

§ 150.5

17 CFR Ch. I (4-1-06 Edition)

(2) The futures commission merchant or the affiliate maintains only such minimum control over the trading in such an account as is necessary to fulfill its duty to supervise diligently trading in the account; and

(3) Each trading decision of the discretionary account or the customer trading program is determined independently of all trading decisions in other accounts which the futures commission merchant or the affiliate holds, has a financial interest of 10% or more in, or controls.

(e) *Call for information.* Upon call by the Commission, the Director of the Division of Market Oversight or the Director's delegatee, any person claiming an exemption under paragraphs (c) or (d) of this section must provide to the Commission such information as specified in the call relating to the positions owned or controlled by that person, trading done pursuant to the claimed exemption, or the relevant business relationships supporting a claim of exemption.

[64 FR 24047, May 5, 1999, as amended at 67 FR 62353, Oct. 7, 2002]

§ 150.5 Exchange-set speculative position limits.

(a) *Exchange limits.* Each contract market as a condition of designation under part 5, appendix A, of this chapter shall be bylaw, rule, regulation, or resolution limit the maximum number of contracts a person may hold or control, separately or in combination, net long or net short, for the purchase or sale of a commodity for future delivery or, on a futures-equivalent basis, options thereon. This section shall not apply to a contract market for which position limits are set forth in § 150.2 of this part or for a futures or option contract market on a major foreign currency, for which there is no legal impediment to delivery and for which there exists a highly liquid cash market. Nothing in this section shall be construed to prohibit a contract market from fixing different and separate position limits for different types of futures contracts based on the same commodity, or from fixing different position limits for different futures or for different delivery months, or from exempting positions which are normally

known in the trade as "spreads, straddles, or arbitrage," or from fixing limits which apply to such positions which are different from limits fixed for other positions.

(b) *Levels at designation.* At the time of its initial designation, a contract market must provide for speculative position limit levels as follows:

(1) For physical delivery contracts, the spot month limit level must be no greater than one-quarter of the estimated spot month deliverable supply, calculated separately for each month to be listed, and for cash settled contracts, the spot month limit level must be no greater than necessary to minimize the potential for manipulation or distortion of the contract's or the underlying commodity's price;

(2) Individual nonspot or all-months-combined levels must be no greater than 1,000 contracts for tangible commodities other than energy products;

(3) Individual nonspot or all-months-combined levels must be no greater than 5,000 contracts for energy products and nontangible commodities, including contracts on financial products.

(c) *Adjustments to levels.* Contract markets may adjust their speculative limit levels as follows:

(1) For physical delivery contracts, the spot month limit level must be no greater than one-quarter of the estimated spot month deliverable supply, calculated separately for each month to be listed, and for cash settled contracts, the spot month limit level must be no greater than necessary to minimize the potential for manipulation or distortion of the contract's or the underlying commodity's price; and

(2) Individual nonspot or all-months-combined levels must be no greater than 10% of the average combined futures and delta-adjusted option month-end open interest for the most recent calendar year up to 25,000 contracts with a marginal increase of 2.5% thereafter or be based on position sizes customarily held by speculative traders on the contract market, which shall not be extraordinarily large relative to total open positions in the contract, the breadth and liquidity of the cash market underlying each delivery

month and the opportunity for arbitrage between the futures market and the cash market in the commodity underlying the futures contract.

(d) *Hedge exemption.* (1) No exchange bylaw, rule, regulation, or resolution adopted pursuant to this section shall apply to bona fide hedging positions as defined by a contract market in accordance with §1.3(z)(1) of this chapter. *Provided, however,* that the contract market may limit bona fide hedging positions or any other positions which have been exempted pursuant to paragraph (e) of this section which it determines are not in accord with sound commercial practices or exceed an amount which may be established and liquidated in an orderly fashion.

(2) Traders must apply to the contract market for exemption from its speculative position limit rules. In considering whether to grant such an application for exemption, contract markets must take into account the factors contained in paragraph (d)(1) of this section.

(e) *Trader accountability exemption.* Twelve months after a contract market's initial listing for trading or at any time thereafter, contract markets may submit for Commission approval under section 5a(a)(12) of the Act and §1.41(b) of this chapter a bylaw, rule, regulation, or resolution, substituting for the position limits required under paragraphs (a), (b) and (c) of this section an exchange rule requiring traders to be accountable for large positions as follows:

(1) For futures and option contracts on a financial instrument or product having an average open interest of 50,000 contracts and an average daily trading volume of 100,000 contracts and a very highly liquid cash market, an exchange bylaw, regulation or resolution requiring traders to provide information about their position upon request by the exchange;

(2) For futures and option contracts on a financial instrument or product or on an intangible commodity having an average month-end open interest of 50,000 and an average daily volume of 25,000 contracts and a highly liquid cash market, an exchange bylaw, regulation or resolution requiring traders to provide information about their po-

sition upon request by the exchange and to consent to halt increasing further a trader's positions if so ordered by the exchange;

(3) For futures and option contracts on a tangible commodity, including but not limited to metals, energy products, or international soft agricultural products, having an average month-end open interest of 50,000 contracts and an average daily volume of 5,000 contracts and a liquid cash market, an exchange bylaw, regulation or resolution requiring traders to provide information about their position upon request by the exchange and to consent to halt increasing further a trader's positions if so ordered by the exchange, *provided, however,* such contract markets are not exempt from the requirement of paragraphs (b) or (c) that they adopt an exchange bylaw, regulation or resolution setting a spot month speculative position limit with a level no greater than one quarter of the estimated spot month deliverable supply;

(4) For purposes of this paragraph, trading volume and open interest shall be calculated by combining the month-end futures and its related option contract, on a delta-adjusted basis, for all months listed during the most recent calendar year.

(f) *Other exemptions.* Exchange speculative position limits adopted pursuant to this section shall not apply to any position acquired in good faith prior to the effective date of any bylaw, rule, regulation, or resolution which specifies such limit or to a person that is registered as a futures commission merchant or as a floor broker under authority of the Act except to the extent that transactions made by such person are made on behalf of or for the account or benefit of such person. In addition to the express exemptions specified in this section, a contract market may propose such other exemptions from the requirements of this section consistent with the purposes of this section and shall submit such rules Commission review under section 5a(1)(12) of the Act and §1.41(b) of this chapter.

(g) *Aggregation.* In determining whether any person has exceeded the limits established under this section, all positions in accounts for which such

§ 150.6

person by power of attorney or otherwise directly or indirectly controls trading shall be included with the positions held by such person; such limits upon positions shall apply to positions held by two or more person acting pursuant to an express or implied agreement or understanding, the same as if the positions were held by a single person.

[64 FR 24048, May 5, 1999]

§ 150.6 Responsibility of contract markets.

Nothing in this part shall be construed to affect any provisions of the Act relating to manipulation or corners nor to relieve any contract market or its governing board from responsibility under section 5(4) of the Act to prevent manipulation and corners.

[52 FR 38923, Oct. 20, 1987, as amended at 59 FR 5528, Feb. 7, 1993]

PART 155—TRADING STANDARDS

Sec.

155.1 Definitions.

155.2 Trading standards for floor brokers.

155.3 Trading standards for futures commission merchants.

155.4 Trading standards for introducing brokers.

155.5 [Reserved]

155.6 Trading standards for the transaction of business on registered derivatives transaction execution facilities.

155.10 Exemptions.

AUTHORITY: 7 U.S.C. 6b, 6c, 6g, 6j and 12a, unless otherwise noted.

§ 155.1 Definitions.

For purposes of this part, the term *affiliated person* of a futures commission merchant or of an introducing broker means any general partner, officer, director, owner of more than ten percent of the equity interest, associated person or employee of the futures commission merchant or of the introducing broker, and any relative or spouse of any of the foregoing persons, or any relative of such spouse, who

17 CFR Ch. I (4-1-06 Edition)

shares the same home as any of the foregoing persons.

(Approved by the Office of Management and Budget under control numbers 3038-0007 and 3038-0022)

[46 FR 63036, Dec. 30, 1981, and 48 FR 35304, Aug. 3, 1983]

§ 155.2 Trading standards for floor brokers.

Each contract market shall adopt and submit to the Commission for approval pursuant to section 5a(a)(12)(A) of the Act and § 1.41 of this chapter, a set of rules which shall, at a minimum, with respect to each member of the contract market acting as a floor broker:

(a) Prohibit such member from purchasing any commodity for future delivery, purchasing any call option, or selling any put option, for his own account or for any account in which he has an interest, while holding an order of another person for the (1) purchase of any future, (2) purchase of any call option, or (3) sale of any put option, in the same commodity which is executable at the market price or at the price at which such purchase or sale can be made for the member's own account or any account in which he has an interest.

(b) Prohibit such member from selling any commodity for future delivery, selling any call option, or purchasing any put option, for his own account or for any account in which he has an interest, while holding an order of another person for the (1) sale of any future, (2) sale of any call option, or (3) purchase of any put option, in the same commodity which is executable at the market price or at the price at which such sale or purchase can be made for the member's own account or any account in which he has an interest.

(c) Prohibit such member from executing any transaction for any account of another person for which buying and/or selling orders can be placed or originated, or for which transactions can be executed, by such member without the prior specific consent of the account owner, regardless of whether the general authorization for such orders or transactions is pursuant to a written agreement, except that orders for
