

(5) Identify the steps necessary to minimize, restore, preserve and enhance in accordance with § 9.11. For disposals, this analysis shall address all four of these components of mitigation where unimproved property is involved, but shall focus on minimization through floodproofing and restoration of natural values where improved property is involved;

(6) Reevaluate the proposal to dispose of the property in light of its exposure to the flood hazard and its natural values-related impacts, in accordance with § 9.9. This analysis shall focus on whether it is practicable in light of the findings from §§ 9.10 and 9.11 to dispose of the property, or whether it must be retained. If it is determined that it is practicable to dispose of the property, this analysis shall identify the practicable alternative that best achieves all of the components of the Orders' mitigation responsibility;

(7) To the extent that it would decrease the flood hazard to lives and property, the Agency shall, wherever practicable, dispose of the properties according to the following priorities:

(i) Properties located outside the floodplain;

(ii) Properties located in the flood fringe; and

(iii) Properties located in a floodway, regulatory floodway or coastal high hazard area.

(8) The Agency shall prepare and provide the public with a finding and public explanation in accordance with § 9.12.

(9) The Agency shall ensure that the applicable mitigation requirements are fully implemented in accordance with § 9.11.

(c) At the time of disposal, for all disposed property, the Agency shall reference in the conveyance uses that are restricted under existing Federal, State and local floodplain management and wetland protection standards relating to flood hazards and floodplain and wetland values.

§ 9.15 Planning programs affecting land use.

The Agency shall take floodplain management into account when formulating or evaluating any water and

land use plans. No plan may be approved unless it:

(a) Reflects consideration of flood hazards and floodplain management and wetlands protection; and

(b) Prescribes planning procedures to implement the policies and requirements of the Orders and this regulation.

§ 9.16 Guidance for applicants.

(a) The Agency shall encourage and provide adequate guidance to applicants for agency assistance to evaluate the effects of their plans and proposals in or affecting floodplains and wetlands.

(b) This shall be accomplished primarily through amendment of all Agency instructions to applicants, e.g., program handbooks, contracts, application and agreement forms, etc., and also through contact made by agency staff during the normal course of their activities, to fully inform prospective applicants of:

(1) The Agency's policy on floodplain management and wetlands protection as set out in § 9.2;

(2) The decision-making process to be used by the Agency in making the determination of whether to provide the required assistance as set out in § 9.6;

(3) The nature of the Orders' practicability analysis as set out in § 9.9;

(4) The nature of the Orders' mitigation responsibilities as set out in § 9.11;

(5) The nature of the Orders' public notice and involvement process as set out in §§ 9.8 and 9.12; and

(6) The supplemental requirements applicable to applications for the lease or other disposal of Agency owned properties set out in § 9.14.

(c) Guidance to applicants shall be provided where possible, prior to the time of application in order to minimize potential delays in process application due to failure of applicants to recognize and reflect the provisions of the Orders and this regulation.

§ 9.17 Instructions to applicants.

(a) *Purpose.* In accordance with Executive Orders 11988 and 11990, the Federal executive agencies must respond to a number of floodplain management and wetland protection responsibilities
