

§ 868.44

7 CFR Ch. VIII (1-1-05 Edition)

§ 868.44 New original inspection.

When circumstances prevent a retest inspection, appeal inspection, or Board appeal inspection, an applicant may request a new original inspection on any previously inspected lot; except that a new original inspection may not be performed on an identifiable commodity lot which, as a result of a previous inspection, was found to be contaminated with filth, other than insect fragments in nongraded processed products, or to contain a deleterious substance. A new original inspection shall be based on a new sample and shall not be restricted to the scope of any previous inspection. A new original inspection certificate shall not supersede any previously issued certificate.

(2) If the superseded certificate is in the custody of the Service, the superseded certificate shall be marked "Void." APPEAL INSPECTION SERVICE

§ 868.60 Who may request appeal inspection service.

(a) *General.* Any interested person may request appeal inspection or Board appeal inspection service. When more than one interested person requests an appeal inspection or Board appeal inspection service, the first interested person to file is the applicant of record. Only one appeal inspection may be obtained from any original inspection or

retest inspection service for nongraded commodities. Only one Board appeal inspection may be obtained from any original or appeal inspection service for graded commodities. Board appeal inspection shall be performed on the basis of the file sample.

(b) *Kind and scope of request.* When the results for more than one kind of service are reported on a certificate, an appeal inspection or Board appeal inspection service, as applicable, may be requested on any or all kinds of services reported on the certificate. The scope of an appeal inspection service will be limited to the scope of the original inspection or, in the case of a Board appeal inspection service, the original or appeal inspection service. A request for appeal inspection of a retest inspection will be based upon the scope of the original inspection. If the request specifies a different scope, the request shall be dismissed. An appeal inspection for grade shall include a review of all factors that: (1) Determine the grade and (2) are reported on the original or, in the case of a Board appeal inspection, the original or appeal inspection certificate.

(Approved by the Office of Management and Budget under control number 0580-0012)

§ 868.61 How to request appeal inspection service.

(a) *General.* Requests shall be made with the field office responsible for the area in which the original service was performed. Requests for Board appeal inspections may be made with the Board of Appeals and Review or the field office that performed the appeal inspection. Verbal requests must be confirmed in writing, upon request, as specified in § 868.21. Copies of request forms may be obtained from the field office upon request. If at the time the request is made the documentation required by § 868.21 is not available, official personnel may, at their discretion, withhold service pending the receipt of the required documentation.

(b) *Request requirements.* (1) This subparagraph is applicable to rice inspection only. Except as may be agreed upon by the interested persons, the application shall be made: (i) Before the rice has left the place where the inspection being appealed was performed and

(ii) no later than the close of business on the second business day following the date of the inspection being appealed. However, the Administrator may extend the time requirement as deemed necessary.

(2) Subject to the limitations of paragraph (b)(3) of this section, the applicant may request that an appeal inspection be based on: (i) The file sample or (ii) a new sample. However, an appeal inspection shall be based on a new sample only if the lot can positively be identified by official personnel as the one that was previously inspected and the entire lot is available and accessible for sampling and inspection. Board appeals shall be on the basis of the file sample.

(3) An appeal inspection shall be limited to a review of the sampling procedure and an analysis of the file sample when, as a result of a previous inspection, the commodity was found to be contaminated with filth (other than insect fragments in nongraded processed products) or to contain a deleterious substance. If it is determined that the sampling procedures were improper, a new sample shall be obtained if the lot can be positively identified as the lot which was previously inspected and the entire lot is available and accessible for sampling and inspection.
