

§ 32.8

§ 32.8 Intention to bring about death or permanent and total disability.

The Bureau will consider at least the following factors in determining whether the officer intended to bring about the officer's own death or injury:

(a) Whether the death or permanent and total disability was caused by insanity, through an uncontrollable impulse or without conscious volition to produce death or injury;

(b) Whether the officer had a prior history of attempted suicide or attempts to cause physical incapacitation;

(c) Whether the officer's intent to bring about the officer's death or injury was a substantial factor in the officer's death or permanent and total disability; and

(d) The existence of an intervening force or action which would have independently caused the officer's death or permanent and total disability and which would not otherwise prohibit payment of a benefit pursuant to this part.

§ 32.9 Voluntary intoxication.

The Bureau will apply the following evidentiary factors in cases in which voluntary intoxication is at issue in an officer's death or permanent and total disability.

(a) The primary factor in determining intoxication at the time the injury occurred, from which death or permanent and total disability resulted, is the blood alcohol level, including a post-mortem blood alcohol level in the case of a death.

(1) Benefits will be denied if a deceased or permanently and totally disabled public safety officer had a blood alcohol level of .20 per centum or greater; or

(2) Benefits will be denied if a deceased or permanently and totally disabled public safety officer had a blood alcohol level of at least .10 per centum but less than .20 per centum unless the Bureau receives convincing evidence that the public safety officer was not acting in an intoxicated manner immediately prior to death or the receipt of a catastrophic personal injury.

(b) Convincing evidence includes, but is not limited to: Affidavits or investigative reports demonstrating that

28 CFR Ch. I (7-1-05 Edition)

the deceased or permanently and totally disabled public safety officer's speech, movement, language, emotion, and judgment were normal (for the officer) immediately prior to the injury which caused the death or the permanent and total disability.

(c) In determining whether an officer's intoxication was voluntary, the Bureau will consider:

(1) Whether, and to what extent, the officer had a prior history of voluntary intoxication while in the line of duty;

(2) Whether and to what degree the officer had previously used the intoxicant in question; and

(3) Whether the intoxicant was prescribed medically and was taken within the prescribed dosage.
