

## § 841.9

(1) The license shall be subject to the irrevocable royalty-free right of the Government of the United States to practice and have practiced the invention on behalf of the United States and on behalf of any foreign government or international organization pursuant to any existing or future treaty or agreement with the United States.

(2) The license shall reserve to the Air Force the right to require the licensee to grant sublicenses to responsible applicants, on reasonable terms, when necessary to fulfill health or safety needs.

(3) The license shall be subject to any licenses in force at the time of the grant of the exclusive or partially exclusive license.

(4) The license may grant the licensee the right of enforcement of the licensed patent pursuant to the provisions of 35 U.S.C. 29, as determined appropriate in the public interest.

### § 841.9 Additional licenses.

Nothing in this part will preclude the Air Force from granting licenses for Air Force inventions which are the result of an authorized exchange of rights in the settlement of patent disputes. The following exemplify circumstances wherein such licenses may be granted:

(a) In consideration of the settlement of an interference;

(b) In consideration of a release of a claim of infringement; or

(c) In exchange for or as part of the consideration for a license under adversely held patents.

### § 841.10 Foreign licenses.

(a) Exclusive or partially exclusive licenses may be granted on an Air Force invention covered by a foreign patent, patent application, or other form of protection, provided that:

(1) Notice of a prospective license identifying the invention and prospective licensee has been published in the FEDERAL REGISTER, providing opportunity for filing written objections within a 60-day period and following consideration of such objections;

(2) The Air Force has considered whether the interests of the Federal Government or United States industry

in foreign commerce will be enhanced; and

(3) The Air Force has not determined that the grant of such license will tend substantially to lessen competition or result in undue concentration in any section of the United States in any line of commerce to which the technology to be licensed relates, or to create or maintain other situations inconsistent with antitrust laws.

(b) In addition to the provisions of § 841.6, the following terms and conditions apply to foreign exclusive and partially exclusive licenses:

(1) The license shall be subject to the irrevocable, royalty-free right of the United States Government to practice and have practiced the invention on behalf of any foreign government or international organization pursuant to any existing or future treaty or agreement with the United States.

(2) The license shall be subject to any licenses in force at the time of the grant of the exclusive license.

(3) The license may grant the licensee the right to take any suitable and necessary action to protect the licensed property on behalf of the United States Government.

## Subpart C—Licensing Procedures

### § 841.11 Publication requirements.

The Department of the Air Force will cause to be published in the FEDERAL REGISTER, and at least one other publication that the Air Force deems would best serve the public interest, a list of Government inventions in the custody of the Department of the Air Force available for licensing under the conditions specified in subpart B.

### § 841.12 Request for a license.

Requests for a license under an Air Force invention should be addressed to the Chief, Patents Division, HQ USAF/JACP, Washington DC 20324.

### § 841.13 Contents of a license application.

An application for a license will include:

(a) Identification of the invention for which the license is desired including the patent application serial number or

## § 841.15

patent number, title, and date, if known;

(b) Identification of the type of license for which the application is submitted;

(c) Name and address of the person, company, or organization applying for the license and the citizenship or place of incorporation of the applicant;

(d) Name, address, and telephone number of the representative of the applicant to whom correspondence should be sent;

(e) Nature and type of applicant's business, identifying products or services which the applicant has successfully commercialized, and approximate number of applicant's employees;

(f) Source of information concerning the availability of a license on the invention;

(g) A statement indicating whether the applicant is a small business firm as defined in §841.4 of this subpart;

(h) A detailed description of the applicant's plan for development or marketing of the invention, or both, which should include:

(1) A statement of the time, nature, and amount of anticipated investment of capital and other resources which applicant believes will be required to bring the invention to practical application;

(2) A statement as to applicant's capability and intention to fulfill the plan, including information regarding manufacturing, marketing, financial, and technical resources;

(3) A statement of the fields of use for which applicant intends to practice the invention; and

(4) A statement of the geographic areas in which the applicant intends to manufacture any products embodying the invention and geographic areas where applicant intends to use or sell the invention, or both;

(i) Identification of licenses previously granted to applicant under federally owned inventions;

(j) A statement containing the applicant's best knowledge of the extent to which the invention is being practiced by private industry or Government, or both, or is otherwise available commercially; and

(k) Any other information which applicant believes will support a deter-

mination to grant the license to applicant.

### § 841.14 Published notices.

A notice that the prospective exclusive or partially exclusive licensee has been selected will be published by the Department of the Air Force in the FEDERAL REGISTER and a copy of the notice will be sent to the Attorney General. The notice will include:

(a) Identification of the invention;

(b) Identification of the selected licensee; and

(c) A statement that the license will be granted unless any written objection is received within 60 days.

### § 841.15 Determination to grant or deny exclusive or partially exclusive licenses.

(a) After the notice is published in the FEDERAL REGISTER that a prospective exclusive or partially exclusive licensee has been selected and the 60 days for filing written objections has expired, a decision will be made whether to grant or deny the license considering all arguments and evidence of record. A memorandum of the decision will be prepared and shall include:

(1) An identification of the invention, type of license desired, and name and address of the party applying for the license;

(2) The name and address of all third parties who objected to the granting of the license, if any;

(3) A brief statement of the reasons for the objections, if any;

(4) A discussion of the relative merits of the license application vs. the objections filed by third parties, if any;

(5) Determinations, and reasons supporting the determinations, whether:

(i) The interests of the Federal Government and the public will be served by the proposed license, in view of the applicant's intentions, plans, and ability to bring the invention to practical application or otherwise promote the invention's utilization by the public;

(ii) The desired practical application has not been achieved or is not likely expeditiously to be achieved under any nonexclusive license which has been granted on the invention;

(iii) Exclusive or partially exclusive licensing is a reasonable and necessary
