

§ 205.213

definitions and the UCC definitions of the same terms. In interpreting those differences, the following would be pertinent:

(a) The legislative intent discussed above in § 205.211, to pre-empt State laws reflecting the “farm products” exception; and

(b) The legislative intent shown in subsections (a) and (b) that certain persons take free and clear of certain interests of a “secured lender” “when the seller fails to repay the lender,” unless such persons have information about such interests made available to them as provided in the Section.

§ 205.213 Obligations subject—“person indebted”—“debtor.”

(a) A debt need not exist at the time of filing of an EFS. The basis for this is that subsection (c)(4) does not require the EFS, and subsection (c)(2)(C) does not require the master list, to show any amount of debt.

(b) The Section does not provide for the transaction in which one person subjects a product to a security interest for another’s debt. However the terms “person indebted” and “debtor” in the Section refer to the person who owns a product and subjects it to a security interest, whether or not that person owes a debt to the secured party. The basis for this is the purpose for which the information is supplied. Any buyer of a farm product, commission merchant, or selling agent querying a master list or system operator about a prospective seller of a farm product is interested in whether that seller has subjected that product to a security interest, not in whether the debt is owed by that seller or by another.

(c) Security interests existing prior to establishment of a system can be filed in such a system and reflected in the master list if documents are in existence or are created which meet the requirements of subsection (c)(4) besides filing, if such documents are filed wherever State law requires, and if the system operator receives the information about them needed for the master list.

(d) A system can be in compliance with the Section, although it reflects security interests not supported by

9 CFR Ch. II (1–1–05 Edition)

EFS’s as defined in the legislation, and although it reflects security interests on items other than farm products. However, subsections (e) (2) and (3), and (g)(2) (C) and (D), will apply only as to entries reflecting farm products and supported by EFS’s as defined in the Section, and it must be possible to distinguish the entries to which these provisions apply from the other entries.

§ 205.214 Litigation as to whether a system is operating in compliance with the Section.

(a) The requirements for a system in subsection (c) are written as the definition of the term “central filing system,” so that failure of a system to meet any such requirement, either at the time of its establishment or later, will mean that it is not a “central filing system” as defined.

(b) The issue whether a system, after certification, is operating in compliance, thus whether it is a “central filing system” as defined, could be litigated and ruled on in a case involving only private parties, such as a lender and a buyer of a farm product. The only immediate effect of a finding in such a case, that a system is not a “central filing system” as defined, would be that the rights of the secured party in the case would be as if the State had no system. However, others would be in doubt as to whether they could safely rely on the same system.
