applicants**

**§ 1780.80 General.**

This subpart includes information for use by public body applicants in the preparation and issuance of evidence of debt (bonds, notes, or debt instruments, referred to as bonds in this subpart) and other necessary loan documents.

**§ 1780.81 Policies related to use of bond counsel.**

The applicant is responsible for preparation of bonds and bond transcript documents. The applicant will obtain the services and opinion of recognized bond counsel experienced in municipal financing with respect to the validity of a bond issue, except for issues of \$100,000 or less. With prior approval of the approval official, the applicant may elect not to use bond counsel. Such issues will be closed in accordance with the following:

(a) The applicant must recognize and accept the fact that application processing may require additional legal and administrative time;

(b) It must be established that not using bond counsel will produce significant savings in total legal costs;

(c) The local attorney must be able and experienced in handling this type of legal work;

(d) The applicant must understand that it will likely have to obtain an opinion from bond counsel at its expense should the Agency require refinancing of the debt;

(e) Bonds will be prepared in accordance with this regulation and conform as closely as possible to the preferred methods of preparation stated in § 1780.94; and

(f) Closing instructions must be issued by OGC.

**§ 1780.82 [Reserved]**

**§ 1780.83 Bond transcript documents.**

(k) For loans involving multiple advances of Agency loan funds, a preliminary approving opinion of bond counsel (or local counsel if no bond counsel is involved) if a final unqualified opinion cannot be obtained until all funds are advanced. The preliminary opinion for the entire issue shall be delivered at or before the time of the first advance of funds. It will state that the applicant has the legal authority to issue the bonds, construct, operate and maintain the facility, and repay the loan, subject only to changes occurring during the advance of funds, such as litigation resulting from the failure to advance loan funds, and receipt of closing certificates;

(l) Final unqualified approving opinion of bond counsel, (and preliminary approving opinion, if required) or local counsel if no bond counsel is involved, including an opinion as to whether interest on bonds will be exempt from Federal and State income taxes. With approval of the State program official, a final opinion may be qualified to the extent that litigation is pending relating to Indian claims that may affect title to land or validity of the obligation. It is permissible for such opinion to contain language referring to the last sentence of section 306 (a)(1) or to

**§§ 1780.84–1780.86 [Reserved]**

**§ 1780.87 Permanent instruments for Agency loans.**

Agency loans will be evidenced by an instrument determined legally sufficient and in accordance with the following order of preference:

(a) *First preference—Form RD 440–22, “Promissory Note”*. Refer to paragraph (b) of this section for methods of various frequency payment calculations.

(b) *Second preference—single instruments with amortized installments*. A single instrument providing for amortized installments which follows Form RD 440–22 as closely as possible. The full amount of the loan must show on the face of the instrument, and there must be provisions for entering the date and amount of each advance on the reverse or an attachment. When principal payments are deferred, the instrument will show that “interest only” is due on interest-only installment dates, rather than specific dollar amounts. The payment period including the “interest only” installment cannot exceed 40 years, the useful life of the facility, or State statute limitations, whichever occurs first. The amortized installment, computed as follows, will be shown as due on installment dates thereafter.

(1) *Monthly payments*. Multiply by twelve the number of years between the due date of the last interest-only installment and the final installment to determine the number of monthly payments. When there are no interest-only installments, multiply by twelve the number of years over which the loan is amortized. Then multiply the loan amount by the amortization factor and round to the next higher dollar.

(2) *Semiannual payments*. Multiply by two the number of years between the due date of the last interest-only installment and the due date of the final installment to determine the correct number of semiannual periods. When there are no interest-only installments, multiply by two the number of years over which the loan is amortized.
