Subpart B—State Agency Responsibilities

§ 1321.7 Mission of the State agency.

(a) The Older Americans Act intends that the State agency on aging shall be the leader relative to all aging issues on behalf of all older persons in the State. This means that the State agency shall proactively carry out a wide range of functions related to advocacy, planning, coordination, interagency linkages, information sharing, brokering, monitoring and evaluation, designed to lead to the development or enhancement of comprehensive and coordinated community based systems in, or serving, communities throughout the State. These systems shall be designed to assist older persons in leading independent, meaningful and dignified lives in their own homes and communities as long as possible.

(b) The State agency shall designate area agencies on aging for the purpose of carrying out the mission described above for the State agency at the sub-State level. The State agency shall designate as its area agencies on aging only those sub-state agencies having the capacity and making the commitment to fully carry out the mission described for area agencies in § 1321.53 below.

(c) The State agency shall assure that the resources made available to area agencies on aging under the Older Americans Act are used to carry out the mission described for area agencies in § 1321.53 below.

§ 1321.9 Organization and staffing of the State agency.

(a) The State shall designate a sole State agency to develop and administer the State plan required under this part and serve as the effective visible advocate for the elderly within the State.

(b) The State agency shall have an adequate number of qualified staff to carry out the functions prescribed in this part.

(c) The State agency shall have within the State agency, or shall contract or otherwise arrange with another agency or organization, as permitted by section 307(a)(12)(A), an Office of the State Long-Term Care Ombudsman, with a full-time State ombudsman and such other staff as are appropriate.

(d) If a State statute establishes a State ombudsman program which will perform the functions of section 307(a)(12) of the Act, the State agency continues to be responsible to assure that all of the requirements of the Act for this program are met regardless of the State legislation or source of funds. In such cases, the Governor shall confirm this through an assurance in the State plan.

§ 1321.11 State agency policies.

(a) The State agency on aging shall develop policies governing all aspects of programs operated under this part, including the ombudsman program whether operated directly by the State agency or under contract. These policies shall be developed in consultation with other appropriate parties in the State. The State agency is responsible for enforcement of these policies.

(b) The policies developed by the State agency shall address the manner in which the State agency will monitor the performance of all programs and activities initiated under this part for quality and effectiveness. In monitoring the ombudsman program, access to files, minus the identity of any complainant or resident of a long-term care facility, shall be available only to the director of the State agency on aging and one other senior manager of the State agency designated by the State director for this purpose. In the conduct of the monitoring of the ombudsman program, the confidentiality protections concerning any complainant or resident of a long term care facility as prescribed in section 307(a)(12) of the Act shall be strictly adhered to.
