

(b) *Other alterations.* (1) Subject to paragraph (b)(2) of this section, alterations to dwelling units in a multifamily housing project (including public housing) shall, to the maximum extent feasible, be made to be readily accessible to and usable by individuals with handicaps. If alterations of single elements or spaces of a dwelling unit, when considered together, amount to an alteration of a dwelling unit, the entire dwelling unit shall be made accessible. Once five percent of the dwelling units in a project are readily accessible to and usable by individuals with mobility impairments, then no additional elements of dwelling units, or entire dwelling units, are required to be accessible under this paragraph. Alterations to common areas or parts of facilities that affect accessibility of existing housing facilities shall, to the maximum extent feasible, be made to be accessible to and usable by individuals with handicaps. For purposes of this paragraph, the phrase *to the maximum extent feasible* shall not be interpreted as requiring that a recipient (including a PHA) make a dwelling unit, common area, facility or element thereof accessible if doing so would impose undue financial and administrative burdens on the operation of the multifamily housing project.

(2) HUD may prescribe a higher percentage or number than that prescribed in paragraph (b)(1) of this section for any area upon request therefor by any affected recipient or by any State or local government or agency thereof based upon demonstration to the reasonable satisfaction of HUD of a need for a higher percentage or number, based on census data or other available current data (including a currently effective Housing Assistance Plan or Comprehensive Homeless Assistance Plan), or in response to evidence of a need for a higher percentage or number received in any other manner. In reviewing such request or otherwise assessing the existence of such needs, HUD shall take into account the expected needs of eligible persons with and without handicaps.

#### § 8.24 Existing housing programs.

(a) *General.* A recipient shall operate each existing housing program or ac-

tivity receiving Federal financial assistance so that the program or activity, when viewed in its entirety, is readily accessible to and usable by individuals with handicaps. This paragraph does not—

(1) Necessarily require a recipient to make each of its existing facilities accessible to and usable by individuals with handicaps;

(2) Require a recipient to take any action that it can demonstrate would result in a fundamental alteration in the nature of its program or activity or in undue financial and administrative burdens. If an action would result in such an alteration or such burdens, the recipient shall take any action that would not result in such an alteration or such burdens but would nevertheless ensure that individuals with handicaps receive the benefits and services of the program or activity.

(b) *Methods.* A recipient may comply with the requirements of this section through such means as reassignment of services to accessible buildings, assignment of aides to beneficiaries, provision of housing or related services at alternate accessible sites, alteration of existing facilities and construction of new facilities, or any other methods that result in making its programs or activities readily accessible to and usable by individuals with handicaps. A recipient is not required to make structural changes in existing housing facilities where other methods are effective in achieving compliance with this section or to provide supportive services that are not part of the program. In choosing among available methods for meeting the requirements of this section, the recipient shall give priority to those methods that offer programs and activities to qualified individuals with handicaps in the most integrated setting appropriate.

(c) *Time period for compliance.* The recipient shall comply with the obligations established under this section within sixty days of July 11, 1988 except that—

(1) In a public housing program where structural changes in facilities are undertaken, such changes shall be made within the timeframes established in § 8.25(c).

## § 8.25

## 24 CFR Subtitle A (4-1-06 Edition)

(2) In other housing programs, where structural changes in facilities are undertaken, such changes shall be made within three years of July 11, 1988, but in any event as expeditiously as possible.

(d) *Transition plan and time period for structural changes.* Except as provided in § 8.25(c), in the event that structural changes to facilities will be undertaken to achieve program accessibility, a recipient shall develop, within six months of July 11, 1988, a transition plan setting forth the steps necessary to complete such changes. The plan shall be developed with the assistance of interested persons, including individuals with handicaps or organizations representing individuals with handicaps. A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(1) Identify physical obstacles in the recipient's facilities that limit the accessibility of its programs or activities to individuals with handicaps;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period;

(4) Indicate the official responsible for implementation of the plan; and

(5) Identify the persons or groups with whose assistance the plan was prepared.

(Approved by the Office of Management and Budget under control number 2529-0034)

[53 FR 20233, June 2, 1988; 53 FR 28115, July 26, 1988, as amended at 54 FR 37645, Sept. 12, 1989]

### § 8.25 Public housing and multi-family Indian housing.

(a) *Development and alteration of public housing and multi-family Indian housing.* (1) The requirements of § 8.22 shall apply to all newly constructed public housing and multi-family Indian housing.

(2) The requirements of § 8.23 shall apply to public housing and multi-family Indian housing developed through

rehabilitation and to the alteration of public housing and multi-family Indian housing.

(3) In developing public housing and multi-family Indian housing through the purchase of existing properties PHAs and IHAs shall give priority to facilities which are readily accessible to and usable by individuals with handicaps.

(b) *Existing public housing and multi-family Indian housing—general.* The requirements of § 8.24(a) shall apply to public housing and multi-family Indian housing programs.

(c) *Existing public housing and multi-family Indian housing—needs assessment and transition plan.* As soon as possible, each PHA (for the purpose of this paragraph, this includes an Indian Housing Authority) shall assess, on a PHA-wide basis, the needs of current tenants and applicants on its waiting list for accessible units and the extent to which such needs have not been met or cannot reasonably be met within four years through development, alterations otherwise contemplated, or other programs administered by the PHA (e.g., Section 8 Moderate Rehabilitation or Section 8 Existing Housing or Housing Vouchers). If the PHA currently has no accessible units or if the PHA or HUD determines that information regarding the availability of accessible units has not been communicated sufficiently so that, as a result, the number of eligible qualified individuals with handicaps on the waiting list is not fairly representative of the number of such persons in the area, the PHA's assessment shall include the needs of eligible qualified individuals with handicaps in the area. If the PHA determines, on the basis of such assessment, that there is no need for additional accessible dwelling units or that the need is being or will be met within four years through other means, such as new construction, Section 8 or alterations otherwise contemplated, no further action is required by the PHA under this paragraph. If the PHA determines, on the basis of its needs assessment, that alterations to make additional units accessible must be made so that the needs of eligible qualified individuals with handicaps may be accommodated proportionally to the needs of non-handicapped individuals in the
