

§ 155.1062 Inspection and maintenance of response resources.

(a) The owner or operator of a vessel required to submit a response plan under this part must ensure that—

(1) Containment booms, skimmers, vessels, and other major equipment listed or referenced in the plan are periodically inspected and maintained in good operating condition, in accordance with manufacturer's recommendations and best commercial practices; and

(2) All inspections and maintenance are documented and that these records are maintained for 3 years.

(b) For equipment which must be inspected and maintained under this section the Coast Guard may—

(1) Verify that the equipment inventories exist as represented;

(2) Verify the existence of records required under this section;

(3) Verify that the records of inspection and maintenance reflect the actual condition of any equipment listed or referenced; and

(4) Inspect and require operational tests of equipment.

(c) This section does not apply to containment booms, skimmers, vessels, and other major equipment listed or referenced in the plan and ensured available through the written consent of an oil spill removal organization, as described in the definition of "contract or other approved means" at § 155.1020.

§ 155.1065 Procedures for plan submission, approval, requests for acceptance of alternative planning criteria, and appeal.

(a) An owner or operator of a vessel to which this subpart applies shall submit one complete English language copy of a vessel response plan to Commandant (G-MOR), Coast Guard, 2100 Second Street SW., Washington, DC 20593-0001. The plan must be submitted at least 60 days before the vessel intends to handle, store, transport, transfer, or lighter oil in areas subject to the jurisdiction of the United States.

(b) The owner or operator shall include a statement certifying that the plan meets the applicable requirements of subparts D, E, F, and G of this part and shall include a statement indicating whether the vessel(s) covered by

the plan are manned vessels carrying oil as a primary cargo, unmanned vessels carrying oil as a primary cargo, or vessels carrying oil as a secondary cargo.

(c) If the Coast Guard determines that the plan meets all requirements of this subpart, the Coast Guard will notify the vessel owner or operator with an approval letter. The plan will be valid for a period of up to 5 years from the date of approval.

(d) If the Coast Guard reviews the plan and determines that it does not meet all of the requirements, the Coast Guard will notify the vessel owner or operator of the response plan's deficiencies. The vessel owner or operator must then resubmit the revised plan, or corrected portions of the plan, within the time period specified in the written notice provided by the Coast Guard.

(e) For those vessels temporarily authorized under § 155.1025 to operate without an approved plan pending formal Coast Guard approval, the deficiency provisions of § 155.1070(c), (d), and (e) will also apply.

(f) When the owner or operator of a vessel believes that national planning criteria contained elsewhere in this part are inappropriate to the vessel for the areas in which it is intended to operate, the owner or operator may request acceptance of alternative planning criteria by the Coast Guard. Submission of a request must be made 90 days before the vessel intends to operate under the proposed alternative and must be forwarded to the COTP for the geographic area(s) affected.

(g) An owner or operator of a United States flag vessel may meet the response plan requirements of Regulation 26 of MARPOL 73/78 and subparts D, E, F, and G of this part by stating in writing, according to the provisions of § 155.1030(j), that the plan submitted is intended to address the requirements of both Regulation 26 of MARPOL 73/78 and the requirements of subparts D, E, F, and G of this part.

(h) Within 21 days of notification that a plan is not approved, the vessel owner or operator may appeal that determination to the Assistant Commandant for Marine Safety, Security and Environmental Protection. This

appeal must be submitted in writing to Commandant (G-M), Coast Guard, 2100 Second Street SW., Washington, DC 20593-0001.

[CGD 91-034, 61 FR 1081, Jan. 12, 1996, as amended by CGD 96-026, 61 FR 33666, June 28, 1996; CGD 97-023, 62 FR 33364, June 19, 1997; USCG-2002-12471, 67 FR 41333, June 18, 2002]

§ 155.1070 Procedures for plan review, revision, amendment, and appeal.

(a) A vessel response plan must be reviewed annually by the owner or operator.

(1) This review must occur within 1 month of the anniversary date of Coast Guard approval of the plan.

(2) The owner or operator shall submit any plan amendments to the Coast Guard for information or approval. Revisions to a plan must include a cover page that provides a summary of the changes being made and the pages being affected. Revised pages must further include the number of the revision and date of that revision.

(3) Any required changes must be entered in the plan and noted on the record of changes page. The completion of the annual review must also be noted on the record of changes page.

(b) The owner or operator of a vessel covered by subparts D, E, F, and G of this part shall resubmit the entire plan to the Coast Guard for approval—

(1) Six months before the end of the Coast Guard approval period identified in § 155.1065(c); and

(2) Whenever there is a change in the owner or operator of the vessel, if that owner or operator provided the certifying statement required by § 155.1065(b). If this change occurs, a new statement certifying that the plan continues to meet the applicable requirements of subparts D, E, F, and G of this part must be submitted.

(c) Revisions or amendments to an approved response plan must be submitted for approval by the vessel's owner or operator whenever there is—

(1) A change in the owner or operator of the vessel, if that owner or operator is not the one who provided the certifying statement required by § 155.1065(b);

(2) A change in the vessel's operating area that includes ports or geographic area(s) not covered by the previously

approved plan. A vessel may operate in an area not covered in a previously approved plan upon receipt of written acknowledgment by the Coast Guard that a new geographic-specific appendix has been submitted for approval by the vessel's owner or operator and the certification required in § 155.1025(c) has been provided;

(3) A significant change in the vessel's configuration that affects the information included in the response plan;

(4) A change in the type of oil cargo carried aboard (oil group) that affects the required response resources, except as authorized by the COTP for purposes of assisting in an oil spill response activity;

(5) A change in the identification of the oil spill removal organization(s) or other response related resource required by §§ 155.1050, 155.1052, 155.1230, or 155.2230, as appropriate, except an oil spill removal organization required by § 155.1050(d) which may be changed on a case by case basis for an oil spill removal organization previously classified by the Coast Guard which has been ensured available by contract or other approved means;

(6) A significant change in the vessel's emergency response procedures;

(7) A change in the qualified individual;

(8) The addition of a vessel to the plan. This change must include the vessel-specific appendix required by this subpart and the owner or operator's certification required in § 155.1025(c); or

(9) Any other significant changes that affect the implementation of the plan.

(d) Thirty days in advance of operation, the owner or operator shall submit any revision or amendments identified in paragraph (c) of this section. The certification required in § 155.1065(b) must be submitted along with the revisions or amendments.

(e) The Coast Guard may require a vessel owner or operator to revise a response plan at any time if it is determined that the response plan does not meet the requirements of this subpart. The Coast Guard will notify the vessel owner or operator in writing of any deficiencies and any operating restrictions. Deficiencies must be corrected
