Subpart A—Introduction

§21.1 Purpose of regulations.

The regulations contained in this part supplement the general permit regulations of part 13 of this subchapter with respect to permits for the taking, possession, transportation, sale, purchase, barter, importation, exportation,

and banding or marking of migratory birds. This part also provides certain exceptions to permit requirements for public, scientific, or educational institutions, and establishes depredation orders which provide limited exceptions to the Migratory Bird Treaty Act (16 U.S.C. 703-712).

[54 FR 38150, Sept. 14, 1989]

§21.2 Scope of regulations.

(a) Migratory birds, their parts, nests, or eggs, lawfully acquired prior to the effective date of Federal protection under the Migratory Bird Treaty Act (16 U.S.C. 703-712) may be possessed or transported without a permit, but may not be imported, exported, purchased, sold, bartered, or offered for purchase, sale or barter, and all shipments of such birds must be marked as provided by part 14 of this subchapter: *Provide*, no exemption from any statute or regulation shall accrue to any offspring of such migratory birds.

(b) This part, except for §21.12(a), (c), and (d) (general permit exceptions); §21.22 (banding or marking); §21.29 (Federal falconry standards); and §21.31 (rehabilitation), does not apply to the bald eagle (*Haliaeetus leucocephalus*) or the golden eagle (*Aquila chrysaetos*), for which regulations are provided in part 22 of this subchapter.

(c) The provisions of this part are in addition to, and are not in lieu of other regulations of this subchapter B which may require a permit or prescribe additional restrictions or conditions for the importation, exportation, and interstate transportation of wildlife (see also part 13).

General characteristics of captivity may include, but are not limited to, artificial housing, waste removal, health care, protection from predators, and artificially supplied food.

Falconry means the sport of taking quarry by means of a trained raptor.

Raptor means a live migratory bird of the Order *Falconiformes* or the Order *Strigiformes*, other than a bald eagle (*Haliaeetus leucocephalus*) or a golden eagle (*Aquila chrysaetos*).

Resident Canada geese means Canada geese that nest within the conterminous United States and/or Canada geese which reside within the conterminous United States during the months of June, July, or August.
