

of the estimated fee before the DON activity begins to process a new or pending request from the requester. Interest will be at the rate prescribed by 31 U.S.C. 3737 and confirmed with respective finance and accounting offices.

(g) After all the work is completed on a request, and the documents are ready for release, DON activities may require payment before forwarding the documents, particularly for those requesters who have no payment history, or for those requesters who have failed to previously pay a fee in a timely fashion (*i.e.*, within 30 calendar days from the date of the billing).

(h) DON activities may charge for time spent searching for records, even if that search fails to locate records responsive to the request. DON activities may also charge search and review (in the case of commercial requesters) time if records located are determined to be exempt from disclosure. In practice, if the DON activity estimates that search charges are likely to exceed \$25.00, it shall notify the requester of the estimated amount of fees, unless the requester has indicated in advance his or her willingness to pay fees as high as those anticipated. Such a notice shall offer the requester the opportunity to confer with activity personnel with the object of reformulating the request to meet his or her needs at a lower cost.

#### § 701.46 Aggregating requests.

Except for requests that are for a commercial use, a DON activity may not charge for the first 2 hours of search time or for the first 100 pages of reproduction. However, a requester may not file multiple requests at the same time, each seeking portions of a document or documents, solely in order to avoid payment of fees. When an activity reasonably believes that a requester or, on rare occasions, a group of requesters acting in concert, is attempting to break a request down into a series of requests for the purpose of avoiding the assessment of fees, the activity may aggregate any such requests and charge accordingly. One element to be considered in determining whether a belief would be reasonable is the time period in which the requests have occurred. For example, it would be rea-

sonable to presume that multiple requests of this type made within a 30-day period had been made to avoid fees. For requests made over a longer period however, such a presumption becomes harder to sustain and activities should have a solid basis for determining that aggregation is warranted in such cases. DON activities are cautioned that before aggregating requests from more than one requester, they must have a concrete basis on which to conclude that the requesters are acting in concert and are acting specifically to avoid payment of fees. In no case may an activity aggregate multiple requests on unrelated subjects.

#### § 701.47 FOIA fees must be addressed in response letters.

DON activities shall ensure that requesters receive a complete breakout of all fees which are charged and apprised of the "Category" in which they have been placed. For example: "We are treating you as an 'All Other Requester.' As such, you are entitled to 2 free hours of search and 100 pages of reproduction, prior to any fees being assessed. We have expended an additional 2 hours of search at \$25.00 per hour and an additional 100 pages of reproduction, for a total fee of \$65.00."

#### § 701.48 Fee waivers.

Documents shall be furnished without charge, or at a charge reduced below fees assessed to the categories of requesters, when the DON activity determines that waiver or reduction of the fees is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations or activities of the DON/DoD and is not primarily in the commercial interest of the requester. When assessable costs for a FOIA request total \$15.00 or less, fees shall be waived automatically for all requesters, regardless of category. Decisions to waive or reduce fees that exceed the automatic waiver threshold shall be made on a case-by-case basis, consistent with the following factors:

(a) Disclosure of the information "is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Government."
