

Federal Communications Commission

§ 61.32

prices those services above the higher of:

(1) The rate charged for such services by the competing ILEC or

(2) The lower of:

(i) The benchmark rate described in paragraph (c) of this section or

(ii) The lowest rate that the CLEC has tariffed for its interstate exchange access services, within the six months preceding June 20, 2001.

(c) From June 20, 2001 until June 20, 2002, the benchmark rate for a CLEC's interstate switched exchange access services will be \$0.025 per minute. From June 20, 2002 until June 20, 2003, the benchmark rate for a CLEC's interstate switched exchange access services will be \$0.018 per minute. From June 20, 2003 until June 21, 2004, the benchmark rate for a CLEC's interstate switched exchange access services will be \$0.012 per minute. After June 21, 2004, the benchmark rate for a CLEC's interstate switched exchange access services will be the rate charged for similar services by the competing ILEC, *provided, however*, that the benchmark rate for a CLEC's interstate switched exchange access services will not move to bill-and-keep, if at all, until June 20, 2005.

(d) Notwithstanding paragraphs (b) and (c) of this section, in the event that, after June 20, 2001, a CLEC begins serving end users in a metropolitan statistical area (MSA) where it has not previously served end users, the CLEC shall not file a tariff for its interstate exchange access services in that MSA that prices those services above the rate charged for such services by the competing ILEC.

(e) Rural exemption. Notwithstanding paragraphs (b) through (d) of this section, a rural CLEC competing with a non-rural ILEC shall not file a tariff for its interstate exchange access services that prices those services above the rate prescribed in the NECA access tariff, assuming the highest rate band for local switching. In addition to that NECA rate, the rural CLEC may assess a presubscribed interexchange carrier charge if, and only to the extent that, the competing ILEC assesses this charge.

(f) If a CLEC provides some portion of the interstate switched exchange ac-

cess services used to send traffic to or from an end user not served by that CLEC, the rate for the access services provided may not exceed the rate charged by the competing ILEC for the same access services.
