

§5.2

43 CFR Subtitle A (10-1-06 Edition)

U.S. Fish and Wildlife Service or the National Park Service:

taining permission from the Indian and of observing any conditions attached to such permission.

Date _____

To the head of the _____ Service, Department of the Interior

(b) *Indian groups and communities.* Anyone who desires to take pictures, including motion pictures, or to make a television production or a sound track of Indian communities, churches, kivas, plazas, or ceremonies performed in such places, must obtain prior permission from the proper officials of the place or community. Limitations which such officials may impose must be scrupulously observed.

(Area) _____
(1) Permission is requested to make, in the area mentioned above, a _____

(2) The scope of the filming (or production or recording) and the manner and extent thereof will be as follows

Weather conditions permitting, work will commence on approximately _____ and will be completed on approximately _____

(c) *Use of Indian lands.* If the filming of pictures or the making of television productions or sound tracks requires the actual use of Indian lands, a lease or permit must be obtained pursuant to 25 CFR part 131.

(An additional sheet should be used if necessary.)

(3) The undersigned accepts and will comply with the following conditions:

(i) Utmost care will be exercised to see that no natural features are injured, and after completion of the work the area will, as required by the official in charge, either be cleaned up and restored to its prior condition or left, after clean-up, in a condition satisfactory to the official in charge.

(d) *Employment of Indians.* Any motion picture or television producer who obtains a lease or permit for the use of Indian land pursuant to 25 CFR part 131 shall be expected to pay a fair and reasonable wage to any Indians employed in connection with the production activities.

(ii) Credit will be given to the Department of the Interior and the Service involved through the use of an appropriate title or announcement, unless there is issued by the official in charge of the area a written statement that no such courtesy credit is desired.

[22 FR 1987, Mar. 26, 1957]

(iii) Pictures will be taken of wildlife only when such wildlife will be shown in its natural state or under approved management conditions if such wildlife is confined.

PART 6—PATENT REGULATIONS

Subpart A—Inventions by Employees

(iv) [Reserved]

(v) Any special instructions received from the official in charge of the area will be complied with.

(vi) Any additional information relating to the privilege applied for by this application will be furnished upon request of the official in charge.

Subpart A—Inventions by Employees

§ 6.1 Definitions.

As used in this subpart:

(a) The term *Department* means the Department of the Interior.

(b) The term *Secretary* means the Secretary of the Interior.

(c) The term *Solicitor* means the Solicitor of the Department of the Interior, or anyone authorized to act for him.

(d) The term *Commissioner* means the Commissioner of Patents, or any Assistant Commissioner who may act for the Commissioner of Patents.

(e) The term *invention* means any new and useful art, process, method, machine, manufacture, or composition of matter, or any new and useful improvement thereof, or any new variety of plant, or any new, original and ornamental design for an article of manufacture, which is or may be patentable under the laws of the United States.

(f) The term *employee* as used in this part includes a part time consultant, a part time employee or a special employee (as defined in 18 U.S.C. 202) of the Department insofar as inventions made during periods of official duty are concerned, except when special circumstances in a specific case require an exemption in order to meet the needs of the Department, each such exemption to be subject to the approval of the Commissioner.

(g) The term *governmental purpose* means the right of the Government of the United States (including any agency thereof, state, or domestic municipal government) to practice and have practiced (made or have made, used or have used, sold or have sold) throughout the world by or on behalf of the Government of the United States.

(h) The *making of the invention* means the conception or first actual reduction to practice of such invention.

§ 6.2 Report of invention.

(a) Every invention made by an employee of the Department shall be reported by such employee through his supervisor and the head of the bureau

or office to the Solicitor, unless the invention obviously is unpatentable. If the invention is the result of group work, the report shall be made by the supervisor and shall be signed by all employees participating in the making of the invention. The original and two copies of the invention report shall be furnished to the Solicitor. The Solicitor may prescribe the form of the report.

(b) The report shall be made as promptly as possible, taking into consideration such factors as possible publication or public use, reduction to practice, and the necessity for protecting any rights of the Government in the invention. Although it is not necessary to withhold the report until the process or device is completely reduced to practice, reduction to practice assists in the preparation of a patent application and, if diligently pursued, protects the interests of the Government and of the inventor. If an invention is reduced to practice after the invention report is filed, the Solicitor must be notified forthwith.

(c) For the protection of the rights of the Government and of the inventor, invention reports and memoranda or correspondence concerning them are to be considered as confidential documents.

(d) An invention report shall include the following:

(1) A brief but pertinently descriptive title of the invention;

(2) The full name, residence, office address, bureau or office and division, position or title, and official working place of the inventor or inventors;

(3) A statement of the evidence that is available as to the making of the invention, including information relative to conception, disclosures to others, and reduction to practice. Examples of such information are references to signed, witnessed and dated laboratory notebooks, or other authenticated records pertaining to the conception of the invention, operational data sheets, analysis and operation evaluation reports pertaining to a reduction to practice, and visitor log books, letters and
