

§ 375.507

(10) The terms and conditions for payment of the total charges, including notice of any minimum charges.

(11) The maximum amount you will demand at the time of delivery to obtain possession of the shipment, when you transport under a collect-on-delivery basis.

(12) The Surface Transportation Board's required released rates valuation statement, and the charges, if any, for optional valuation coverage. The released rates may be increased annually by the carrier based on the Department of Commerce's Cost of Living Adjustment.

(13) Evidence of any insurance coverage sold to or procured for the individual shipper from an independent insurer, including the amount of the premium for such insurance.

(14) Each attachment to the bill of lading. Each attachment is an integral part of the bill of lading contract. If not provided elsewhere to the shipper, the following three items must be added as an attachment to the bill of lading.

(i) The binding or non-binding estimate.

(ii) The order for service.

(iii) The inventory.

(c) A copy of the bill of lading must accompany a shipment at all times while in your (or your agent's) possession. Before the vehicle leaves the residence of origin, the bill of lading must be in the possession of the driver responsible for the shipment.

(d) You must retain bills of lading for each move you perform for at least one year from the date you created the bill of lading.

(e) You have the option of placing the valuation statement on either the order for service or the bill of lading, provided the order for service or bill of lading states the appropriate valuation selected by the shipper.

WEIGHING THE SHIPMENT

§ 375.507 **Must I determine the weight of a shipment?**

(a) When you transport household goods on a non-binding estimate dependent upon the shipment weight, you

49 CFR Ch. III (10-1-05 Edition)

must determine the weight of each shipment transported before the assessment of any charges.

(b) You must weigh the shipment upon a certified scale.

(c) You must provide a written explanation of volume to weight conversions, when you provide an estimate by volume and convert the volume to weight.

§ 375.509 **How must I determine the weight of a shipment?**

(a) You must weigh the shipment by using one of the following two methods:

(1) *First method—origin weigh.* You determine the difference between the tare weight of the vehicle before loading at the origin of the shipment and the gross weight of the same vehicle after loading the shipment.

(2) *Second method—back weigh.* You determine the difference between the gross weight of the vehicle with the shipment loaded and the tare weight of the same vehicle after you unload the shipment.

(b) The following three conditions must exist for both the tare and gross weighings:

(1) The vehicle must have installed or loaded all pads, dollies, hand trucks, ramps, and other equipment required in the transportation of the shipment.

(2) The driver and other persons must be off the vehicle at the time of either weighing.

(3) The fuel tanks on the vehicle must be full at the time of each weighing, or, in the alternative, when you use the *first method—origin weigh*, in paragraph (a)(1) of this section, where the tare weighing is the first weighing performed, you must refrain from adding fuel between the two weighings.

(c) You may detach the trailer of a tractor-trailer vehicle combination from the tractor and have the trailer weighed separately at each weighing provided the length of the scale platform is adequate to accommodate and support the entire trailer at one time.

(d) You must use the net weight of shipments transported in containers. You must calculate the difference between the tare weight of the container (including all pads, blocking and bracing used in the transportation of the
