

§ 30.112

20 CFR Ch. I (4–1–06 Edition)

(d) A claimant will not be entitled to any presumption otherwise provided for in these regulations if substantial evidence exists that rebuts the existence of the fact that is the subject of the presumption. Substantial evidence means such relevant evidence as a reasonable mind might accept as adequate to support a conclusion. When such evidence exists, the claimant shall be notified and afforded the opportunity to submit additional written medical documentation or records.

§ 30.112 What kind of evidence is needed to establish covered employment and how will that evidence be evaluated?

(a) Evidence of covered employment may include: Employment records; pay stubs; tax returns; Social Security records; and written affidavits or declarations, subject to penalty of perjury, by the employee, survivor or any other person. However, no one document is required to establish covered employment and a claimant is not required to submit all of the evidence listed above. A claimant may submit other evidence not listed above to establish covered employment. To be acceptable as evidence, all documents and records must be legible. OWCP will accept photocopies, certified copies, and original documents and records.

(b) Pursuant to § 30.105, DOE shall certify that it concurs with the employment information provided by the claimant, that it disagrees with the information provided by the claimant, or, after a reasonable search of its records and a reasonable effort to locate pertinent records not already in its possession, it can neither concur nor disagree with the information provided by the claimant.

(1) If DOE certifies that it concurs with the employment information provided by the claimant, then the criterion for covered employment will be established.

(2) If DOE certifies that it disagrees with the information provided by the claimant or that after a reasonable search of its records and a reasonable effort to locate pertinent records not already in its possession it can neither concur nor disagree with the information provided by the claimant, OWCP

will evaluate the evidence submitted by the claimant to determine whether the claimant has established covered employment by a preponderance of the evidence. OWCP may request additional evidence from the claimant to demonstrate that the claimant has met the criterion for covered employment. Nothing in this section shall be construed to limit OWCP's ability to require additional documentation.

(3) If the only evidence of covered employment is a self-serving affidavit and DOE either disagrees with the assertion of covered employment or cannot concur or disagree with the assertion of covered employment, then OWCP may reject the claim based upon a lack of evidence of covered employment.

§ 30.113 What are the requirements for written medical documentation, contemporaneous records, and other records or documents?

(a) All written medical documentation, contemporaneous records, and other records or documents submitted by an employee or his or her survivor to prove any criteria provided for in these regulations must be legible. OWCP will accept photocopies, certified copies, and original documents and records.

(b) To establish eligibility, the employee or his or her survivor may be required to provide, where appropriate, additional contemporaneous records to the extent they exist or an authorization to release additional contemporaneous records or a statement by the custodian(s) of the record(s) certifying that the requested record(s) no longer exist. Nothing in this section shall be construed to limit OWCP's ability to require additional documentation.

(c) If a claimant submits a certified statement, by a person with knowledge of the facts, that the medical records containing a diagnosis and date of diagnosis of a covered medical condition no longer exist, then OWCP may consider other evidence to establish a diagnosis and date of diagnosis of a covered medical condition. However, if the certified statement is a self-serving document, OWCP may reject the claim based upon a lack of evidence of a covered medical condition.
