

Consultation; 306(d)(4)—Public Hearings; 306(d)(8)—Consideration of the National Interest in Facilities; 307(b)—Federal Consultation; and 307(h)—Mediation.

**§ 923.51 Federal-State consultation.**

(a) The management program must be developed and adopted with the opportunity of full participation by relevant Federal agencies and with adequate consideration of the views of Federal agencies principally affected by such program.

(b) By providing relevant Federal agencies with the opportunity for full participation during program development and for adequately considering the views of such agencies, States can effectuate the Federal consistency provisions of subsections 307 (c) and (d) of the Act once their programs are approved. (See 15 CFR part 930 for a full discussion of the Federal consistency provisions of the Act.)

(c) In addition to the consideration of relevant Federal agency views required during program development, Federal agencies have the opportunity to provide further comment during the program review and approval process. (See subpart G for details on this process.) Moreover, in the event of a serious disagreement between a relevant Federal agency and designated State agency during program development or during program implementation, the mediation provisions of subsection 307(h) of the Act are available. (See § 923.54 for details on mediation.)

(d) In order to provide an opportunity for participation by relevant Federal agencies and give adequate consideration to their views, each state must:

(1) Contact each relevant Federal Agency listed in § 923.2(d) and such other Federal agencies as may be relevant, owing to a State's particular circumstances, early in the development of its management program. The purpose of such contact is to develop mutual arrangements or understandings regarding that agency's participation during program development;

(2) Provide for Federal agency input on a timely basis as the program is developed. Such input shall be related both to information required to de-

velop the management program and to evaluation of and recommendations concerning various elements of the management program;

(3) Solicit statements from the head of Federal agencies identified in Table 1 of § 923.52(c)(1) as to their interpretation of the national interest in the planning for and siting of facilities which are more than local in nature;

(4) Summarize the nature, frequency, and timing of contacts with relevant Federal agencies;

(5) Evaluate Federal comments received during the program development process and, where appropriate in the opinion of the State, accommodate the substance of pertinent comments in the management program. States must consider and evaluate relevant Federal agency views or comments about the following:

(i) Management of coastal resources for preservation, conservation, development, enhancement or restoration purposes;

(ii) Statements of the national interest in the planning for or siting of facilities which are more than local in nature;

(iii) Uses which are subject to the management program;

(iv) Areas which are of particular concern to the management program;

(v) Boundary determinations;

(vi) Shorefront access and protecting planning, energy facility planning and erosion planning processes; and

(vii) Federally developed or assisted plans that must be coordinated with the management program pursuant to subsection 306(d)(3) of the Act.

(6) Indicate the nature of major comments by Federal agencies provided during program development (either by including copies of comments or by summarizing comments) and discuss any major differences or conflicts between the management program and Federal views that have not been resolved at the time of program submission.

**§ 923.52 Consideration of the national interest in facilities.**

(a) The management program must provide for adequate consideration of the national interest involved in planning for, and managing the coastal

zone, including the siting of facilities such as energy facilities which are of greater than local significance. In the case of energy facilities, the State must have considered any applicable national or interstate energy plan or program.

(b) The primary purpose of this requirement is to assure adequate consideration by States of the national interest involved in the planning for and siting of facilities (which are necessary to meet other than local requirements) during:

(1) The development of the State's management program,

(2) The review and approval of the program by the Assistant Administrator, and

(3) The implementation of the program as such facilities are proposed.

(c) In order to fulfill this requirement, States must:

(1) Describe the national interest in the planning for and siting of facilities considered during program development.

(2) Indicate the sources relied upon for a description of the national interest in the planning for and siting of the facilities.

(3) Indicate how and where the consideration of the national interest is reflected in the substance of the management program. In the case of energy facilities in which there is a national interest, the program must indicate the consideration given any national or interstate energy plans or programs which are applicable to or affect a state's coastal zone.

(4) Describe the process for continued consideration of the national interest in the planning for and siting of facilities during program implementation, including a clear and detailed description of the administrative procedures and decisions points where such interest will be considered.

**§ 923.53 Federal consistency procedures.**

(a) A State must include in its management program submission, as part of the body of the submission an appendix or an attachment, the procedures it will use to implement the Federal consistency requirements of subsections

307 (c) and (d) of the Act. At a minimum, the following must be included:

(1) An indication of whether the state agency designated pursuant to subsection 306(d)(6) of the Act or a single other agency will handle consistency review (see 15 CFR 930.18);

(2) A list of Federal license and permit activities that will be subject to review (see 15 CFR 930.53);

(3) For States anticipating coastal zone effects from Outer Continental Shelf (OCS) activities, the license and permit list also must include OCS plans which describe in detail Federal license and permit activities (see 15 CFR 930.74); and

(4) The public notice procedures to be used for certifications submitted for Federal License and permit activities and, where appropriate, for OCS plans (see 15 CFR 930.61 through 930.62 and 930.78).

(b) Beyond the minimum requirements contained in paragraph (a) of this section, States have the option of including:

(1) A list of Federal activities, including development projects, which in the opinion of the State agency are likely to significantly affect the coastal zone and thereby will require a Federal agency consistency determination (see 15 CFR 930.35); and

(2) A description of the types of information and data necessary to assess the consistency of Federal license and permit activities and, where appropriate, those described in detail in OCS plans (see 15 CFR 930.56 and 930.75).

**§ 923.54 Mediation.**

(a) Section 307(h) of the Act provides for mediation of serious disagreement between any Federal agency and a coastal state in the development and implementation of a management program. In certain cases, mediation by the Secretary, with the assistance of the Executive Office of the President, may be an appropriate forum for conflict resolution.

(b) State-Federal differences should be addressed initially by the parties involved. Whenever a serious disagreement cannot be resolved between the parties concerned, either party may request the informal assistance of the Assistant Administrator in resolving
