a request for dismissal without prejudice. The Commission may dismiss an application without prejudice before it has been designated for hearing when the applicant fails to comply or justify noncompliance with Commission requests for additional information in connection with such application.

(b) *After designation for hearing.* A request to dismiss an application without prejudice after it has been designated for hearing shall be made by petition properly served upon all parties to the hearing and will be granted only for good cause shown. An application may be dismissed with prejudice after it has been designated for hearing when the applicant:

(1) Fails to comply with the requirements of § 1.221(c);

(2) Otherwise fails to prosecute his application; or

(3) Fails to comply or justify noncompliance with Commission requests for additional information in connection with such application.

§ 1.767 Cable landing licenses.

(a) Applications for cable landing licenses under 47 U.S.C. 34-39 and Executive Order No. 10530, dated May 10, 1954, should be filed in accordance with the provisions of that Executive Order. These applications should contain:

(1) The name, address and telephone number(s) of the applicant;

(2) The Government, State, or Territory under the laws of which each corporate or partnership applicant is organized;

(3) The name, title, post office address, and telephone number of the officer and any other contact point, such as legal counsel, to whom correspondence concerning the application is to be addressed;

(4) A description of the submarine cable, including the type and number of channels and the capacity thereof;

(5) A specific description of the cable landing stations on the shore of the United States and in foreign countries where the cable will land. The description shall include a map showing specific geographic coordinates, and may also include street addresses, of each landing station. The map must also specify the coordinates of any beach joint where those coordinates differ from the coordinates of the cable station. The applicant initially may file a general geographic description of the landing points; however, grant of the application will be conditioned on the Commission's final approval of a more specific description of the landing points, including all information required by this paragraph, to be filed by the applicant no later than ninety (90) days prior to construction. The Commission will give public notice of the filing of this description, and grant of the license will be considered final if the Commission does not notify the applicant otherwise in writing no later than sixty (60) days after receipt of the specific description of the landing points, unless the Commission designates a different time period;

(6) A statement as to whether the cable will be operated on a common carrier or non-common carrier basis;

(7) A list of the proposed owners of the cable system, including each U.S. cable landing station, their respective voting and ownership interests in each U.S. cable landing station, their respective voting interests in the wet link portion of the cable system, and their respective ownership interests by segment in the cable;

(8) For each applicant of the cable system, a certification as to whether the applicant is, or is affiliated with, a foreign carrier, including an entity that owns or controls a foreign cable landing station in any of the cable's destination markets. Include the citizenship of each applicant and information and certifications required in §§ 63.18(h) through (k), and in § 63.18(o), of this chapter;

(9) A certification that the applicant accepts and will abide by the routine conditions specified in paragraph (g) of this section; and

(10) Any other information that may be necessary to enable the Commission to act on the application.

(11)(i) If applying for authority to assign or transfer control of an interest in a cable system, the applicant shall complete paragraphs (a)(1) through (a)(3) of this section for both the transferor/assignor and the transferee/assignee. Only the transferee/assignee needs to complete paragraphs (a)(8) through (a)(9) of this section. At the beginning of the application, the applicant should also include a narrative of the means by which the transfer or assignment will take place. The application shall also specify, on a segment specific basis, the percentage of voting and ownership interests being transferred or assigned in the cable system, including in a U.S. cable landing station. The Commission reserves the right to request additional information as to the particulars of the transaction to aid it in making its public interest determination.

(ii) In the event the transaction requiring an assignment or transfer of control application also requires the filing of a foreign carrier affiliation notification pursuant to § 1.768, the applicant shall reference in the application
