

1206 of the Foreign Relations Authorization Act, Fiscal Year 2003 as a major non-NATO ally (see §120.32 of this subchapter).

(2) The proposed exports concern exclusively one or more foreign persons (e.g., companies or governments) located within the territories of the countries identified in paragraph (a)(1) of this section, and one or more commercial communications satellite programs included within a list of such persons and programs approved by the U.S. Government for purposes of this section, as signified in a list of such persons and programs that will be publicly available through the Internet Website of the Office of Defense Trade Controls and by other means.

(3) The articles are not major defense equipment sold under a contract in the amount of \$14,000,000 or more or defense articles or defense services sold under a contract in the amount of \$50,000,000 or more (for which purpose, as is customary, exporters may not split contracts or purchase orders). Items meeting these statutory thresholds must be submitted on a separate license application to permit the required notification to Congress pursuant to section 36(c) of the Arms Export Control Act.

(4) The articles are not detailed design, development, manufacturing or production data and do not involve the manufacture abroad of significant military equipment.

(5) The U.S. exporter reports complete shipment information to the Office of Defense Trade Controls within 15 days of shipment in accordance with section 1302 of the Foreign Relations Authorization Act for Fiscal Years 2000 and 2001, and at that time meets the documentary requirements of §123.1(c)(4) and (5), the documentary requirements of §123.9 in the case of re-exports or re-transfers, and, other documentary requirements that may be imposed as a condition of a license (e.g., parts control plans for MTCR-controlled items). The shipment information reported must include a description of the item and quantity, value, port of exit and end user and country of destination of the item.

(6) At any time in which an item exported pursuant to this section is pro-

posed for re-transfer outside of the approved territory, programs or persons (e.g., such as in the case of an item included in a satellite for launch beyond the approved territory), the detailed requirements of §123.9 apply with regard to obtaining the prior written consent of the Office of Defense Trade Controls.

(b) The re-export or re-transfer of the articles authorized for export (including to specified re-export destinations) in accordance with this section do not require the separate prior written approval of the Office of Defense Trade Controls provided all of the requirements in paragraph (a) of this section are met.

(c) The Office of Defense Trade Controls will consider, on a case-by-case basis, requests to include additional foreign companies and satellite programs within the geographic coverage of a license application submitted pursuant to this section from countries not otherwise covered, who are members of the European Space Agency or the European Union. In no case, however, can the provisions of this section apply or be relied upon by U.S. exporters in the case of countries who are subject to the mandatory requirements of section 1514 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999, concerning national security controls on satellite export licensing.

(d) Registered U.S. exporters may request at the time of a license application submitted pursuant to this section that additional foreign persons or communications satellite programs be added to the lists referred to in paragraph (a)(2) of this section, which additions, if approved, will be included within the publicly available lists of authorized recipients and programs.

### **§124.1 Manufacturing license agreements and technical assistance agreements.**

(a) The approval of the Office of Defense Trade Controls must be obtained before the defense services described in §120.9(a) of this subchapter may be furnished. In order to obtain such approval, the U.S. person must submit a proposed agreement to the Office of Defense Trade Controls. Such agreements are generally characterized as either Manufacturing license agreements, technical assistance agreements, distribution agreements or off-shore procurement agreements, and may not enter into force without the prior written approval of the Office of Defense Trade Controls. Once approved, the defense services described in the agreements may generally be provided without further licensing in accordance

with §§124.3 and 125.4(b)(2) of this subchapter. The requirements of this section apply whether or not technical data is to be disclosed or used in the performance of the defense services described in §120.9(a) of this subchapter (e.g., all the information relied upon by the U.S. person in performing the defense service is in the public domain or is otherwise exempt from the licensing requirements of this subchapter pursuant to §125.4 of this subchapter). This requirement also applies to the training of any foreign military forces, regular and irregular, in the use of defense articles. Technical assistance agreements must be submitted in such cases. In exceptional cases, The Office of Defense Trade Controls, upon written request, will consider approving the provision of defense services described in §120.9(a) of this subchapter by granting a license under part 125 of this subchapter. Also, see §126.8 of this subchapter for the requirements for prior approval of proposals relating to significant military equipment.

(b) *Classified Articles.* Copies of approved agreements involving the release of classified defense articles will be forwarded by the Office of Defense Trade Controls to the Defense Investigative Service of the Department of Defense.

(c) *Amendments.* Changes to the scope of approved agreements, including modifications, upgrades, or extensions must be submitted for approval. The amendments may not enter into force until approved by the Office of Defense Trade Controls.

(d) *Minor Amendments.* Amendments which only alter delivery or performance schedules, or other minor administrative amendments which do not affect in any manner the duration of the agreement or the clauses or information which must be included in such agreements because of the requirements of this part, do not have to be submitted for approval. One copy of all such minor amendments must be submitted to the Office of Defense Trade Controls within thirty days after they are concluded.
