

death benefit would not be an “incidental death benefit,” the PBGC may instead offer a modified version of the optional form under which the death benefit would be an “incidental death benefit.”

(d) *Change in benefit form.* Once payment of a benefit starts, the benefit form cannot be changed.

(e) *PBGC discretion.* The PBGC may make other optional annuity forms available subject to the rules in paragraph (c) of this section.

§ 4022.9 Time of payment; benefit applications.

(a) *Time of payment.* A participant may start receiving an annuity benefit from the PBGC (subject to the PBGC’s rules for starting benefit payments) on his or her Earliest PBGC Retirement Date as determined under § 4022.10 of this subchapter or, if later, the plan’s termination date.

(b) *Elections and consents.* The PBGC may prescribe the time and manner for benefit elections to be made and spousal consents to be provided.

(c) *Benefit applications.* The PBGC is not required to accept any application for benefits not made in accordance with its forms and instructions.

(d) *Filing with the PBGC—(1) Method and date of filing.* The PBGC applies the rules in subpart A of part 4000 of this chapter to determine permissible methods of filing with the PBGC under this part. Benefit applications and related submissions are treated as filed on the date received by the PBGC unless the instructions for the applicable form provide for an earlier date. Subpart C of part 4000 of this chapter provides rules for determining when the PBGC receives a submission.

(2) *Where to file.* See § 4000.4 of this chapter for information on where to file.

(3) *Computation of time.* The PBGC applies the rules in subpart D of part 4000 of this chapter to compute any time period for filing under this part.

§ 4022.10 Earliest PBGC Retirement Date.

The Earliest PBGC Retirement Date for a participant is the earliest date on which the participant could retire under plan provisions for purposes of section 4044(a)(3)(B) of ERISA. The Earliest PBGC Retirement Date is determined in accordance with this § 4022.10. For purposes of this § 4022.10, “age” means the participant’s age as of his or her last birthday (unless otherwise required by the context).

(a) *Immediate annuity at or after age 55.* If the earliest date on which a participant could separate from service with the right to receive an immediate annuity is on or after the date the participant reaches age 55, the Earliest PBGC Retirement Date for the participant is the earliest date on which the participant could separate from service with the right to receive an immediate annuity.

(b) *Immediate annuity before age 55.* If the earliest date on which a participant could separate from service with the right to receive an immediate annuity is before the date the participant reaches age 55, the Earliest PBGC Retirement Date for the participant is the date the participant reaches age 55 (except as provided in paragraph (c) of this section).

(c) *Facts and circumstances.* If a participant could separate from service with the right to receive an immediate annuity before the date the participant reaches age 55, the PBGC will make a determination, under the facts and circumstances, as to whether the participant could retire under plan provisions for purposes of section 4044(a)(3)(B) of ERISA on an earlier date. If the PBGC determines, under the facts and circumstances, that the participant could retire under plan provisions for those purposes on an earlier date, that earlier date is the Earliest PBGC Retirement Date for the participant. In making this determination, the PBGC will take into account plan provisions (e.g., the general structure of the provisions, the extent to which the benefit is subsidized, and whether eligibility for the benefit is based on a substantial service or age-and-service requirement), the age at which employees customarily retire (under the particular plan

or in the particular company or industry, as appropriate), and all other relevant considerations. Neither a plan's reference to a separation from service at a particular age as a "retirement" nor the ability of a participant to receive an immediate annuity at a particular age necessarily makes the date the participant reaches that age the Earliest PBGC Retirement Date for the participant. The Earliest PBGC Retirement Date determined by the PBGC under this paragraph (c) will never be earlier than the earliest date the participant could separate from service with the right to receive an immediate annuity.

(d) *Examples.* The following examples illustrate the operation of the rules in paragraphs (a) through (c) of this section.

(1) *Normal retirement age.* A plan's normal retirement age is age 65. The plan does not offer a consensual lump sum or an immediate annuity upon separation before normal retirement age. The Earliest PBGC Retirement Date for a participant who, as of the plan's termination date, is age 50 is the date the participant reaches age 65.

(2) *Early retirement age.* A plan's normal retirement age is age 65. The plan specifies an early retirement age of 60 with 10 years of service. The plan does not offer a consensual lump sum or an immediate annuity upon separation before early retirement age. The Earliest PBGC Retirement Date for a participant who, as of the plan's termination date, is age 55 and has completed 10 years of service is the date the participant reaches age 60.

(3) *Separation at any age.* A plan's normal retirement age is age 65. The plan specifies an early retirement age of 60 but offers an immediate annuity upon separation regardless of age. The Earliest PBGC Retirement Date for a participant who, as of the plan's termination date, is age 35 is the date the participant reaches age 55, unless the PBGC determines under the facts and circumstances that the participant could "retire" for purposes of ERISA section 4044(a)(3)(B) on an earlier date, in which case the participant's Earliest PBGC Retirement Date would be that earlier date.

(4) *Age 50 retirement common.* A plan's normal retirement age is age 60. The plan specifies an early retirement age of 50 but offers an immediate annuity upon separation regardless of age. The Earliest PBGC Retirement Date for a participant who, as of the plan's termination date, is age 35 is the date the participant reaches age 55, unless the PBGC determines under the facts and circumstances that the participant could retire for purposes of ERISA section 4044(a)(3)(B) on an earlier date, in which case the Earliest PBGC Retirement Date would be that earlier date. For example, if it were common for participants to retire at age 50, the PBGC could determine that the participant's Earliest PBGC Retirement Date would be the date the participant reached age 50.

(5) *"30-and-out" benefit.* A plan's normal retirement age is age 65. The plan offers an immediate annuity upon separation regardless of age and a fully-subsidized annuity upon separation with 30 years of service. The Earliest PBGC Retirement Date for a participant who, as of the plan's termination date, is age 48 and has completed 30 years of service is the date the participant reaches age 55, unless the PBGC determines under the facts and circumstances that the participant could retire for purposes of ERISA section 4044(a)(3)(B) on an earlier date, in which case the participant's Earliest PBGC Retirement Date would be that earlier date. In this example, the PBGC generally would determine under the facts and circumstances that the participant's Earliest PBGC Retirement Date is the date the participant completed 30 years of service.

(6) *Typical airline pilots' plan.* An airline pilots' plan has a normal retirement age of 60. The plan specifies an early retirement age of 50 (with 5 years of service). The Earliest PBGC Retirement Date for a participant who, as of the plan's termination date, is age 48 and has completed five years of service would be the date the participant reaches age 55, unless the PBGC determines under the facts and circumstances that the participant could retire for purposes of ERISA section 4044(a)(3)(B) on an earlier date, in which case the participant's Earliest

PBGC Retirement Date would be that earlier date. In this example, the PBGC generally would determine under the facts and circumstances that the participant's Earliest PBGC Retirement Date is the date the participant reaches age 50. If the plan instead had provided for early retirement before age 50, the PBGC would consider all the facts and circumstances (including the plan's normal retirement age and the age at which employees customarily retire in the airline industry) in determining whether to treat the date the participant reaches the plan's early retirement age as the participant's Earliest PBGC Retirement Date.

(e) *Special rule for "window" provisions.* For purposes of paragraphs (a), (b), and (c) of this section, the PBGC will treat a participant as being able, under plan provisions, to separate from service with the right to receive an immediate annuity on a date before the plan's termination date only if—

(1) Eligibility for that immediate annuity continues through the earlier of—

- (i) The plan's termination date; or
- (ii) The date the participant actually separates from service with the right to receive an immediate annuity; and

(2) The participant satisfies the conditions for eligibility for that immediate annuity on or before the plan's termination date.

Subpart B—Limitations on Guaranteed Benefits

§ 4022.21 Limitations; in general.

(a)(1) Subject to paragraphs (b), (c) and (d) of this section, the PBGC will not guarantee that part of an installment payment that exceeds the dollar amount payable as a straight life annuity commencing at normal retirement age, or thereafter, to which a participant would have been entitled under the provisions of the plan in effect on the termination date, on the basis of his credited service to such date. If the plan does not provide a straight life annuity either as its normal form of retirement benefit or as an option to the normal form, the PBGC will for purposes of this paragraph convert the

plan's normal form benefit to a straight life annuity of equal actuarial value as determined by the PBGC.

(2) The limitation of paragraph (a)(1) of this section shall not apply to:

(i) A survivor's benefit payable as an annuity on account of the death of a participant that occurred on or before the plan's termination date and before the participant retired;

(ii) A disability pension described in § 4022.6 of this part; or

(iii) A benefit payable in non-level installments that in combination with Social Security, Railroad Retirement, or workman's compensation benefits yields a substantially level income if the projected income from the plan benefit over the expected life of the recipient does not exceed the value of the straight life annuity described in paragraph (a)(1) of this section.

(b) The PBGC will not guarantee the payment of that part of any benefit that exceeds the limitations in section 4022(b) of ERISA and this subpart B.

(c)(1) Except as provided in paragraph (c)(2) of this section, the PBGC does not guarantee a benefit payable in a single installment (or substantially so) upon the death of a participant or his surviving beneficiary unless that benefit is substantially derived from a reduction in the pension benefit payable to the participant or surviving beneficiary.

(2) Paragraphs (a) and (c)(1) of this section do not apply to that portion of accumulated mandatory employee contributions payable under a plan upon the death of a participant, and such a benefit is a pension benefit for purposes of this part.

(d) The PBGC will not guarantee a joint-life annuity benefit payable to other than—

- (1) Natural persons; or
- (2) A trust or estate for the benefit of one or more natural persons.

§ 4022.22 Maximum guaranteeable benefit.

Subject to section 4022B of ERISA and part 4022B of this chapter, benefits payable with respect to a participant under a plan shall be guaranteed only to the extent that such benefits do not
