and other roads authorized by the Forest Service.

(2) *Temporary Roads.* Roads authorized by contract, permit, lease, other written authorization, or emergency operation not intended to be part of the forest transportation system and not necessary for long-term resource management.

(3) *Unclassified Roads.* Roads on National Forest System lands that are not managed as part of the forest transportation system, such as unplanned roads, abandoned travelways, and off-road vehicle tracks that have not been designated and managed as a trail; and those roads that were once under permit or other authorization and were not decommissioned upon the termination of the authorization.

Road and trail 10 percent funds. Funds available from the permanent appropriation "Roads and Trails for States" under the Act of March 4, 1913 (37 Stat. 843), as amended; 16 U.S.C. 501.

Road Decommissioning. Activities that result in the stabilization and restoration of unneeded roads to a more natural state.

Road Reconstruction. Activity that results in improvement or realignment of an existing classified road as defined below:

(1) *Road Improvement:* Activity that results in an increase of an existing road's traffic service level, expands its capacity, or changes its original design function.

(2) *Road Realignment:* Activity that results in a new location of an existing road or portions of an existing road and treatment of the old roadway.

§212.2 Forest transportation program.

(a) For each national forest, national grassland, experimental forest, and any other unit of the National Forest System as defined in §212.1 and listed in 36

36 CFR Ch. II (7-1-05 Edition)

CFR part 200, subpart A, the Forest Supervisor or other responsible official must develop and maintain a forest transportation atlas, which is to be available to the public at administrative headquarters units. The purpose of the atlas is to display the system of roads, trails, and airfields of the unit. The atlas consists of the geo-spatial, tabular, and other data to support analysis needs and resource management objectives identified in land management plans. The atlas is a dynamic document that changes in response to new information on the existence and condition of roads, trails, and airfields of the unit. The atlas does not contain inventories of temporary roads, which are tracked by the project or activity authorizing the temporary road. The content and maintenance requirements for the atlas are identified in the Forest Service directive system (36 CFR 200.1).

(b) A program of work for the forest transportation system shall be developed each fiscal year in accordance with procedures prescribed by the Chief.

§212.3 Cooperative work.

(a) Cooperative agreements for all projects which involve financial contributions from cooperators shall be negotiated, approved, and executed in accordance with procedures prescribed by the Chief.

(b) Cooperative funds contributed in advance shall be deposited in the United States Treasury to the credit of the Forest Service Cooperative Fund authorized by the Act of June 30, 1914 (38 Stat. 430), as amended; 16 U.S.C. 498, or the Act of March 3, 1925 (43 Stat. 1132), as amended; 16 U.S.C. 572, which deposits will be made available for expenditure from the appropriation "Cooperative Work, Forest Service." If a State, county or other governmental agency is unable to contribute funds under the Act of March 3, 1925, as amended, in advance but is able to pay its share subsequent to performance of the work, the subsequent payment of such funds will be deposited to the credit of the Forest Service appropriation from which the expenditures were
