

**Farm Service Agency, USDA****§ 799.13**

- (xiv) Naval Stores Program.
- (xv) Indian Acute Distress Donation Program.
- (xvi) Other major actions that are determined after an environmental evaluation not to significantly affect the quality of the human environment.
- (c) FSA will independently determine by an environmental evaluation whether an environmental assessment or an EIS is required on actions included in paragraph (b) of this section where the presence of extraordinary circumstances or other unforeseeable factors indicate that some other level of environmental review may be appropriate.
- (d) If an environmental evaluation indicates that an action will significantly affect the quality of the human environment, the preparation of an environmental assessment and/or an EIS will be necessary before the action is carried out.

**§ 799.11 Expedited procedures.**

Where emergency circumstances make it necessary to take action with

significant environmental impact without following the provisions of the NEPA regulations issued by CEQ, USDA, and FSA, FSA will, by working through the USDA Office of Environmental Quality, consult with CEQ and/or EPA about alternative arrangements (7 CFR 3100.35).

**§ 799.12 Program termination.**

An environmental assessment or an EIS will not be needed when a program or part of a program is discontinued because of a mandatory legislative requirement where the enabling legislation for such program does not provide authority to ameliorate or mitigate any resulting environmental effects on the quality of the human environment.

**§ 799.13 Environmental information.**

Interested persons may contact the Conservation and Environmental Protection Division, FSA, for information regarding FSA compliance with NEPA.
