

existence and location of designated national natural landmarks, and of areas found to meet the criteria for national significance, in assessing the effects of their activities on the environment under section 102(2)(c) of the National Environmental Policy Act (42 U.S.C. 4321). The NPS is responsible for providing requested information about the National Natural Landmarks Program for these assessments.

**§ 62.7 Natural landmark modifications.**

(a) *Determination of need for modifications.* After designation, the modification of the boundaries of a natural landmark, and/or revision of information about it, may be appropriate. For example, because of new information or changes in the condition of an NNL, the boundary may have to be reduced or expanded or information about the NNL may have to be revised. Additional study may reveal that the area has nationally significant values that had not been previously documented. The NPS determines that landmark modifications are necessary through administration of the program. In addition, the NPS may receive suggestions for landmark modifications from other Federal agencies, State natural area programs, and other public and private organizations or individuals. The NPS determines the validity of these suggestions by applying the natural landmark criteria or by conducting additional study.

(b) *Boundary expansion.* (1) Three justifications exist for enlarging the boundary of a national natural landmark: better documentation of the extent of nationally significant features, professional error in the original designation, or additional landowners with nationally significant features on their property desiring the designation.

(2) If the NPS determines that an expansion of the boundary of the national natural landmark is appropriate, it will use the designation process outlined in § 62.4(b) through (j). If a boundary is expanded, only the owners in the newly considered but as yet not designated portion of the area are notified and asked if they object to designation.

(c) *Boundary reduction.* Two justifications exist for reducing the boundary of a national natural landmark: Loss of

integrity of the natural features or professional error in the original designation. If the NPS determines that a reduction in the national natural landmark boundary is indicated, the designation removal process outlined in § 62.8 is used.

(d) *Change in description of values.* If the NPS determines that a change in the description of the national natural landmark's nationally significant values is warranted, the NPS prepares the recommended changes and the Director submits the changes and all supportive documentation to the National Park System Advisory Board. The Advisory Board reviews the information submitted by the Director and makes recommendations to the Secretary. The Secretary reviews the supportive documentation and the recommendations of the board, and may approve changes in the description of a landmark's nationally significant values.

(e) *Minor technical corrections.* Minor technical corrections to a national natural landmark boundary and other administrative changes in landmark documentation not covered under paragraphs (a) through (d) of this section may be approved by the Director without a review by the Advisory Board or the approval by the Secretary. Minor technical boundary corrections are defined as those that involve a change in less than five percent of the total area of the national natural landmark. The NPS notifies owners of proposed minor technical boundary corrections or other administrative changes in documentation, as described in this paragraph (e). Based upon owner response to this notification, the NPS determines whether the proposed change is a minor technical correction to landmark documentation that can be made administratively or whether the procedures outlined in § 62.4(d) through (j) must be followed.

**§ 62.8 Natural landmark designation removal.**

(a) *Criteria for removal.* (1) Except as provided in paragraph (f) of this section, national natural landmark designation is removed from an area:

(i) When it can be shown that an error in professional judgment was made such that the site did not meet

## National Park Service, Interior

## § 62.8

the criteria for national significance at the time of designation;

(ii) When the values which originally qualified it for designation have been lost or destroyed; or

(iii) When applicable designation procedures were not followed because of prejudicial failure.

(2) Any affected owner of a designated national natural landmark may initiate the removal by submitting to the Director a request for removal of designation, stating the grounds for this removal and specifying the error in professional judgment, loss of natural values or prejudicial procedural error. A prejudicial procedural error is one that reasonably may be considered to have affected the outcome of the designation process.

(3) Within 60 days of receiving a removal request, the NPS notifies the party submitting the request of whether the NPS considers the documentation sufficient to consider removal of the natural landmark designation.

(b) *Review of removal information.* The NPS reviews the information outlining the grounds for removal. When necessary, an on-site evaluation of the area may be made, as outlined in § 62.4(c). Based on all available information, the NPS determines whether the area no longer merits designation as a national natural landmark.

(c) *Notifications.* When NPS has determined that area no longer merits designation as a national natural landmark, the NPS notifies the owner(s) and other interested parties as specified in § 62.4(d)(1)–(3). Notice of the proposed removal is also published in the FEDERAL REGISTER. The notified individuals may comment within 60 days of the date of the notice before a recommendation for removal is submitted to the Secretary. All comments received will be considered in the review and in the decision to remove the national natural landmark designation.

(d) *Removal from the registry.* (1) The Director reviews the information about a recommended removal from the Registry and determines whether the procedural requirements in this section have been met. If the Director confirms the findings, he or she submits a recommendation for removal to the National Park System Advisory Board.

The Advisory Board reviews the submitted information and recommends the removal from or retention of the area in the registry.

(2) The recommendations of the Advisory Board and the Director are submitted by the Director to the Secretary for his or her consideration. If the Secretary concurs, he or she directs the removal of the landmark from the National Registry of Natural Landmarks. Any area from which designation is withdrawn solely because of procedural error as described in paragraph (a)(1)(iii) of this section continues to meet the criteria for national significance.

(e) *Notification of removal from the registry.* When the Secretary removes a landmark from the National Registry of Natural Landmarks, the Secretary will notify the national natural landmark owner(s), the executive of the local government jurisdiction in which the area is located, Native American tribal governments and native villages and corporations in the area, the governor of the State, Congressional members who represent the Congressional District and State in which the area is located, and other interested authorities, organizations, and individuals, as outlined in § 62.4(d)(1), (2) and (3). The NPS is responsible for preparing and distributing the written notices. The NPS periodically publishes notice(s) of removal in the FEDERAL REGISTER. The NPS may reclaim the natural landmark plaque when a landmark is removed from the National Registry of Natural Landmarks.

(f) *Previously designated landmarks.* (1) NPS will notify owners of national natural landmarks designated before the effective date of these regulations to give them an opportunity within 90 days of the notice to request the removal of a national natural landmark designation from their property by writing to the Director. If owners do not respond within 90 days of the notification, the national natural landmark designations of their properties will be retained.

(2) When only some owners of a national natural landmark in multiple ownership request the removal of a national natural landmark designation

from their portions, the NPS determines whether, after removal of these portions, a sufficient acreage of the national natural landmark remains to demonstrate the original nationally significant features without undue compromise. If so, the boundaries of the national natural landmark are adjusted to remove the properties of owners who object to the designation. If not, the entire national natural landmark designation is removed and the area is removed from the National Registry of Natural Landmarks.

(3) Any removals of existing national natural landmark designations and related recommended boundary adjustments, must be presented by the Director to the National Park System Advisory Board for review before being presented to the Secretary who formally removes a national natural landmark from the national registry or approves changes in the national natural landmark boundary. Areas from which the designation has been removed may be reconsidered for designation under these regulations if ownership or other circumstances change.

#### § 62.9 General provisions.

(a) *Agreements.* The NPS may enter into contracts, memoranda of agreement, cooperative agreements, or other types of agreements with other Federal agencies, States, counties, local communities, private organizations, owners, Native American tribal governments, or other interested individuals or groups to assist in administering the National Natural Landmarks Program. The agreements may include but are not limited to provisions about identification, evaluation, monitoring or protecting national natural landmarks.

(b) *Information dissemination.* The NPS may conduct educational and scientific activities to disseminate information on national natural landmarks, the National Natural Landmarks Program, and the benefits derived from systematic surveys of significant natural features to the general public and to interested local, State and Federal agencies and private groups. Dissemination of information on ecologically or geologically fragile or sensitive areas may be restricted when release of

the information may endanger or harm the sensitive resources.

(c) *Procedural requirements.* Any individual, agency, or organization acting as a representative of the NPS in the identification, evaluation, monitoring or protection of national natural landmarks is required to follow this part.

(d) *Additional program information.* Further guidance on the operation of the National Natural Landmarks Program, as based on this part, may be found in other program documents that are available from the NPS.

(e) *Administrative recourse.* Any person has the right to insist that NPS take into account all the provisions in this part for national natural landmark designation or removal.

### PART 63—DETERMINATIONS OF ELIGIBILITY FOR INCLUSION IN THE NATIONAL REGISTER OF HISTORIC PLACES

Sec.

- 63.1 Purpose and authorities.
- 63.2 Determination of eligibility process.
- 63.3 Procedures to be applied when the agency and the State Historic Preservation Officer agree a property is eligible.
- 63.4 Other properties on which determinations of eligibility may be made by the Secretary of the Interior.
- 63.5 FEDERAL REGISTER publication of properties determined eligible.
- 63.6 Review and nomination of properties determined eligible.

AUTHORITY: Sec. 2(k), Historic Sites Act of 1935, 16 U.S.C. 462(K) (1970 ed); sec. 101(a)(1), National Historic Preservation Act of 1966, as amended, 16 U.S.C. 470(a)(1) (1970 ed); secs. 3(b) and 4(f), E.O. 11593; sec. 2 of Reorganization Plan No. 3 of 1950 (34 Stat. 1262).

SOURCE: 42 FR 47661, Sept. 21, 1977, unless otherwise noted. Redesignated at 45 FR 28716, Apr. 30, 1980, and further redesignated at 46 FR 34329, July 1, 1981.

#### § 63.1 Purpose and authorities.

(a) These regulations have been developed to assist Federal agencies in identifying and evaluating the eligibility of properties for inclusion in the National Register. The regulations explain how to request determinations of eligibility under section 2(b) of Executive Order 11593 and the regulations of
