

(ii) To what extent linkages already exist between the entity, other agencies, and local governments;

(iii) To what extent management or regulatory authorities affecting the coastal zone presently are administered by the agency; and

(iv) Whether the agency is equipped to handle monitoring, evaluation and enforcement responsibilities.

**§ 923.48 Documentation.**

A transmittal letter signed by the Governor is required for the submission of a management program for federal approval. The letter must state that the Governor:

(a) Has reviewed and approved as State policy, the management program, and any changes thereto, submitted for the approval of the Assistant Administrator.

(b) Has designated a single State agency to receive and administer implementation grants;

(c) Attests to the fact that the State has the authorities necessary to implement the management program; and

(d) Attests to the fact that the State is organized to implement the management program.

**Subpart F—Coordination, Public Involvement and National Interest**

SOURCE: 61 FR 33812, June 28, 1996, unless otherwise noted.

**§ 923.50 General.**

(a) Coordination with governmental agencies having interests and responsibilities affecting the coastal zone, and involvement of interest groups as well as the general public is essential to the development and administration of State coastal management programs. The coordination requirements of this subpart are intended to achieve a proper balancing of diverse interests in the coastal zone. The policies of section 303 of the Act require that there be a balancing of variety, sometimes conflicting, interests, including:

(1) The preservation, protection, development and, where possible, the restoration or enhancement of coastal resources;

(2) The achievement of wise use of coastal land and water resources with

full consideration for ecological, cultural, historic, and aesthetic values and needs for compatible economic development;

(3) The involvement of the public, of Federal, state and local governments and of regional agencies in the development and implementation of coastal management programs;

(4) The management of coastal development to improve, safeguard, and restore coastal water quality; and

(5) The study and development of plans for addressing the adverse effects of coastal hazards, including erosion, flooding, land subsidence and sea level rise.

(b) In order to be meaningful, coordination with and participation by various units and levels of government including regional commissions, interest groups, and the general public should begin early in the process of program development and should continue throughout on a timely basis to assure that such efforts will result in substantive inputs into a State's management program. State efforts should be devoted not only to obtaining information necessary for developing the management program but also to obtaining reactions and recommendations regarding the content of the management program and to responding to concerns by interested parties. The requirements for intergovernmental cooperation and public participation continue after program approval.

(c) This subpart deals with requirements for coordination with governmental entities, interest groups and the general public to assure that their interests are fully expressed and considered during the program development process and that procedures are created to insure continued consideration of their views during program implementation. In addition, this subpart deals with mediation procedures for serious disagreements between States and Federal agencies that occur during program development and implementation. This subpart addresses the requirements of the following subsections of the Act: 306(d)(1)—Opportunity for Full Participation; 306(d)(3)(A)—Plan Coordination; 306(d)(3)(B)—Continued State-Local

Consultation; 306(d)(4)—Public Hearings; 306(d)(8)—Consideration of the National Interest in Facilities; 307(b)—Federal Consultation; and 307(h)—Mediation.

**§ 923.51 Federal-State consultation.**

(a) The management program must be developed and adopted with the opportunity of full participation by relevant Federal agencies and with adequate consideration of the views of Federal agencies principally affected by such program.

(b) By providing relevant Federal agencies with the opportunity for full participation during program development and for adequately considering the views of such agencies, States can effectuate the Federal consistency provisions of subsections 307 (c) and (d) of the Act once their programs are approved. (See 15 CFR part 930 for a full discussion of the Federal consistency provisions of the Act.)

(c) In addition to the consideration of relevant Federal agency views required during program development, Federal agencies have the opportunity to provide further comment during the program review and approval process. (See subpart G for details on this process.) Moreover, in the event of a serious disagreement between a relevant Federal agency and designated State agency during program development or during program implementation, the mediation provisions of subsection 307(h) of the Act are available. (See § 923.54 for details on mediation.)

(d) In order to provide an opportunity for participation by relevant Federal agencies and give adequate consideration to their views, each state must:

(1) Contact each relevant Federal Agency listed in § 923.2(d) and such other Federal agencies as may be relevant, owing to a State's particular circumstances, early in the development of its management program. The purpose of such contact is to develop mutual arrangements or understandings regarding that agency's participation during program development;

(2) Provide for Federal agency input on a timely basis as the program is developed. Such input shall be related both to information required to de-

velop the management program and to evaluation of and recommendations concerning various elements of the management program;

(3) Solicit statements from the head of Federal agencies identified in Table 1 of § 923.52(c)(1) as to their interpretation of the national interest in the planning for and siting of facilities which are more than local in nature;

(4) Summarize the nature, frequency, and timing of contacts with relevant Federal agencies;

(5) Evaluate Federal comments received during the program development process and, where appropriate in the opinion of the State, accommodate the substance of pertinent comments in the management program. States must consider and evaluate relevant Federal agency views or comments about the following:

(i) Management of coastal resources for preservation, conservation, development, enhancement or restoration purposes;

(ii) Statements of the national interest in the planning for or siting of facilities which are more than local in nature;

(iii) Uses which are subject to the management program;

(iv) Areas which are of particular concern to the management program;

(v) Boundary determinations;

(vi) Shorefront access and protecting planning, energy facility planning and erosion planning processes; and

(vii) Federally developed or assisted plans that must be coordinated with the management program pursuant to subsection 306(d)(3) of the Act.

(6) Indicate the nature of major comments by Federal agencies provided during program development (either by including copies of comments or by summarizing comments) and discuss any major differences or conflicts between the management program and Federal views that have not been resolved at the time of program submission.

**§ 923.52 Consideration of the national interest in facilities.**

(a) The management program must provide for adequate consideration of the national interest involved in planning for, and managing the coastal
