

employee's employment commencement date occurred). For administrative convenience, in conjunction with the equivalency based on hours worked permitted under § 2530.200b-3(d)(1), and with the method of crediting hours of service to computation periods set forth in § 2530.200b-2(c)(4), the plan uses the alternative initial eligibility computation period permitted under this paragraph. The plan provides that an employee's initial eligibility computation period shall be the period beginning on the first day of the first monthly payroll period for which the employee is entitled to credit for the performance of duties and ending on the last day of the monthly payroll period which includes the anniversary of the last day of the initial monthly payroll period. This condition ensures that the initial eligibility computation period will include the 12-consecutive-month period beginning on the employee's employment commencement date and ending on the day before the anniversary of the employee's employment commencement date. If, however, an employee completes the plans requirement of one year of service for eligibility to participate (i.e., completion of 870 hours worked in an eligibility computation period) in the initial eligibility computation period, the plan provides that the employee is deemed to have satisfied the plan's service requirements for eligibility to participate as of the day before the anniversary of the first day of the initial eligibility computation period. This provision ensures that no employee who has in fact completed 1000 hours of service in the 12-consecutive-month period beginning on the employee's employment commencement date will be admitted to participation later than the date specified under section 202(a)(4) of the Act and section 410(a)(4) of the Code. For example, in the case of an employee who begins employment in January 1977, the employee's initial eligibility computation period begins on January 1, 1977 and ends on January 31, 1978. If the employee completes 879 hours worked in the initial eligibility computation period, the employee is treated as having met the plan's service requirements for eligibility to participate as of December 31, 1977. If the

plan provides for semi-annual entry dates of January 1 and July 1, and the employee has met any eligibility requirements of the plan other than the minimum service requirement as of December 31, 1977, the plan must provide that the employee commences participation as of January 1, 1978.

**§ 2530.203-1 Vesting; general.**

(a) Section 203 of the Act and section 411(a) of the Code contain minimum vesting standards relating to certain employee pension benefit plans. In general, a pension plan subject to section 203 of the Act or section 411(a) of the Code must meet certain requirements relating to an employee's nonforfeitable ("vested") right to his or her normal retirement benefit. One of these requirements specifies that an employee's accrued benefit derived from employer contributions must be vested in accordance with certain schedules. The schedules (or alternative minimum vesting standards) are generally based on the employee's number of years of service with the employer or employers maintaining the plan. Section 2530.203-2 sets forth rules relating to the computation periods used to determine whether an employee has completed a year of service for vesting purposes ("vesting computation periods").

(b) For rules relating to service with the employer or employers maintaining the plan, see § 2530.210.

**§ 2530.203-2 Vesting computation period.**

(a) *Designation of vesting computation periods.* Except as provided in paragraph (b) of this section, a plan may designate any 12-consecutive-month period as the vesting computation period. The period so designated must apply equally to all participants. This requirement may be satisfied even though the actual 12-consecutive-month periods are not the same for all employees (e.g., if the designated vesting computation period is the 12-consecutive-month period beginning on an employee's employment commencement date and anniversaries of that date). The plan is prohibited, however, from using any period that would result in artificial postponement of vesting credit, such as a period measured
