

(4) You import a complete or partially complete engine for installation in equipment subject to equipment-based standards for which you have either a certificate of conformity or an exemption that allows you to sell the equipment.

(b) You may request this exemption in an application for certification. Otherwise, send your request to the Designated Officer. Your request must include:

(1) The name of the supplier of the partially complete engine, or the original manufacturer of the complete engine.

(2) A description of the certificate or exemption that will apply to the engines in the final configuration, or an explanation why a certificate or exemption is not needed.

(3) A brief description of how and where final assembly will be completed.

(4) An unconditional statement that the engines will comply with all applicable regulations in their final configuration.

(c) If we approve a temporary exemption for an engine, you may import it under the conditions in this section. If you are not a certificate holder, we may ask the U.S. Customs Service to require a specific bond amount to make sure you comply with the requirements of this subpart.

(d) These provisions are intended only to allow you to import engines in the specific circumstances identified in this section, so any exemption under this section expires when you complete the assembly of the engine in its final configuration. If the engine in its final configuration is subject to emission standards, then it must be covered by a certificate or a different exemption before you introduce it into commerce.

[67 FR 68347, Nov. 8, 2002, as amended at 70 FR 40516, July 13, 2005]

**§ 1068.335. What are the penalties for violations?**

(a) *All imported engines.* Unless you comply with the provisions of this subpart, importation of nonconforming engines violates sections 203 and 213(d) of the Act (42 U.S.C. 7522 and 7547(d)). You may then have to export the engines, or pay civil penalties, or both. The U.S.

Customs Service may seize unlawfully imported engines.

(b) *Temporarily imported engines.* If you do not comply with the provisions of this subpart for a temporary exemption under §1068.325 or §1068.330, you may forfeit the total amount of the bond in addition to the sanctions we identify in paragraph (a) of this section. We will consider an engine to be exported if it has been destroyed or delivered to the U.S. Customs Service for export or other disposition under applicable Customs laws and regulations. EPA or the U.S. Customs Service may offer you a grace period to allow you to export a temporarily exempted engine without penalty after the exemption expires.

[67 FR 68347, Nov. 8, 2002, as amended at 69 FR 39270, June 29, 2004; 70 FR 40516, July 13, 2005]

**Subpart E—Selective Enforcement Auditing**

**§ 1068.401. What is a selective enforcement audit?**

(a) We may conduct or require you to conduct emission tests on your production engines in a selective enforcement audit. This requirement is independent of any requirement for you to routinely test production-line engines.

(b) If we send you a signed test order, you must follow its directions and the provisions of this subpart. We may tell you where to test the engines. This may be where you produce the engines or any other emission testing facility.

(c) If we select one or more of your engine families for a selective enforcement audit, we will send the test order to the person who signed the application for certification or we will deliver it in person.

(d) If we do not select a testing facility, notify the Designated Officer within one working day of receiving the test order where you will test your engines.

(e) You must do everything we require in the audit without delay.

[69 FR 39270, June 29, 2004]

**§ 1068.405. What is in a test order?**

(a) In the test order, we will specify the following things:
