

PART 203—EMERGENCY EMPLOYMENT OF ARMY AND OTHER RESOURCES, NATURAL DISASTER PROCEDURES

Subpart A—Introduction

- Sec.
203.11 Purpose.
203.12 Authority.
203.13 Available assistance.
203.14 Responsibilities of non-Federal interests.
203.15 Definitions.
203.16 Federally recognized Indian Tribes and the Alaska Native Corporations.

Subpart B—Disaster Preparedness

- 203.21 Disaster preparedness responsibilities of non-Federal interests.

Subpart C—Emergency Operations

- 203.31 Authority.
203.32 Policy.

Subpart D—Rehabilitation Assistance for Flood Control Works Damaged by Flood or Coastal Storm: The Corps Rehabilitation and Inspection Program

- 203.41 General.
203.42 Inspection of non-Federal flood control works.
203.43 Inspection of Federal flood control works.
203.44 Rehabilitation of non-Federal flood control works.
203.45 Rehabilitation of Federal flood control works.
203.46 Restrictions.
203.47 Modifications to non-Federal flood control works.
203.48 Inspection guidelines for non-Federal flood control works.
203.49 Rehabilitation of Hurricane and Shore Protection Projects.
203.50 Nonstructural alternatives to rehabilitation of flood control works.
203.51 Levee owner's manual.
203.52 [Reserved]

Subpart E—Emergency Water Supplies: Contaminated Water Sources and Drought Assistance

- 203.61 Emergency water supplies due to contaminated water source.
203.62 Drought assistance.

Subpart F—Advance Measures

- 203.71 Policy.
203.72 Eligibility criteria and procedures.

Subpart G—Local Interests/Cooperation Agreements

- 203.81 General.
203.82 Requirements of local cooperation.
203.83 Additional requirements.
203.84 Forms of local participation—cost sharing.
203.85 Rehabilitation of Federal flood control projects.
203.86 Transfer of completed work to local interests.

AUTHORITY: 33 U.S.C. 701n.

SOURCE: 68 FR 19359, Apr. 21, 2003, unless otherwise noted.

Subpart A—Introduction

§ 203.11 Purpose.

This part prescribes administrative policies, guidance, and operating procedures for natural disaster preparedness, response, and recovery activities of the United States Army Corps of Engineers.

§ 203.12 Authority.

Section 5 of the Flood Control Act of 1941, as amended, (33 U.S.C. 701n) (69 Stat. 186), commonly and hereinafter referred to as Public Law 84-99, authorizes an emergency fund to be expended at the discretion of the Chief of Engineers for: preparation for natural disasters; flood fighting and rescue operations; repair or restoration of flood control works threatened, damaged, or destroyed by flood, or nonstructural alternatives thereto; emergency protection of federally authorized hurricane or shore protection projects which are threatened, when such protection is warranted to protect against imminent and substantial loss to life and property; and repair and restoration of federally authorized hurricane or shore protection projects damaged or destroyed by wind, wave, or water of other than ordinary nature. The law includes provision of emergency supplies of clean water when a contaminated source threatens the public health and welfare of a locality, and activities necessary to protect life and improved property from a threat resulting from a major flood or coastal storm. This law authorizes the Secretary of the Army (Secretary) to construct wells and to transport water

§ 203.13

within areas determined by the Secretary to be drought-distressed. The Secretary of the Army has delegated the authority vested in the Secretary under Public Law 84-99 through the Assistant Secretary of the Army (Civil Works) to the Chief of Engineers, subject to such further direction as the Secretary may provide.

§ 203.13 Available assistance.

Corps assistance provided under authority of Public Law 84-99 is intended to be supplemental to State and local efforts. The principal assistance programs and activities of the Corps are described in this section.

(a) *Disaster preparedness.* Technical assistance for many types of disasters is available to State and local interests. Primary Corps efforts are focused on technical assistance for, and inspections of, flood control works, and related flood fight preparedness and training activities. Technical assistance for specialized studies, project development, and related activities, and requirements for long term assistance, are normally beyond the scope of disaster preparedness assistance, and are appropriately addressed by other Corps authorities and programs. Subpart B addresses disaster preparedness responsibilities and activities.

(b) *Emergency operations.* Emergency operations, consisting of Flood Response (flood fight and rescue operations) and Post Flood Response assistance, may be provided to supplement State and local emergency operations efforts. Subpart C of this part addresses emergency operations assistance.

(c) *Rehabilitation.* The Corps may rehabilitate flood control works damaged or destroyed by floods and coastal storms. The Corps Rehabilitation and Inspection Program (RIP) incorporates both disaster preparedness activities and Rehabilitation Assistance. The RIP consists of a process to inspect flood control works; a status determination, *i.e.*, an inspection-based determination of qualification for future potential Rehabilitation Assistance; and the provision of Rehabilitation Assistance to those projects with Active status that are damaged in a flood or coastal storm event. Subpart D ad-

33 CFR Ch. II (7-1-06 Edition)

dresses Rehabilitation Assistance and the RIP.

(d) *Emergency water supplies due to contaminated water source.* The Corps may provide emergency supplies of clean water to any locality confronted with a source of contaminated water causing, or likely to cause, a substantial threat to the public health and welfare of the inhabitants of the locality. Subpart E addresses emergency water supply assistance.

(e) *Drought assistance.* Corps assistance may be provided to drought-distressed areas (as declared by the Secretary of the Army or his delegated nominee) to construct wells and to transport water for human consumption. Subpart E addresses drought assistance.

(f) *Advance Measures.* Advance Measures assistance may be provided to protect against imminent threats of predicted, but unusual, floods. Advance Measures projects must be justified from an engineering and economic standpoint, and must be capable of completion in a timely manner. Advance Measures assistance may be provided only to protect against loss of life and/or significant damages to improved property due to flooding. Subpart F of this part addresses Advance Measures assistance.

§ 203.14 Responsibilities of non-Federal interests.

Non-Federal interests, which include State, county and local governments; federally recognized Indian Tribes; and Alaska Native Corporations, are required to make full use of their own resources before Federal assistance can be furnished. The National Guard, as part of the State's resources when it is under State control, must be fully utilized as part of the non-Federal response. Non-Federal responsibilities include the following:

(a) *Disaster preparedness.* Disaster preparedness is a basic tenet of State and local responsibility. Disaster preparedness responsibilities of non-Federal interests include:

(1) Operation and maintenance of flood control works;
