

(g) Prepare, and circulate a finding and public explanation of any final decision that there is no practicable alternative to locating an action in, or affecting a floodplain or wetland. The same audience and means of distribution used in paragraph (b) of this section, shall be used to circulate this finding. The finding shall include the following: the reasons why the action is proposed to be located in a floodplain or wetland, a statement indicating whether the action conforms to applicable State or local floodplain management standards, a list of alternatives considered, and a map of the general area clearly delineating the project locale and its relationship to its environs. A brief comment period on the finding shall be provided wherever practicable prior to taking any action.

(h) Review the implementation and post implementation phase of the proposed action to ensure that the provisions of paragraph (e) of this section, are fully implemented. This responsibility shall be fully integrated into existing review, audit, field oversight and other monitoring processes, and additional procedures shall be prepared where existing procedures may be inadequate to ensure that the Orders' goals are met.

§ 63.7 Determination of location.

(a) In order to determine whether an action is located on or affects a *floodplain*, the component shall:

(1) Consult the FIA Flood Insurance Rate Map (FIRM) and the Flood Insurance Study (FIS); or

(2) If a detailed map (FIRM) is not available, consult an FIA Flood Hazard Boundary Map (FHBM); or

(3) If data on flood elevations, floodways, or coastal high hazard areas are needed, or if none of the maps delineates the flood hazard boundaries in the vicinity of the proposed site, seek detailed information and assistance as necessary and appropriate from the Department of Agriculture's Soil Conservation Service, the Army Corps of Engineers, the National Oceanic and Atmospheric Administration, the Federal Emergency Management Agency's Regional Offices/Division of Insurance and Hazard Mitigation, the Depart-

ment of the Interior's Geological Survey, Bureau of Land Management, and Bureau of Reclamation, the Tennessee Valley Authority, the Delaware River Basin Commission, the Susquehanna River Basin Commission, individual states and/or land administering agencies; or

(4) If the sources listed above do not have or know of the information necessary to comply with the Orders' requirements, seek, as permitted by law, the services of a federal or other engineer experienced in this work to

(i) Locate the site and the limits of the coastal high hazard area, floodway and of the applicable floodplain, and

(ii) Determine base flood elevations.

(b) In the absence of a finding to the contrary, the component shall assume that action involving a facility or structure that has been flooded in a major disaster or emergency is in the applicable floodplain for the site of the proposed action.

(c) In order to determine whether an action is located on or affects a *wetland*, the component shall:

(1) Consult with the United States Fish and Wildlife Service (FWS) for information concerning the location, scale and type of wetlands within the area which could be affected by the proposed action; or

(2) If the FWS does not have adequate information upon which to base the determination, consult wetland inventories maintained by the Army Corps of Engineers, the Environmental Protection Agency, various states, communities and others; or

(3) If state or other sources do not have adequate information upon which to base the determination, insure that an on-site analysis is performed by a representative of the FWS or other qualified individual for wetlands characteristics based on the performance definition of what constitutes a wetland.

§ 63.8 Implementation.

Agencies and divisions within the Department of Justice shall amend existing regulations and procedures, as appropriate, to incorporate the policy and procedures set forth in these guidelines. Such amendments will be made
