

§ 989.601

tonnage raisins for its account shall be compensated for such packing in an amount determined by or acceptable to the Committee. In considering the amount of compensation to be paid, the Committee shall take into account, among other factors, the particular varietal type of raisins to be packed, the particular pack or package required, and the quantity and quality of the raisins to be packed.

(4) *Redelivery.* In the event the Committee removes reserve tonnage raisins of a previous crop year from a handler upon the request provided for in § 989.66(f) and such handler subsequently desires redelivery to him of reserve tonnage raisins for contract packing, or other purpose, he shall reimburse the Committee in advance of such redelivery for the net costs to it of the removal, storage, and redelivery of such raisins: *Provided*, That the Committee may waive payment by the handler of part or all of such costs if it determines that such waiver is reasonably necessary to the prompt and favorable disposition of the raisins involved.

Subpart—Conversion Factors

§ 989.601 Conversion factors for raisin weight.

The following factors for the named varietal types of raisins shall be used to convert the net weight of reconditioned raisins acquired by handlers as packed raisins to natural condition weight. The net weight of the raisins after the completion of processing shall be divided by the applicable factor to obtain the natural condition weight: *Provided*, That the adjusted weight does not exceed the original weight of the raisins prior to reconditioning; and *Provided further*, That, if the adjusted weight exceeds the original weight, the original weight will be used.

Varietal type	Conversion factor
Natural (sun-dried) Seedless	0.92

Subpart—Quality Control

§ 989.701 Minimum grade and condition standards for natural condition raisins.

Effective pursuant to § 989.58, raisins meeting the varietal standards hereinafter set forth shall be considered as standard raisins and those failing to meet such standards shall be considered as off-grade raisins. Where the raisins in any lot consist of two or more varietal types commingled within their containers, the lot shall be considered as a mixed lot and as standard raisins if they meet for each defect the most restrictive requirements for the varietal types of raisins comprising the lot. In the event layered Muscats (including other raisins with seeds) or Cluster Seedless raisins are commingled within their containers with loose Muscats (including other raisins with seeds) or loose Cluster Seedless raisins respectively, the entire lot shall be considered as loose Muscats (including other raisins with seeds) or Natural (sun-dried) Seedless raisins. The raisins shall be considered as standard raisins if the lot as a whole meets the minimum standards for loose Muscats (including other raisins with seeds) or Natural (sun-dried) Seedless raisins: *Provided*, That with respect to the requirements peculiar to a varietal type such as possessing characteristic color, flavor, or odor, the raisins shall be considered as meeting such requirements if they have been properly prepared as raisins. In each category, only those raisins which have been properly dried and cured in original natural condition, are free from active infestation, and are in such condition that they are capable of being received, stored, and packed without undue deterioration or
