

Agricultural Marketing Service, USDA

§ 929.46

(b) The Secretary shall fix the rate of assessment to be paid by each handler during a fiscal period in an amount designated to secure funds sufficient to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period's expenses. At any time during or after the fiscal period, the Secretary may increase the assessment rate in order to secure funds sufficient to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all cranberries acquired during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal year, before sufficient operating income is available from assessments, the committee may accept the payment of assessments in advance and may also borrow money for such purposes.

(c) If a handler does not pay such assessment within the period of time prescribed by the committee, the assessment may be increased by either a late payment charge, or an interest charge, or both, at rates prescribed by the committee, with the approval of the Secretary.

§ 929.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the committee, with the approval of the Secretary, may carryover such excess into subsequent fiscal periods as a reserve: *Provided*, That funds already in the reserve do not exceed approximately one fiscal period's expenses. Such reserve funds may be used (1) to cover any expenses authorized by this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, it shall be refunded proportionately to the handlers from whom the excess was collected. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate; *Provided*, That to the extent practical, such funds

shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

RESEARCH

§ 929.45 Research and development.

(a) The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and market development projects designed to assist, improve, or promote the marketing, distribution, consumption, or efficient production of cranberries. The expense of such projects shall be paid from funds collected pursuant to § 929.41, or from such other funds as approved by the Secretary.

(b) The committee may, with the approval of the Secretary, establish rules and regulations as necessary for the implementation and operation of this section.

REGULATIONS

§ 929.46 Marketing policy.

(a) Each year prior to May 1 the committee shall estimate the marketable quantity for the following crop year.

(b) As soon as practicable after August 1 of each crop-year and prior to making any recommendations pursuant to paragraphs (b) (7) and (8) of this section or to § 929.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the crop-year. Such marketing policy shall contain the basis therefor and information relating to:

(1) The estimated total production of cranberries;

(2) The expected general quality of such cranberry production;

(3) The estimated carryover, as of September 1, of frozen cranberries and other cranberry products;

§ 929.47

(4) The expected demand conditions for cranberries in different market outlets;

(5) Supplies of competing commodities;

(6) Trend and level of consumer income;

(7) The recommended desirable total marketable quantity of cranberries including a recommended adequate carryover into the following crop year of frozen cranberries and other cranberry products;

(8) Regulation pursuant to § 929.52 expected to be recommended by the committee during the crop year together with its recommendation of the free and restricted percentages and beginning with the 1974-75 crop year, the recommended allotment percentages, if any, for the crop year; and

(9) Other factors having a bearing on the marketing of cranberries.

[33 FR 11640, Aug. 16, 1968, as amended at 38 FR 29801, Oct. 29, 1973]

§ 929.47 Preliminary regulation.

(a) Beginning with the 1968-69 crop year, and continuing for each crop year thereafter through August 31, 1974, no handler shall handle, as the first handler thereof, cranberries purchased by him from a grower or acquired by him for handling for the account of a grower until he has determined the identity of the grower and the quantity of cranberries attributed to such grower. The handler shall furnish such information to the committee at such times and in such forms as the committee, with the approval of the Secretary, may request.

(b) So that each producer may qualify for a base quantity, pursuant to § 929.48, the committee shall furnish each producer early in each calendar year beginning in 1969, and as soon as practicable after the effective date of the amendment for the 1968 calendar year, a form to be filed with the committee whereon the producer reports the location of his bog(s), the acreage of cranberries he intends to harvest, and such other information as the committee needs to establish a base quantity for such producer.

7 CFR Ch. IX (1-1-05 Edition)

§ 929.48 Sales history.

(a) *Determination of sales history.* (1) The initial sales history shall be computed by the committee for each grower using the best four out of six years of such grower's sales history, which shall include all commercial sales from the first complete crop year following adoption of this amendment, plus the prior five years' history of commercial sales, except as otherwise provided in paragraph (a)(5) of this section. For a grower with four years or less of commercial sales history, the initial sales history shall be computed by the committee using all available years of such grower's commercial sales history.

(2) A new sales history shall be computed for each grower after each crop year during which no volume regulation was established, in the same manner as for the initial sales history, except that the most recent crop year shall be used instead of the earliest crop year, and except as otherwise provided in paragraph (a)(4) of this section. The committee, with the approval of the Secretary, may, by regulation, alter the number and identity of years to be used in computing these subsequent sales histories.

(3) A new sales history shall be calculated for each grower after each crop year, during which a volume regulation has been established, using a formula determined by the committee, with the approval of the Secretary.

(4) Beginning with the first complete crop year following the adoption of this section, if a grower has no commercial sales from such grower's cranberry acreage for three consecutive crop years due to forces beyond the grower's control, the committee shall compute a level of commercial sales for the fourth year for that acreage using an estimated production, obtained by crediting the grower with the average sales from the preceding three years during which sales occurred. Any and all relevant factors regarding the grower's lost production may be considered by the committee prior to establishing a sales history for such acreage.

(5) The committee shall compute a sales history for a grower who has no history of sales associated with such grower's cranberry acreage during a crop year when a volume regulation
