

none will be funded without this consultation. Because the United Nations Educational, Scientific, and Cultural Organization (UNESCO) also funds international projects of the kind that can be funded under the Sea Grant International Cooperation Assistance program, and, to effect coordination in this area between Sea Grant and UNESCO, the Division of Marine Sciences (UNESCO) will be informed of all International Cooperation Assistance projects funded.

Subpart E—General Considerations Pertaining to Sea Grant Funding

§917.40 General.

This subpart sets forth general considerations pertaining to Sea Grant funding.

§917.41 Application guidance for Sea Grant funding.

(a) Detailed guidance for submission of applications for National Sea Grant Program Funding is given in the publication, "The National Sea Grant Program: Program Description and Suggestions for Preparing Proposals," available on request from: Office of Sea Grant Program, 3300 Whitehaven Street NW., Washington, DC 20235.

(b) It is noted here that application for Sea Grant funding shall be made pursuant to the following Federal provisions:

(1) OMB Circular A-110 "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations."

(2) OMB Circular A-111, "Designation of Federal Programs Suitable for Joint Funding Purposes."

(3) GSA FMC 73-6, "Coordinating Indirect Cost Rates and Audit at Educational Institutions."

(4) GSA FMC 73-7, "Administration of College and University Research Grants."

(5) GSA FMC 73-8, "Cost Principles for Educational Institutions."

(6) GSA FMC 74-4, "Cost Principles Applicable to Grants and Contracts with State and Local Governments."

(7) OMB Circular A-102, "Uniform Administrative Requirements for Grants-

in-Aid to State and Local Governments."

(8) NOAA General Provisions implementing OMB Circular A-110, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations."

§917.42 Categories of support available for the conducting of Sea Grant activities.

(a) Three categories of support are available for the conducting of Sea Grant activities: Projects; coherent area programs; and institutional programs. In general, funding for institutional programs and coherent area programs are made with expectation of renewal, as long as the funding recipient maintains a high level of quality and relevance in its activities. Project funding is made generally for a single item of research, education and training, or advisory service, but may be renewed under certain conditions; each renewal is negotiated individually.

(b) Project support is for a clearly defined activity to be conducted over a definite period of time to achieve a specified goal. The project may be in research, education, training, or advisory services. Support for a project is made to an individual investigator or project director through his organization.

(c) Intermediate between the institutional programs and individual projects are coherent area programs. These have two main purposes:

(1) To bring into the National Sea Grant Program institutions of higher education that have a strong core of capability in some aspects of marine affairs, but which do not qualify or do not wish to qualify for institutional program support at this time. The purpose of support in such cases is to enable the institution to apply its existing competence to its regional problems and opportunities while developing the broader base of capability and the internal organization that will lead to institutional support. This program category requires a definite commitment on the part of the institution to develop an institutional program and to present a multiproject, multidisciplinary program involving the existing competence of an institution in

a unified or coherent attack on well-defined local or regional problems. Such a coherent area program should include research, education and training, and advisory services, to the extent of the institution's capability.

(2) To bring into the National Sea Grant Program (on a more or less continuing basis) qualified entities that have rare or unique capability in a specialized field of marine affairs. Such entities need not be institutions of higher education.

(d) Institutional grants are made to institutions of higher education or to a combination of institutions that have an existing broad base of competence in marine affairs. To qualify, an institution must make a positive, long-range commitment to objectives of the National Sea Grant Program as evidence by committing the institution's own resources in the form of matching funds, creation of the organization necessary for management of the Sea Grant Program, quality education programs in marine areas, establishment of interdisciplinary research teams, and development of advisory service mechanisms for strong interaction with marine communities in its region. A Sea Grant institutional program is expected to provide intellectual leadership in assisting its region to solve problems and to realize opportunities of its marine environment. To the extent possible, an institutional program should involve all appropriate elements of the institution, whether colleges or departments, and devise cooperative or mutually supporting programs with other institutions of higher education, and with Federal and state agencies, local agencies, and industry. An institutional program should have substantial strength in the three basic Sea Grant activities: research, education and training, and advisory services. Sea Grant institutional programs that meet the qualifications for Sea Grant College or Sea Grant Regional Consortium status set forth at 15 CFR part 918 will be so designated by the Secretary.

§ 917.43 Terms and conditions of Sea Grant funding.

No Sea Grant funding may be applied to:

(a)(1) the purchase or rental of any land or (2) the purchase, rental, construction, preservation, or repair of any building, dock, or vessel, except that payment under any such grant or contract may (if approved by the Assistant Administrator for Administration of the National Oceanic and Atmospheric Administration or designee) be applied to the purchase, rental, construction, preservation, or repair of non-self-propelled habitats, buoys, platforms, and other similar devices or structures, or to the rental of any research vessel which is used in direct support of activities under any Sea Grant program or project.

(b) In addition, Sea Grant funding under the Sea Grant Matched Funding Program will be subject to the limitation that the total amount which may be obligated within any one state to persons under the Sea Grant Matched Funding Program in any fiscal year shall not exceed an amount equal to 15 percent of the funds appropriated for the Sea Grant Matched Funding Program.

(c) Any person who receives or utilizes Sea Grant funding shall keep the records required by OMB Circular A-110, "Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations," and by NOAA General Provision, implementing OMB Circular A-110, by OMB Circular A-102, "Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments," including records that fully disclose the amount and disposition by the recipient of such proceeds, the total cost of the program or project in which such proceeds were used, and the amount, if any, of such cost which was provided through other sources. Such records shall be maintained for three years after the completion of such a program or project. The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access, for the purpose of audit and evaluation, to any books, documents, papers, and records of receipt which, in the opinion of the Secretary or the Comptroller General, may be related or pertinent to such grants and contracts.
