

purchases of primary insurance; construction services (purchases only); engineering, architectural, and surveying services (purchases only); mining services (purchases only); merchanting services (sales only); financial services (purchases only, by companies or parts of companies that are not financial services providers); advertising services; computer and data processing services; data base and other information services; telecommunications services; operational leasing services; other trade-related services; auxiliary insurance services; waste treatment and depollution services; and “other” private services. “Other” private services covers transactions in the following types of services: Language translation services, salvage services, security services account collection services, satellite photograph and remote sensing/satellite imagery services, space transport (includes satellite launches, transport of goods and people for scientific experiments, and space passenger transport), and transcription services.

[66 FR 63919, Dec. 11, 2001]

§ 801.11 Rules and regulations for the BE-80, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Unaffiliated Foreign Persons.

A BE-80, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Unaffiliated Foreign Persons, will be conducted covering 1999 and every fifth year thereafter. All legal authorities, provisions, definitions, and requirements contained in §§ 801.1 through 801.9 are applicable to this survey. Additional rules and regulations for the BE-80 survey are given in paragraphs (a) through (d) of this section. More detailed instructions are given on the report forms and instructions.

(a) *Who must report*—(1) *Mandatory reporting*. Reports are required from each U.S. person who is a financial services provider or intermediary, or whose consolidated U.S. enterprise includes a separately organized subsidiary, or part, that is a financial services provider or intermediary, and who had transactions (either sales or purchases) directly with unaffiliated foreign per-

sons in all financial services combined in excess of \$3,000,000 during its fiscal year covered by the survey. The \$3,000,000 threshold should be applied to financial services transactions with unaffiliated foreign persons by all part of the consolidated U.S. enterprise combined that are financial services providers or intermediaries. Because the \$3,000,000 threshold applies separately to sales and purchases, the mandatory reporting requirement may apply only to sales, only to purchases, or to both.

(i) The determination of whether a U.S. financial services provider or intermediary is subject to this mandatory reporting requirement may be based on the judgment of knowledgeable persons in a company who can identify reportable transactions on a recall basis, with a reasonable degree of certainty, without conducting a detailed manual records search.

(ii) Reporters who file pursuant to this mandatory reporting requirement must provide data on total sales and/or purchases of each of the covered types of financial services transactions and must disaggregate the totals by country.

(2) *Voluntary reporting*. If during the fiscal year covered, sales or purchases of financial services by a firm that is a financial services provider or intermediary, or by a firm’s subsidiaries, or parts, combined that are financial services providers or intermediaries, are \$3,000,000 or less, the U.S. person is requested to provide an estimate of the total for each type of service. Provision of this information is voluntary. Because the \$3,000,000 threshold applies separately to sales and purchases, this voluntary reporting option may apply only to sales, only to purchases, or to both.

(b) *BE-80 definition of financial services provider*. The definition of financial services provider used for this survey is identical in coverage to Sector 52—Finance and Insurance, and holding companies that own or influence, and are principally engaged in making management decisions for these firms (part of Sector 55—Management of Companies and Enterprises, of the North American Industry Classification System, United States, 2002). For example, companies and/or subsidiaries and other separable

parts of companies in the following industries are defined as financial services providers: Depository credit intermediation and related activities (including commercial banking, savings institutions, credit unions, and other depository credit intermediation); nondepository credit intermediation (including credit card issuing, sales financing, and other nondepository credit intermediation); activities related to credit intermediation (including mortgage and nonmortgage loan brokers, financial transactions processing, reserve, and clearinghouse activities, and other activities related to credit intermediation); securities and commodity contracts intermediation and brokerage (including investment banking and securities dealing, securities brokerage, commodity contracts dealing, and commodity contracts brokerage); securities and commodity exchanges; other financial investment activities (including miscellaneous intermediation, portfolio management, investment advice, and all other financial investment activities); insurance carriers; insurance agencies, brokerages, and other insurance related activities; insurance and employee benefit funds (including pension funds, health and welfare funds, and other insurance funds); other investment pools and funds (including open-end investment funds, trusts, estates, and agency accounts, real estate investment trusts, and other financial vehicles); and holding companies that own, or influence the management decisions of, firms principally engaged in the aforementioned activities.

(c) *Covered types of services.* The BE-80 survey covers the following types of financial services transactions (purchases and/or sales) between U.S. financial services providers and unaffiliated foreign persons: Brokerage services related to equities transactions; other brokerage services; underwriting and private placement services; financial management services; credit-related services, except credit card services; credit card services; financial advisory and custody services; securities lending services; electronic funds transfer services; and other financial services. The BE-80 also covers total receipts and total payments for the above-listed

types of financial services transactions with affiliated foreign parties (foreign affiliates and foreign parents).

(d) *What to file.* (1) The BE-80 survey consists of Forms BE-80 (A) and BE-80(B). Before completing a form BE-80 (B), a consolidated U.S. enterprise (including the top U.S. parent and all of its subsidiaries and parts combined) must complete Form BE-80(A) to determine its reporting status. If the enterprise is subject to the mandatory reporting requirement, or if it is exempt from the mandatory reporting requirement but chooses to report data voluntarily, it should either:

(i) File a separate Form BE-80(B) for each separately organized financial services subsidiary or part of a consolidated U.S. enterprise; or

(ii) File a single BE-80(B) representing the sum of all covered transactions by all financial services subsidiaries or parts of the enterprise combined.

(2) Reporters who receive the BE-80 survey from BEA but are not subject to the mandatory reporting requirements and choose not to report data voluntarily must complete and return to BEA the Exemption Claim.
