

Bureau of Land Management, Interior

§ 3276.14

(d) Production or injection pressure in pounds per square inch (psi). You must also specify whether this is gauge pressure (psig) or absolute pressure (psia);

(e) The number of days the well was producing or injecting;

(f) The well status at the end of the month;

(g) The amount of steam or hot water lost to venting or leakage, if the amount is greater than 0.5 percent of total lease production. We may modify this standard by a written order describing the change;

(h) The lease number or unit name where the well is located;

(i) The month and year the report applies to;

(j) Your name, title, signature, and a phone number where BLM may contact you; and

(k) Any other information that we may require.

§ 3276.12 What information must I give BLM in the monthly report for facility operations?

(a) For all electrical generation facilities, include in your monthly report of facility operations:

(1) Mass of steam and/or hot water used or brought into the facility, in klbs. For facilities using both steam and hot water, you must report the mass of each;

(2) The temperature of the steam or hot water in deg.F;

(3) The pressure of the steam or hot water in psi. You must also specify whether this is psig or psia;

(4) Gross generation in kiloWatt hours (kWh);

(5) Net generation at the tailgate of the facility in kWh;

(6) Temperature in deg.F and volume of the steam or hot water exiting the facility;

(7) The number of hours the plant was on line;

(8) A brief description of any outages; and

(9) Any other information we may require.

(b) For electrical generation facilities where Federal royalty is based on the sale of electricity to a utility, you must include the following additional

information in your monthly report of facility operations:

(1) Amount of electricity delivered to the sales point in kWh, if the sales point is different from the tailgate of the facility;

(2) Amount of electricity lost to transmission;

(3) A report from the utility purchasing the electricity which documents the total number of kWhs delivered to the sales point during the month, or monthly reporting period if it is not a calendar month, and the number of kWhs delivered during diurnal and seasonal pricing periods; and

(4) Any other information we may require.

§ 3276.13 What extra information must I give BLM in the monthly report for flash and dry steam facilities?

In addition to the regular monthly report information, send us:

(a) Steam flow into the turbine in klbs; for dual flash facilities, you must separate the steam flow into high pressure steam and low pressure steam;

(b) Condenser pressure in psia;

(c) Condenser temperature in deg.F;

(d) Auxiliary steam flow used for gas ejectors, steam seals, pumps, etc., in klbs;

(e) Flow of condensate out of the plant (after the cooling towers) in klbs; and

(f) Any other information we may require.

§ 3276.14 What information must I give BLM in the monthly report for direct use facilities?

(a) A daily breakdown of flow, average temperature in, and average temperature out, in deg.F;

(b) Total monthly flow through the facility in thousands of gallons (kgal) or klbs;

(c) Monthly average temperature in, in deg.F;

(d) Monthly average temperature out, in deg.F;

(e) Total heat used in millions of BTU's (MMBTU);

(f) Number of hours that geothermal heat was used; and

(g) Any other information we may require.
