

§ 21.25

(2) Notwithstanding the provisions of paragraph (c) of this section, the receipt, possession, and storage by a taxidermist of any migratory game birds taken by another by hunting is not authorized unless they are tagged as required by § 20.36 of this subchapter. The required tags may be removed during the taxidermy operations but must be retained by the taxidermist with the other records required to be kept and must be reattached to the mounted specimen after mounting. The tag must then remain attached until the mounted specimen is delivered to the owner.

(e) *Term of permit.* A taxidermist permit issued or renewed under this part expires on the date designated on the face of the permit unless amended or revoked, but the term of the permit will not exceed five (5) years from the date of issuance or renewal.

[39 FR 1178, Jan. 4, 1974, as amended at 54 FR 38151, Sept. 14, 1989; 63 FR 52637, Oct. 1, 1998; 70 FR 18320, Apr. 11, 2005]

§ 21.25 Waterfowl sale and disposal permits.

(a) *Permit requirement.* A waterfowl sale and disposal permit is required before any person may lawfully sell, trade, donate, or otherwise dispose of, to another person, any species of captive-reared and properly marked migratory waterfowl or their eggs, except that such a permit is not required for such sales or disposals of captive-reared and properly marked mallard ducks or their eggs.

(b) *Application procedures.* Submit application for waterfowl sale and disposal permits to the appropriate Regional Director (Attention: Migratory bird permit office). You can find addresses for the Regional Directors in 50 CFR 2.2. Each application must contain the general information and certification required in § 13.12(a) of this subchapter, and the following additional information:

(1) A description of the area where waterfowl are to be kept;

(2) Species and numbers of waterfowl now in possession and a statement showing from whom these were obtained;

(3) A statement indicating the method by which individual birds are

50 CFR Ch. I (10–1–05 Edition)

marked as required by the provisions of this part 21; and

(4) If a State permit is required by State law, a statement as to whether or not the applicant possesses such State permit, giving its number and expiration date.

(c) *Additional permit conditions.* In addition to the general conditions set forth in part 13 of this subchapter B, waterfowl sale and disposal permits shall be subject to the following conditions:

(1) Permittees may not take migratory waterfowl or their eggs from the wild, and may not acquire such birds or their eggs from any person not authorized by a valid permit issued pursuant to this part to dispose of such birds or their eggs.

(2) All live migratory waterfowl possessed in captivity under authority of a valid waterfowl sale and disposal permit shall have been, prior to 6 weeks of age, physically marked as defined in § 21.13(b). All offspring of such birds hatched, reared, and retained in captivity shall be so marked prior to attaining 6 weeks of age. The preceding does not apply to captive adult geese, swans, and brant which were marked previous to March 1, 1967, by a “V” notch in the web of one foot, nor to such birds held in captivity at public zoological parks, and public scientific or educational institutions.

(3) Such properly marked birds may be killed, in any number, at any time or place, by any means except shooting. Such birds may be killed by shooting only in accordance with all the applicable hunting regulations governing the taking of like species from the wild.

(4) At all times during possession, transportation, and storage until the raw carcasses of such birds are finally processed immediately prior to cooking, smoking, or canning, the marked foot or wing must remain attached to each carcass: *Provided*, That permittees who are also authorized to sell game under a State license, permit or authorization may remove the marked foot or wing from the raw carcasses if the number of his State license, permit, or authorization has first been legibly stamped in ink on the back of each carcass and on the wrapping or

container in which each carcass is maintained, or each carcass is identified by a State band on leg or wing pursuant to requirements of his State license, permit, or authorization.

(5) Such properly marked birds, alive or dead, or their eggs may be disposed of in any number, at any time or place, to any person: *Provided*, That all such birds shall be physically marked prior to sale or disposal regardless of whether or not they have attained 6 weeks of age: *And provided further*, That on each date that any such birds or their eggs, are transferred to another person, the permittee must complete a Form 3-186, Notice of Waterfowl Sale or Transfer, indicating all information required by the form and the method or methods by which individual birds are marked as required by §21.25(c)(2). (Service will provide supplies of form.) The permittee will furnish the original of completed Form 3-186 to the person acquiring the birds or eggs; retain one copy in his files as a record of his operations; attach one copy to the shipping container for the birds or eggs, or include the copy in shipping documents which accompany the shipment; and, on or before the last day of each month, mail two copies of each form completed during that month to the office of the Fish and Wildlife Service which issued his permit.

(6) Permittees shall submit an annual report within 10 days following the 31st day of December of each calendar year to the office of the Fish and Wildlife Service which issued the permit. The information provided shall give the total number of waterfowl by species in possession on that date and the method or methods by which individual birds are marked as required by the provisions of this part 21.

(d) *Term of permit.* A waterfowl sale and disposal permit issued or renewed under this part expires on the date designated on the face of the permit unless amended or revoked, but the term of the permit will not exceed five (5) years from the date of issuance or renewal.

[40 FR 28460, July 7, 1975, as amended at 54 FR 38151, Sept. 14, 1989; 63 FR 52637, Oct. 1, 1998; 70 FR 18320, Apr. 11, 2005]

§21.26 Special Canada goose permit.

(a) *What is the special Canada goose permit and what is its purpose?* The special Canada goose permit is a permit issued by us to a State wildlife agency authorizing certain resident Canada goose management and control activities that are normally prohibited. We will only issue such a permit when it will contribute to human health and safety, protect personal property, or allow resolution or prevention of injury to people or property. The management and control activities conducted under the permit are intended to relieve or prevent injurious situations only. No person should construe the permit as opening, reopening, or extending any hunting season contrary to any regulations established under Section 3 of the Migratory Bird Treaty Act.

(b) *Who may receive a permit?* Only State wildlife agencies (State) are eligible to receive a permit to undertake the various goose management and control activities. Additionally, only employees or designated agents of a permitted State wildlife agency may undertake activities for injurious resident Canada geese in accordance with the conditions specified in the permit, conditions contained in 50 CFR part 13, and conditions specified in paragraph (d) of this section.

(c) *How does a State apply for a permit?* Any State wildlife agency wishing to obtain a permit must submit an application to the appropriate Regional Director (see §13.11(b) of this subchapter) containing the general information and certification required by §13.12(a) of this subchapter plus the following information:

(1) A detailed statement showing that the goose management and control activities will either provide for human health and safety, protect personal property, or allow resolution of other injury to people or property;

(2) An estimate of the size of the resident Canada goose breeding population in the State;

(3) The requested annual take of resident Canada geese, including eggs and nests;
