

§ 1960.84

(3) The factors used to define “large” or “more hazardous” Federal agencies, establishments, or operations;

(4) The procedures for conducting evaluations including field visits and scheduled inspections; and

(5) The reporting format for agency heads in submitting annual summaries of their self-evaluation programs.

(c) Prior to the initiation of an agency evaluation, the Department of Labor will review the annual agency self-evaluation summary report. The Secretary will then develop a program evaluation plan before the initiation of an agency evaluation. A copy of the plan shall be furnished to the agency to be evaluated at the time of the notification of the evaluation.

(d) To facilitate the evaluation process and to insure full understanding of the procedures to be followed and the support required from the agency, the Secretary, or the Secretary’s representative, shall conduct an opening conference with the agency head or designee. At the opening conference, the Secretary’s authority and evaluation plan will be explained.

(e) The agency evaluation should be completed within 90 calendar days of the date of the opening conference.

(f) A report of the evaluation shall be submitted to the agency head by the Secretary within 90 calendar days from the date of the closing conference.

(g) Agency heads shall respond to the evaluation report within 60 calendar days of receipt of the report.

Subpart K—Field Federal Safety and Health Councils

§ 1960.84 Purpose.

(a) Executive Order 12196 provides that the Secretary shall “facilitate the exchange of ideas and information throughout the Government about occupational safety and health.”

(b) Consistent with this objective, the Secretary will continue to sponsor and/or provide guidance for those Field Federal Safety and Health Councils now established and in operation, and establish new field councils as necessary. The field councils will consist

29 CFR Ch. XVII (7–1–05 Edition)

primarily of qualified representatives of local area Federal field activities whose duties pertain to occupational safety and health, and also of representatives of recognized local labor organizations, or other civilian employee organizations, at local area Federal field activities. For the purpose of this subpart the definition of field activity will be provided by each agency.

§ 1960.85 Role of the Secretary.

(a) The Secretary shall maintain liaison with agency heads to ensure that they encourage their field activities to participate actively in field council programs. To ensure maximum participation, the field councils’ annual reports to the Secretary shall provide descriptions of the degree of management and employee participation by the defined Federal field activities. The Secretary shall annually furnish each agency head with a report consolidating the information received as to the participation of the agency’s several field installations in field council activities.

(b) The Secretary shall provide leadership and guidance and make available necessary equipment, supplies, and staff services to the Field Federal Safety and Health Councils to assist them in carrying out their responsibilities. The Secretary shall also provide consultative and technical services to field councils. These services shall involve aid in any phase of developing and planning programs; and in sponsoring, conducting or supporting safety and health training courses.

§ 1960.86 Establishing councils.

(a) Those field councils established and in operation prior to the effective date of this subpart will continue to function without interruption provided they are operating in accordance with the provision of their charter and this subpart.

(b) The Secretary may establish a council in any area where ten or more Federal establishments totaling 300 or more employees are located within an area having a radius of 50 miles, and there is substantial agreement among the agencies that such a council would be useful. In any such area where there is no council already established, a

field representative of the Secretary may, upon his own initiative or at the request of any establishment within the area, contact representatives of all establishments within the area and encourage the organization of a field council.

(c) After a new council has been organized, officers elected, and articles of organization drafted and accepted by the council membership, a formal request for recognition as a field council shall be sent to the Secretary. Upon approval of the Articles of Organization, a charter will be issued.

(d) At the first general meeting of the council, committees should be appointed and the cooperation of all participants should be solicited to aid the functioning of committees and the successful accomplishment of the council's objectives.

§ 1960.87 Objectives.

The basic objective of field councils is to facilitate the exchange of ideas and information to assist agencies to reduce the incidence, severity and cost of occupational accidents, injuries, and illnesses. Field councils shall act on behalf of the Secretary or his designees on occupational safety and health activities in carrying out within their respective geographic areas the following functions:

(a) To act as a clearinghouse on information and data on occupational accidents, injuries, and illnesses and their prevention.

(b) To plan, organize and conduct field council meetings or programs which will give technical advice and information on occupational safety and health to representatives of participating agencies and employee organizations.

(c) To promote improvement of safety and health programs and organizations in each Federal agency represented or participating in council activities.

(d) To promote coordination, cooperation, and sharing of resources and expertise to aid agencies with inadequate or limited resources. These objectives can be accomplished in a variety of ways. For example, field councils could organize and conduct training programs for employee representa-

tives, collateral duty and professional safety and health personnel, coordinate or promote programs for inspections, or, on request, conduct inspections and evaluations of the agencies' safety and health programs.

(e) To provide Federal Executive Boards, Federal Executive Associations, labor union organizations and other employee representatives with information on the administrative and technical aspects of safety and health programs.

(f) To evaluate the safety and health problems peculiar to local conditions and facilitate solutions to these problems through council activities.

(g) To develop a cooperative relationship with local community leaders by informing them of the existing functions and objectives of the council and by calling on them for support and participation in council meetings and activities.

§ 1960.88 Membership and participation.

(a) Each field council shall consist of the designated representatives of local Federal activities appointed by their respective activity heads, after consultation with appropriate employee representatives and appropriate certified safety and health committees.

(b) Federal agency heads should encourage each field activity having responsibility for the safety and health of agency employees to participate in the programs of these councils.

(c) Each activity head shall appoint an equal number of officially designated representatives (with designated alternates), from management and from nonmanagement employees, consistent with applicable collective bargaining arrangements.

(d) Representatives shall be selected from individuals in the following categories:

(1) Federal occupational safety and health professionals.

(2) Related Federal professionals, or collateral duty personnel. This includes persons employed in professions or occupations related to or concerned with safety and health of employees.

(3) Line management officials.
