

**Subpart C—Changes Subject to PBGC Approval**

- 4211.21 Changes subject to PBGC approval.  
 4211.22 Requests for PBGC approval.  
 4211.23 Approval of alternative method.  
 4211.24 Special rule for certain alternative methods previously approved.

**Subpart D—Allocation Methods for Merged Multiemployer Plans**

- 4211.31 Allocation of unfunded vested benefits following the merger of plans.  
 4211.32 Presumptive method for withdrawals after the initial plan year.  
 4211.33 Modified presumptive method for withdrawals after the initial plan year.  
 4211.34 Rolling-5 method for withdrawals after the initial plan year.  
 4211.35 Direct attribution method for withdrawals after the initial plan year.  
 4211.36 Modifications to the determination of initial liabilities, the amortization of initial liabilities, and the allocation fraction.  
 4211.37 Allocating unfunded vested benefits for withdrawals before the end of the initial plan year.

AUTHORITY: 29 U.S.C. 1302(b)(3); 1391(c)(1), (c)(2)(D), (c)(5)(A), (c)(5)(B), (c)(5)(D), and (f).

SOURCE: 61 FR 34097, July 1, 1996, unless otherwise noted.

**Subpart A—General**

**§ 4211.1 Purpose and scope.**

(a) *Purpose.* Section 4211 of ERISA provides four methods for allocating unfunded vested benefits to employers that withdraw from a multiemployer plan: the presumptive method (section 4211(b)); the modified presumptive method (section 4211(c)(2)); the rolling-5 method (section 4211(c)(3)); and the direct attribution method (section 4211(c)(4)). With the minor exceptions covered in § 4211.3, a plan determines the amount of unfunded vested benefits allocable to a withdrawing employer in accordance with the presumptive method, unless the plan is amended to adopt an alternative allocative method. Generally, the PBGC must approve the adoption of an alternative allocation method. On September 25, 1984, 49 FR 37686, the PBGC granted a class approval of all plan amendments adopting one of the statutory alternative allocation methods. Subpart C sets forth the criteria and procedures for PBGC approval of nonstatutory alternative

allocation methods. Section 4211(c)(5) of ERISA also permits certain modifications to the statutory allocation methods. The PBGC is to prescribe these modifications in a regulation, and plans may adopt them without PBGC approval. Subpart B contains the permissible modifications to the statutory methods. Plans may adopt other modifications subject to PBGC approval under subpart C. Finally, under section 4211(f) of ERISA, the PBGC is required to prescribe rules governing the application of the statutory allocation methods or modified methods by plans following merger of multiemployer plans. Subpart D sets forth alternative allocative methods to be used by merged plans. In addition, such plans may adopt any of the allocation methods or modifications described under subparts B and C in accordance with the rules under subparts B and C.

(b) *Scope.* This part applies to all multiemployer plans covered by title IV of ERISA.

**§ 4211.2 Definitions.**

The following terms are defined in § 4001.2 of this chapter: Code, employer, IRS, multiemployer plan, nonforfeitable benefit, PBGC, plan, and plan year.

In addition, for purposes of this part:

*Initial plan year* means a merged plan's first complete plan year that begins after the establishment of the merged plan.

*Initial plan year unfunded vested benefits* means the unfunded vested benefits as of the close of the initial plan year, less the value as of the end of the initial plan year of all outstanding claims for withdrawal liability that can reasonably be expected to be collected from employers that had withdrawn as of the end of the initial plan year.

*Merged plan* means a plan that is the result of the merger of two or more multiemployer plans.

*Merger* means the combining of two or more multiemployer plans into one multiemployer plan.

*Prior plan* means the plan in which an employer participated immediately before that plan became a part of the merged plan.

## Pension Benefit Guaranty Corporation

## § 4211.12

*Unfunded vested benefits* means an amount by which the value of non-forfeitable benefits under the plan exceeds the value of the assets of the plan.

*Withdrawing employer* means the employer for whom withdrawal liability is being calculated under section 4201 of ERISA.

*Withdrawn employer* means an employer who, prior to the withdrawing employer, has discontinued contributions to the plan or covered operations under the plan and whose obligation to contribute has not been assumed by a successor employer within the meaning of section 4204 of ERISA. A temporary suspension of contributions, including a suspension described in section 4218(2) of ERISA, is not considered a discontinuance of contributions.

### § 4211.3 Special rules for construction industry and IRC section 404(c) plans.

(a) *Construction plans.* Except as provided in §§ 4211.11(b) and 4211.21(b), a plan that primarily covers employees in the building and construction industry shall use the presumptive method for allocating unfunded vested benefits.

(b) *Section 404(c) plans.* A plan described in section 404(c) of the Code or a continuation of such a plan shall allocate unfunded vested benefits under the rolling-5 method unless the plan, by amendment, adopts an alternative method or modification.

## Subpart B—Changes Not Subject to PBGC Approval

### § 4211.11 Changes not subject to PBGC approval.

(a) *General rule.* A plan, other than a plan that primarily covers employees in the building and construction industry, may adopt, by amendment, any of the statutory allocation methods and any of the modifications set forth in §§ 4211.12 and 4211.13, without the approval of the PBGC.

(b) *Building and construction industry plans.* A plan that primarily covers employees in the building and construction industry may adopt, by amendment, any of the modifications to the presumptive rule set forth in § 4211.12 without the approval of the PBGC.

### § 4211.12 Modifications to the presumptive, modified presumptive and rolling-5 methods.

(a) *“Contributions made” and “total amount contributed”.* Each of the allocation fractions used in the presumptive, modified presumptive and rolling-5 methods is based on contributions that certain employers have made to the plan for a five-year period. For purposes of these methods, and except as provided in paragraph (b) of this section, “the sum of all contributions made” or “total amount contributed” by employers for a plan year means the amounts (other than withdrawal liability payments) considered contributed to the plan for the plan year for purposes of section 412(b)(3)(A) of the Code. For plan years before section 412 applies to the plan, “the sum of all contributions made” or “total amount contributed” means the amount reported to the IRS or the Department of Labor as total contributions for the plan year; for example, for plan years in which the plan filed the Form 5500, the amount reported as total contributions on that form. Employee contributions, if any, shall be excluded from the totals.

(b) *Changing the period for counting contributions.* A plan sponsor may amend a plan to modify the denominators in the presumptive, modified presumptive and rolling-5 methods in accordance with one of the alternatives described in this paragraph. Except as provided in paragraph (b)(4) of this section, any amendment adopted under this paragraph shall be applied consistently to all plan years. Contributions counted for one plan year may be not counted for any other plan year. If a contribution is counted as part of the “total amount contributed” for any plan year used to determine a denominator, that contribution may not also be counted as a contribution owed with respect to an earlier year used to determine the same denominator, regardless of when the plan collected that contribution.

(1) A plan sponsor may amend a plan to provide that “the sum of all contributions made” or “total amount contributed” for a plan year means the amount of contributions that the plan actually received during the plan year,
