§ 4000.52 What definitions do I need to know for these rules?

You need to know two definitions from § 4001.2 of this chapter: PBGC and person. You also need to know the following definitions:

We means the PBGC.

You means the person subject to the record retention requirement.

§ 4000.53 May I use electronic media to satisfy PBGC's record retention requirements?

General requirements. You may use electronic media to satisfy the record maintenance and retention requirements of this chapter if:

(a) The electronic recordkeeping system has reasonable controls to ensure the integrity, accuracy, authenticity and reliability of the records kept in electronic form;

(b) The electronic records are maintained in reasonable order and in a safe and accessible place, and in such manner as they may be readily inspected or examined (for example, the recordkeeping system should be capable of indexing, retaining, preserving, retrieving and reproducing the electronic records);

(c) The electronic records are readily convertible into legible and readable paper copy as may be needed to satisfy reporting and disclosure requirements or any other obligation under section 302(f)(4), section 307(e), or Title IV of ERISA;

(d) The electronic recordkeeping system is not subject, in whole or in part, to any agreement or restriction that would, directly or indirectly, compromise or limit a person's ability to comply with any reporting and disclosure requirement or any other obliga-

tion under section 302(f)(4), section 307(e), or Title IV of ERISA;

(e) Adequate records management practices are established and implemented (for example, following procedures for labeling of electronically maintained or retained records, providing a secure storage environment, creating back-up electronic copies and selecting an off-site storage location, observing a quality assurance program evidenced by regular evaluations of the electronic recordkeeping system including periodic checks of electronically maintained or retained records; and retaining paper copies of records that cannot be clearly, accurately or completely transferred to an electronic recordkeeping system); and

(f) All electronic records exhibit a high degree of legibility and readability when displayed on a video display terminal or other method of electronic transmission and when reproduced in paper form. The term "legibility" means the observer must be able to identify all letters and numerals positively and quickly to the exclusion of all other letters or numerals. The term "readability" means that the observer must be able to recognize a group of letters or numerals as words or complete numbers.

§ 4000.54 May I dispose of original paper records if I keep electronic copies?

You may dispose of original paper records any time after they are transferred to an electronic recordkeeping system that complies with the requirements of this subpart, except such original records may not be discarded if the electronic record would not constitute a duplicate or substitute record under the terms of the plan and applicable federal or state law.
