

SUBCHAPTER A—GENERAL REGULATIONS

PART 301 [RESERVED]

PART 303—CIVIL RIGHTS

Sec.

303.1 Purpose.

303.3 Application of this part.

AUTHORITY: Public Law 105-159, 113 Stat. 1748, Title I, sections 107(a) and 106 (Dec. 9, 1999) (49 U.S.C. 113); 42 U.S.C. 2000d, *et seq.*; and 49 CFR 1.73.

SOURCE: 70 FR 7414, Feb. 14, 2005, unless otherwise noted.

§ 303.1 Purpose.

The purpose of this part is to provide guidelines and procedures for implementing the Federal Motor Carrier Safety Administration's (FMCSA) Title VI program under Title VI of the Civil Rights Act of 1964 and related civil rights laws and regulations. For FMCSA-only programs or activities, Federal financial assistance recipients or grantees will continue to apply and use the Departmental Title VI provisions at 49 CFR part 21. For joint and multi-agency programs/projects, FMCSA Federal assistance recipients or grantees must use the Title VI requirements at 49 CFR part 21, unless agreement is reached by the Federal funding agencies for the recipients to use the Title VI procedures of another agency.

§ 303.3 Application of this part.

The provisions of this part are applicable to all elements of the FMCSA and to any program or activity for which Federal financial assistance is authorized under a law administered by the FMCSA. This part provides Title VI guidelines for State Departments of Transportation and local State agencies, including their sub-recipients, to implement Title VI. It also applies to money paid, property transferred, or other Federal financial assistance extended under any program of the FMCSA after the date of this part.

PART 325—COMPLIANCE WITH INTERSTATE MOTOR CARRIER NOISE EMISSION STANDARDS

Subpart A—General Provisions

Sec.

325.1 Scope of the rules in this part.

325.3 Effective date.

325.5 Definitions.

325.7 Allowable noise levels.

325.9 Measurement tolerances.

Subpart B—Administrative Provisions

325.11 Issuance, amendment, and revocation of the rules in this part.

325.13 Inspection and examination of motor vehicles.

Subpart C—Instrumentation

325.21 Scope of the rules in this subpart.

325.23 Type of measurement systems which may be used.

325.25 Calibration of measurement systems.

325.27 Use of a windscreen.

Subpart D—Measurement of Noise Emissions; Highway Operations

325.31 Scope of the rules in this subpart.

325.33 Site characteristics; highway operations.

325.35 Ambient conditions; highway operations.

325.37 Location and operation of sound level measurement system; highway operations.

325.39 Measurement procedure; highway operations.

Subpart E—Measurement of Noise Emissions; Stationary Test

325.51 Scope of the rules in this subpart.

325.53 Site characteristics; stationary test.

325.55 Ambient conditions; stationary test.

325.57 Location and operation of sound level measurement systems; stationary test.

325.59 Measurement procedure; stationary test.

Subpart F—Correction Factors

325.71 Scope of the rules in this subpart.

325.73 Microphone distance correction factors.

325.75 Ground surface correction factors.

325.77 Computation of open site requirements—nonstandard sites.

325.79 Application of correction factors.

§ 325.1

Subpart G—Exhaust Systems and Tires

325.91 Exhaust systems.
325.93 Tires.

AUTHORITY: 42 U.S.C. 4917; 49 U.S.C. 301; 49 CFR 1.73.

SOURCE: 40 FR 42437, Sept. 12, 1975, unless otherwise noted.

EDITORIAL NOTE: Nomenclature changes to part 325 appear at 66 FR 49869, Oct. 1, 2001.

Subpart A—General Provisions

§ 325.1 Scope of the rules in this part.

(a) The rules in this part prescribe procedures for inspection, surveillance, and measurement of motor vehicles and motor vehicle equipment operated by motor carriers to determine whether those vehicles and that equipment conform to the Interstate Motor Carrier Noise Emission Standards of the Environmental Protection Agency, 40 CFR part 202.

(b) Except as provided in paragraph (c) of this section, the rules in this part apply to motor carriers engaged in interstate commerce. The rules apply at any time or under any condition of highway grade, load, acceleration or deceleration.

(c) The rules in this part do not apply to—

(1) A motor vehicle that has a Gross Vehicle Weight Rating (GVWR) of 10,000 pounds (4,536 kg.) or less;

(2) A combination of motor vehicles that has a Gross Combination Weight Rating (GCWR) of 10,000 pounds (4,536 kg.) or less;

(3) The sound generated by a warning device, such as a horn or siren, installed in a motor vehicle, unless such device is intentionally sounded in order to preclude an otherwise valid noise emission measurement;

(4) An emergency motor vehicle, such as a fire engine, an ambulance, a police van, or a rescue van, when it is responding to an emergency call;

(5) A snow plow in operation; or

(6) The sound generated by auxiliary equipment which is normally operated only when the motor vehicle on which it is installed is stopped or is operating at a speed of 5 miles per hour (8 kph) or less, unless such device is intentionally operated at speeds greater than 5 mph (8 kph) in order to preclude an other-

49 CFR Ch. III (10–1–05 Edition)

wise valid noise measurement. Examples of that type of auxiliary equipment include, but are not limited to, cranes, asphalt, spreaders, ditch diggers, liquid or slurry pumps, auxiliary air compressors, welders, and trash compactors.

§ 325.3 Effective date.

The rules in this part are effective on October 15, 1975.

§ 325.5 Definitions.

(a) *Statutory definitions.* All terms defined in the Noise Control Act of 1972 (Pub. L. 92-574, 86 Stat. 1234) are used as they are defined in that Act.

(b) *Definitions in standards.* All terms defined in § 202.10 of the Interstate Motor Carrier Noise Emission Standards, 40 CFR 202.10, are used as they are defined in that section.

(c) *Additional definitions.* (1) *Hard test site* means any test site having the ground surface covered with concrete, asphalt, packed dirt, gravel, or similar reflective material for more than ½ the distance between the microphone target point and the microphone location point.

(2) *Soft test site* means any test site having the ground surface covered with grass, other ground cover, or similar absorptive material for ½ or more of the distance between the microphone target point and the microphone location point.

(3) *Ground cover* means any of various low, dense-growing plants, such as ivy, myrtle, low weeds, or brush.

(4) *Traffic railing* means any longitudinal highway traffic barrier system installed along the side or median of a highway. For the purpose of this part, a traffic railing must have at least 35 percent of its vertical height, from the ground surface to the top of the railing, open to free space in order to qualify as an acceptable object within a noise measurement test site. Further, for the purposes of this part, posts or other discrete supports shall be ignored when ascertaining open free space.

(5) *Relatively flat* when used to describe a noise measurement site means a site which does not contain significant concave curvatures or slope reversals that may result in the focusing of
