

§ 34.101

28 CFR Ch. I (7–1–05 Edition)

except as provided in the exceptions to applicability set forth below.

§ 34.101 Exceptions to applicability.

The assistance and procurement contract situations specified in § 34.2 (c), (d), (e), (f), and (g) of subpart A of this part are considered by OJJDP to be outside the scope of the section 262(d) peer review requirement as set forth in this subpart.

§ 34.102 Peer review procedures.

The OJJDP peer review process is contained in an OJJDP “Peer Review Guideline,” developed in consultation with the Directors and other appropriate officials of the National Science Foundation and the National Institute of Mental Health. In addition to specifying substantive and procedural matters related to the peer review process, the “Guideline” addresses such issues as standards of conduct, conflict of interest, compensation of peer reviewers, etc. The “Guideline” describes a process that evolves in accordance with experience and opportunities to effect improvements. The peer review process for all part C—National Programs assistance awards subject to this regulation will be conducted in a manner consistent with this subpart as implemented in the “Peer Review Guideline”.

§ 34.103 Definition.

Peer review means the technical and programmatic evaluation by a group of experts (other than officers and employees of the Department of Justice) qualified by training and experience to give expert advice, based on selection criteria established under subpart A of this part, in a program announcement, or as established by the Administrator, on the technical and programmatic merit of assistance.

§ 34.104 Use of peer review.

(a) *Peer review for competitive and noncompetitive applications.* (1) For competitive applications, each program announcement will indicate the program specific peer review procedures and selection criteria to be followed in peer review for that program. In the case of competitive programs for which a large number of applications is expected,

preapplications (concept papers) may be required. Preapplications will be reviewed by qualified OJJDP staff to eliminate those pre-applications which fail to meet minimum program requirements, as specified in a program announcement, or clearly lack sufficient merit to qualify as potential candidates for funding consideration. The Administrator may subject both pre-applications and formal applications to the peer review process.

(2) For noncompetitive applications, the general selection criteria set forth under subpart A of this part may be supplemented by program specific selection criteria for the particular part C program. Applicants for noncompetitive continuation awards will be fully informed of any additional specific criteria in writing.

(b) When formal applications are required in response to a program announcement, an initial review will be conducted by qualified OJJDP staff, in order to eliminate from peer review consideration applications which do not meet minimum program requirements. Such requirements will be specified in the program announcement. Applications determined to be qualified and eligible for further consideration will then be considered under the peer review process.

(c) Ratings will be in the form of numerical scores assigned by individual peer reviewers as illustrated in the OJJDP “Peer Review Guideline.” The results of peer review under a competitive program will be a relative aggregate ranking of applications in the form of “Summary Ratings.” The results of peer review for a noncompetitive new or continuation project will be in the form of numerical scores based on criteria established by the Administrator.

(d) Peer review recommendations, in conjunction with the results of internal review and any necessary supplementary review, will assist the Administrator’s consideration of competitive, noncompetitive, applications and selection of applications for funding.

(e) Peer review recommendations are advisory only and are binding on the
