This part prescribes procedures under which applications will be received and heard and by which rules and orders will be issued under subsection 402(e) and section 406 of the Rail Passenger Service Act (45 U.S.C. 562(e) and 566).

§ 200.3 Definitions.

(a) *Act* means the Rail Passenger Service Act (45 U.S.C. 500 *et seq.*).

(f) *Downgrading of a facility* means a reduction in track classification as specified in FRA track safety standards (49 CFR part 213), or any other change in facilities which may increase the time required for a passenger train to operate over the route on which such facility is located.

(g) *Facility* means railroad tracks, right-of-way, fixed equipment and facilities, real-property appurtenant thereto, and includes signal systems, passenger station and repair tracks, station buildings, platforms, and adjunct facilities such as water, fuel, steam, electric, and air lines.

(3) Include an analysis of whether and by how much Amtrak's compensation to the railroad should be reduced if the preference requirement is altered.

(d) In accordance with section 406 of the Act, any railroad may apply to the Administrator for approval to downgrade or dispose of its facilities. Each application shall:

(1) List the facilities for proposed downgrading or disposal;
