

§ 205.6

the dollar amount of all Federal assistance being received by a State for all Federal assistance programs including non-cash programs. A State must locate the appropriate row in Column A based upon the total amount of Federal assistance received. In that same row, a State must apply the percentage from Column B to the dollar value of all its Federal assistance programs to determine the State's threshold for major Federal assistance programs. For example, if the total amount received by a State for all Federal assistance programs is \$50 million, then that State's threshold for major Federal assistance programs is 6% of \$50 million or \$3 million. A State which receives more than \$10 billion under Federal assistance programs will have a minimum default threshold of \$60 million.

(b) To ensure adequate coverage of all State programs, a State must, on an annual basis, compare its program coverage using the percentage obtained from Table A to the program coverage which would result using a percentage which is half of the percentage obtained from Table A. For example, a State receiving \$1 billion in Federal Assistance would use Table A to learn that its threshold level would be .60 percent of \$1 billion. A State would compare program coverage at .60 percent of \$1 billion to program coverage at .30 percent of \$1 billion.

(c) If the comparison conducted under paragraph (b) of this section results in a reduction of program coverage that is greater than 10%, a State must lower its threshold, or add programs, until the difference is less than or equal to 10%.

(d) In accordance with §205.3(b), a State may lower its threshold to include additional programs. All of a State's programs that meet this lower threshold would be subject to this subpart A.

(e) Unless specified otherwise, major Federal assistance programs must be determined from the most recent Single Audit data available.

31 CFR Ch. II (7-1-05 Edition)

TABLE A TO § 205.5

Column A Total amount of Federal Assistance for all programs per State:	Column B Major Federal Assistance Program means any Federal assistance program that exceed these levels:
Between zero and \$100 million inclusive.	6.00 percent of the total amount of Federal assistance.
Over \$100 million but less than or equal to \$10 billion.	0.60 percent of the total amount of Federal assistance.
Over \$10 billion	The greater of 0.30 percent of the total Federal assistance of \$60 million.

§ 205.6 What is a Treasury-State agreement?

(a) A Treasury-State agreement documents the accepted funding techniques and methods for calculating interest agreed upon by us and a State and identifies the Federal assistance programs governed by this subpart A. If anything in a Treasury-State agreement is inconsistent with this subpart A, that part of the Treasury-State agreement will not have any effect and this subpart A will govern.

(b) A Treasury-State agreement will be effective until terminated unless we and a State agree to a specific termination date. We or a State may terminate a Treasury-State agreement on 30 days written notice.

§ 205.7 Can a Treasury-State agreement be amended?

(a) We or a State may amend a Treasury-State agreement at any time if both we and the State agree in writing.

(b) The effective date of an amendment shall be the date both parties agree to the amendment in writing unless otherwise agreed to by both parties.

(c) We and a State must amend a Treasury-State agreement as needed to change or clarify its language when the terms of the existing agreement are either no longer correct or no longer applicable. A State must notify us in writing within 30 days of the time the State becomes aware of a change, describing the Federal assistance program change. The notification must include a proposed amendment for our review and a current list of all programs included in the Treasury-State agreement. Amendments may address, but are not limited to:

Fiscal Service, Treasury

§ 205.9

(1) Additions or deletions of Federal assistance programs subject to this subpart A;

(2) Changes in funding techniques; and

(3) Changes in clearance patterns.

(d) Additions or deletions to the list of Federal assistance programs subject to this subpart A take effect when a Treasury-State agreement is amended, unless otherwise agreed to by the parties.

(e) Federal assistance programs that are to be added to a Treasury-State agreement are not subject to this subpart A until the Treasury-State agreement is amended, except when a Federal assistance program subject to this subpart A is being replaced by a Federal assistance program governed by subpart B of this part, in which case the replacement program is immediately subject to this subpart A.

(f) Notwithstanding any other provision of this section, if no changes to the Treasury-State agreement are required, States must notify us annually.

§ 205.8 What if there is no Treasury-State agreement in effect?

When a State does not have a Treasury-State agreement in effect, we will prescribe default procedures to implement this subpart A. The default procedures will prescribe efficient funds transfer procedures consistent with State and Federal law and identify the covered Federal assistance programs and designated funding techniques. When we and a State reach agreement on some but not all Federal assistance programs administered by the State, we and the State may enter into a Treasury-State agreement for all programs on which we are in agreement and we may prescribe default procedures governing those programs on which we are unable to reach agreement.

§ 205.9 What is included in a Treasury-State agreement?

We will prescribe a uniform format for all Treasury-State agreements. A Treasury-State agreement must include, but is not limited to, the following:

(a) State agencies, instrumentalities, and fiscal agents that administer the

Federal assistance programs subject to this subpart A.

(b) Federal assistance programs subject to this subpart A, consistent with §§ 205.3 and 205.4. A State must use its most recent Single Audit report as a basis for determining the funding thresholds for major Federal assistance programs, unless otherwise specified in the Treasury-State agreement. A State may use budget or appropriations data for a more recent period instead of Single Audit data, if specified in the Treasury-State agreement.

(c) Funding techniques to be applied to Federal assistance programs subject to this subpart A.

(d) Methods the State will use to develop and maintain clearance patterns and estimates, consistent with § 205.11. The method must include, at a minimum, a clear indication of:

(1) The data used;

(2) The sources of the data;

(3) The development process;

(4) For estimates, when and how the State will update the estimate to reflect the most recent data available;

(5) For estimates, when and how the State will make adjustments, if any, to reconcile the difference between the estimate and the State's actual cash needs; and

(6) Any assumptions, standards, or conventions used in converting the data into the clearance pattern or estimate.

(e) Federal Program Agency provisions requiring reconciliation of estimates to actual outlays may be included in a Treasury-State agreement. The supporting documentation must be retained by the State for three years.

(f) States must include the results of the clearance pattern process in the Treasury-State agreement for programs where the timing of drawdowns is based on clearance patterns. For programs where the timing of drawdowns is not based on clearance patterns, the results of the clearance pattern process may be provided with the annual report required under § 205.26. The supporting documentation must be retained by the State for three years.

(g) Methods used by the State and Federal agencies to calculate interest liabilities pursuant to this subpart A.
